Performance Report

Overview

Like all NHS chief executives at this time I present our organisation's annual report for the year 2019-20. No doubt they, like me, write as we begin to emerge from the world-changing coronavirus pandemic, where life has shifted immeasurably for all of us and where together we face a foreseeable future 'caring with COVID-19.

The word 'caring' is especially poignant as we started 2020 looking forward to celebrating the World Health Organisation's Year of the Nurse and the Midwife, alongside the bicentennial year of Florence Nightingale. We did this with confidence and from a strong base, having received our CQC report in July following inspection in March-April 2019. We could not be more proud to have received a clean sweep of 'GOOD' ratings for those services inspected at both Halton and Warrington hospitals – a testament to the sheer hard work and determination of our 4,500 staff.

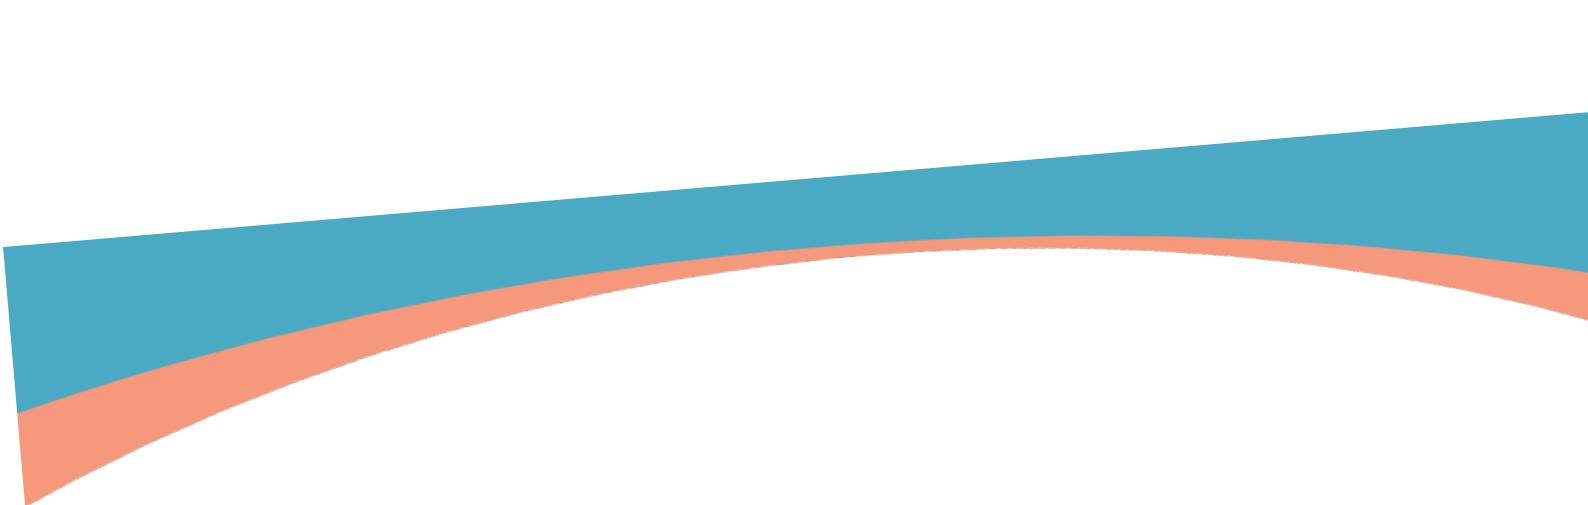

From this 'GOOD' place we have re-doubled our commitment '*To be outstanding for our patients, our communities and each other*'. While we recognise that we have a way to go, our ICU received a coveted 'CQC outstanding' for caring and this has never been more deserved than throughout the pandemic. Our journey continues.

Whilst the pandemic closed the financial year in March, we started 2019 against a backdrop of preparations for the EU Exit. Risk assessment, mitigation, preparation and simulation is what the NHS does best and alongside securing our supply chain we

ensured that our EU colleagues were supported to secure settled status and, importantly, know that they were both welcomed and an integral part of our WHH family.

I was honoured to be appointed to the role of Chief Executive in November after nearly five years as the Trust's medical director. In that time I have seen the organisation grow, improve, innovate and achieve and especially so in the diversification of our workforce. We are acutely aware that being located between the 'bright lights' of Liverpool and Manchester meant that we were not always top of the list when graduate clinicians, from all professions and backgrounds, chose their next employer so it has been particularly gratifying to see more coming forward to join us. Talented individuals are also drawn by emerging new roles such as chief registrar, physician associate, international training fellow and nurse associates and these roles have swelled our ranks, bringing fresh perspectives to the way we care.

A strong workforce with high standards delivers high quality and sustainable health-care for the population we serve. Our offer is supported by a quality training and education experience through which we achieved Teaching Hospitals status in November, supported by our lead clinical academic partner the University of Chester. We intend to build on this further. We further cemented this with the Burdett Trust for Nursing Award for 'Best Career Planning and Development' in the national awards at the end of the year following a reduction of more than 3% in nurse turnover - a 'best in country' milestone.

Great patient care relies on great, motivated staff – and plenty of them – so this in no small way supports our outstanding aspirations.

We know that our estate is not ideal from which to deliver great modern 21st century patient care and we have worked hard in year to drive our capital plan forward, investing wisely in aged premises and in the areas that will have the biggest impact. We elected to use the opportunity of the Kendrick Wing fire in 2018 to relocate as many clinical services as possible from the oldest part of Warrington Hospital and we hope to conclude this major restoration in the summer of 2020.

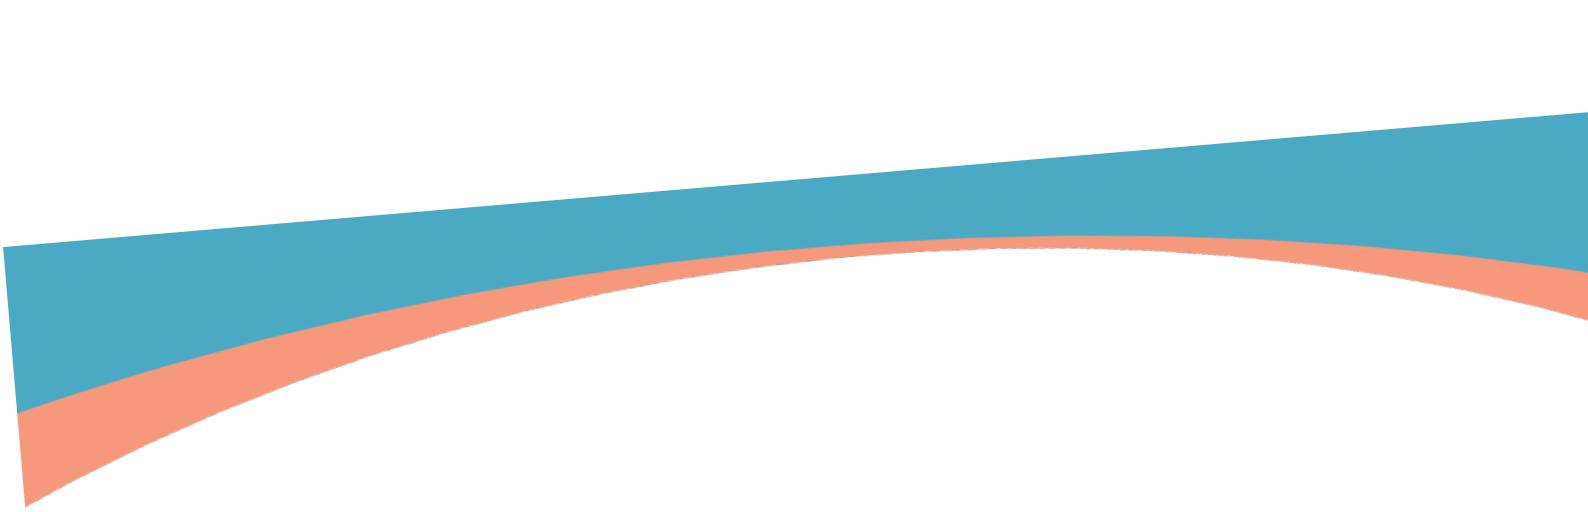

Our Emergency Department has also continually undergone internal reconfiguration to best use the limited space we have available but the space built to take 150-200 patients per day was (pre-pandemic) regularly receiving 300 patients a day, hampering our effectiveness in delivering the four-hour standard, a key performance indicator. The creation of an along-side combined assessment unit, home of 24-7 integrated medical and surgical assessment teams, has had a positive effect and as patients cautiously begin to return to the Emergency Department we know that this will ease pressures. The enthusiasm with which all medical and surgical teams have embraced these changes is testament to the determination to do the very best for our patients.

The Trust Board took a strategic decision to combine the outline strategic cases for an extension of Halton Hospital, part of the Halton Healthy New Town, with a new hospital for Warrington – recognising that one needs to work at maximum efficiency to benefit the other. In having a dedicated elective site at Halton we are able to continue to carry out

planned procedures despite the pressures on the urgent care site at Warrington - especially during winter. As we enter our recovery phase and recommence those procedures postponed due to the pandemic, having a ‘clean’ elective site and high quality estate is now more important than ever. Of course all of these aspirations require capital investment and we recognised that public sector funding could be in limited supply as together we count the cost of COVID-19.

Despite these limitations there is nothing that seems to hold our amazing Team WHH back. They have embraced everything that we have thrown at them, pre, during and post-pandemic, and risen to the challenge time and again. A fabulous response to the seasonal flu vaccination protected our patients and their families. A best-yet response to the NHS Staff Survey (53% against the national average of 46%) saw WHH top the national indicators for equality, diversity and inclusion. More than 300 nominations submitted to the annual staff *Thank You Awards* and a huge response in a year focusing on good mental health, highlighted by *Tropical Shirt Tuesday* and *Mental Elf Day*. Our BAME network has gone from strength to strength and we queued for our NHS rainbow badges demonstrating our non-judgemental and inclusive care for patients, their families and each other. We received awards, and equally gave them out in return.

As we enter 2020-21 our ‘WHH family’ is emerging understandably tired from the personal and professional implications of COVID-19, but unquestionably more resilient, more confident and better than ever. We are more tightly knit as a truly multi-professional and diverse workforce, stronger as a team appreciating each other, than simply a

collective group of individuals. We are part of our patients and their families' lives. We work side by side with our partners in health and social care and the voluntary sector. And we are humbled by, and grateful to, our wonderful communities who have cheered,

fed, watered, sewed and knitted-for and simply sustained us with their unshakeable belief that we could overcome this.

Together we are better, together we will be outstanding.

Simon Constable, Chief Executive

Statement of the purpose and activities of the Trust

The principal purpose of the Trust is the provision of goods and services for the purposes of the health service in England. The Trust does not fulfil its principal purpose unless, in each financial year, its total income from the provision of goods and services for the purposes of the health service in England is greater than its total income from the provision of goods and services for any other purposes. The Trust may provide goods and services for any purposes related to:-

- the provision of services provided to individuals for or in connection with the prevention, diagnosis or treatment of illness, and
- The promotion and protection of public health.

The Trust may also carry on activities other than those mentioned in the above paragraph for the purpose of making additional income available in order better to carry on its principal purpose.

The purpose of this Performance Overview is to give the reader a short summary that provides them with sufficient information to understand the organisation, its purpose, the key risks to the achievement of its objectives and how it has performed during the year.

A brief history of the Trust and its statutory background.

Our Trust comprises three acute (secondary) care hospitals across two sites in the Boroughs of Warrington and Halton, making us part of the mid-Mersey health economy.

Warrington Hospital is the home of all of our emergency and complex surgical care, our 'hot' site, while Halton General Hospital in Runcorn is a centre of excellence for planned routine surgery. The Cheshire and Merseyside Treatment Centre (CMTC) is home to our orthopaedic surgery services based on the Halton General site. Although each hospital focuses on particular aspects of care, we provide outpatient clinics for all our specialties and diagnostic (scanning) services at both Warrington and Halton sites so patients can access their appointments closer to home wherever possible. We also provide some outpatient services in the local community.

Warrington Hospital

Warrington Hospital focuses on emergency and specialist care and has all the backup services required to treat patients with a range of complex medical and surgical conditions and provides a full range of expert inpatient and outpatient services. Warrington Hospital is home to our accident and emergency department and maternity services as well as specialist critical care, stroke, cardiac and surgical units.

Halton Hospital

A range of planned care for medical and surgical conditions is provided at Halton Hospital delivering both inpatient and outpatient services. It provides a fantastic, friendly environment for expert surgical care. If surgery is non-complex and does not require a long hospital stay it is likely to be carried out at Halton General. There are low operation cancellation rates at the hospital as routine surgery is not as threatened by emergency work - which can take priority in larger hospitals. The hospital is home to an

Urgent Care Centre (open 9am to 10pm every day) which provides a range of minor emergency care services for local people and the hospital provides x-ray facilities until 8pm. A step down ward at the hospital is designed for patients who have had surgery or emergency medical care but who require some further support before going home. We provide chemotherapy services on site and the hospital is home to the Delamere Macmillan Unit which provides cancer support and advice.

Cheshire & Merseyside Treatment Centre

The Cheshire and Merseyside Treatment Centre is the home of orthopaedic surgery and treatment services located on the Halton Hospital campus. We provide surgery ranging from hand and foot operations through to hip replacement operations at

the centre - as well as sports injuries (sports medicine) and other bone and joint care. The centre was purpose built for orthopaedic care and is a popular choice for surgery with excellent patient feedback

Our place in the wider health economy

In delivering the Five Year Forward View we are part of the Health and Care Partnership for Cheshire and Merseyside (formerly Sustainability and Transformation Partnership – STP) the second largest in the country.

We are also working within our integrated care systems – the ‘place-based’ systems that work together within the Warrington (Warrington Together) and Halton (One Halton) boroughs.

Our Vital Statistics

- We serve a population of 330K across both boroughs
- We saw 112,371 A&E visits and 131,947 total visits to A&E, Runcorn Urgent Care Centre and Widnes Walk in Centre
- We deliver 500,000 individual patient appointments, procedures and stays
- We have circa 680 beds/assessment beds and trolleys across all sites
- We have a bespoke Forget-Me-Not unit where we deliver acute care for patients living with dementia

- We employ around 4,500 strong workforce comprising 52 nationalities
- Our Maternity service was awarded ‘Best Maternity Service in the UK’ by the RCM
- We have three key commissioners: Warrington CCG (main), Halton CCG and NHS England Specialist Commissioning
- We have an annual turnover of over £240 million
- Around 3,000 babies are born at Warrington Hospital each year

About the Trust' History

Warrington and Halton Teaching Hospitals NHS Foundation Trust was created on 1 December 2008 from what was formerly

known as North Cheshire Hospitals NHS Trust.

Warrington General Hospital was created from the workhouse in 1898. In 1929 it was renamed Warrington Borough Hospital and to this day is referred to as *the Borough* by many people. There were two other hospitals on the site; Aikin Street (an infectious diseases hospital) and Whitecross Hospital, which was run by the military. In 1973 a decision was taken to merge all three hospitals into Warrington District General Hospital. The current hospital has grown in four stages since then.

Aikin Street was demolished in the 1970s to make way for Appleton Wing of the current hospital (where the A&E, medical wards and theatres are located) which was phase A of the new General.

Burtonwood Wing opened in 1988 with the stroke, elderly care and children's wards.

The main building of Whitecross Hospital was demolished in the late 1980s to make way for the Croft Wing which opened in 1994 and houses maternity and women's services.

The Daresbury Wing opened in 1998 and was a surgical unit with single rooms.

In 1993 the government decided to separate the role of health authorities and hospitals and the hospital was handed over from Warrington Health Authority to the newly formed Warrington Hospital NHS Trust. North Cheshire Hospitals NHS Trust was formed by the merger of Warrington Hospital NHS Trust and Halton General Hospital NHS Trust in 2001.

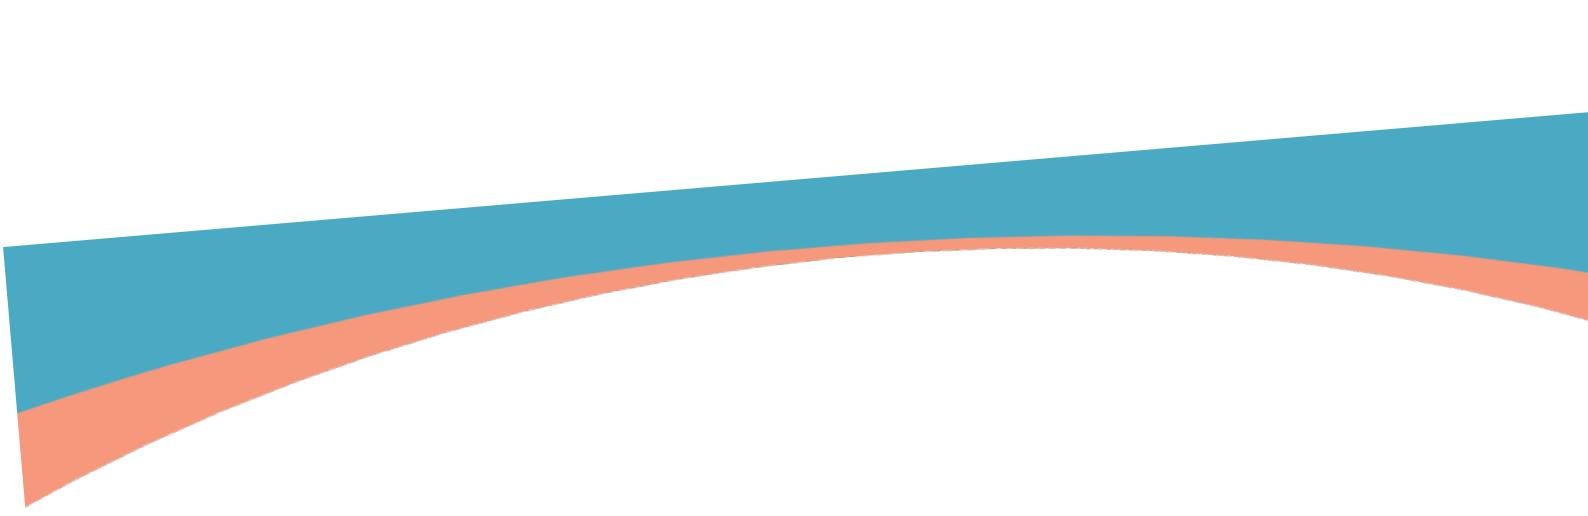

The hospital has undergone significant development over recent years with a rebuilt accident and emergency and coronary care unit and refurbishment of most of the wards. A new critical care unit

costing £6.25 million opened in February 2009 and in late 2010 new endoscopy and eye surgery units opened in the Appleton Wing.

In September 1976, Halton General Hospital was opened in Runcorn. It was a newly built 70-inpatient-bed hospital, next door to Shopping City Runcorn and part of the development of Runcorn New Town. Halton Health Authority passed control of the hospital to the newly formed Halton General Hospitals NHS Trust in 1993. In 2001 North Cheshire Hospital NHS Trust was formed by the merger of Halton General Hospital NHS Trust and Warrington Hospital NHS Trust.

In 2006 a reconfiguration of services saw the Trust's emergency and acute medical care work centralised at Warrington Hospital and planned surgical work move to Halton General. Although Halton has never had a full accident and emergency department it is now home to a state-of-the-art Urgent Care Centre where nurse-led care is available for minor injuries and ailments. A new operating theatre opened at the hospital in 2007 to provide extra surgical services. In 2008 new step down care wards, a renal dialysis unit and an expanded chemotherapy centre opened.

The Trust took ownership of the neighbouring Cheshire and Merseyside Treatment Centre in July 2012. The centre was previously home to a private healthcare provider. It has four operating theatres, 44 inpatient beds and a range of clinic, physio and scanning facilities and the Trust's orthopaedic surgery services are based there - moving from Warrington Hospital in autumn 2012. The Trust became a Foundation Trust in 2008 and has circa 15K members.

Our Mission: To be OUTSTANDING for our patients, our communities and each other

Our Strategic Objectives

1. **Quality:** We will always put our patients first through high quality, safe healthcare and an excellent patient experience
2. **People:** We will be the best place to work with a diverse, engaged workforce that is fit for the future
3. We will work in partnership to design and provide high quality, financially sustainable services.

Our Vision: To be the change we want to see in the world of health and social care

Our Values: WE ARE

Working Together, Excellent, Accountable, Role Models, Embracing Change

Key Issues, opportunities and Risks that could affect the Trust in delivering its objectives and/or its future success and sustainability

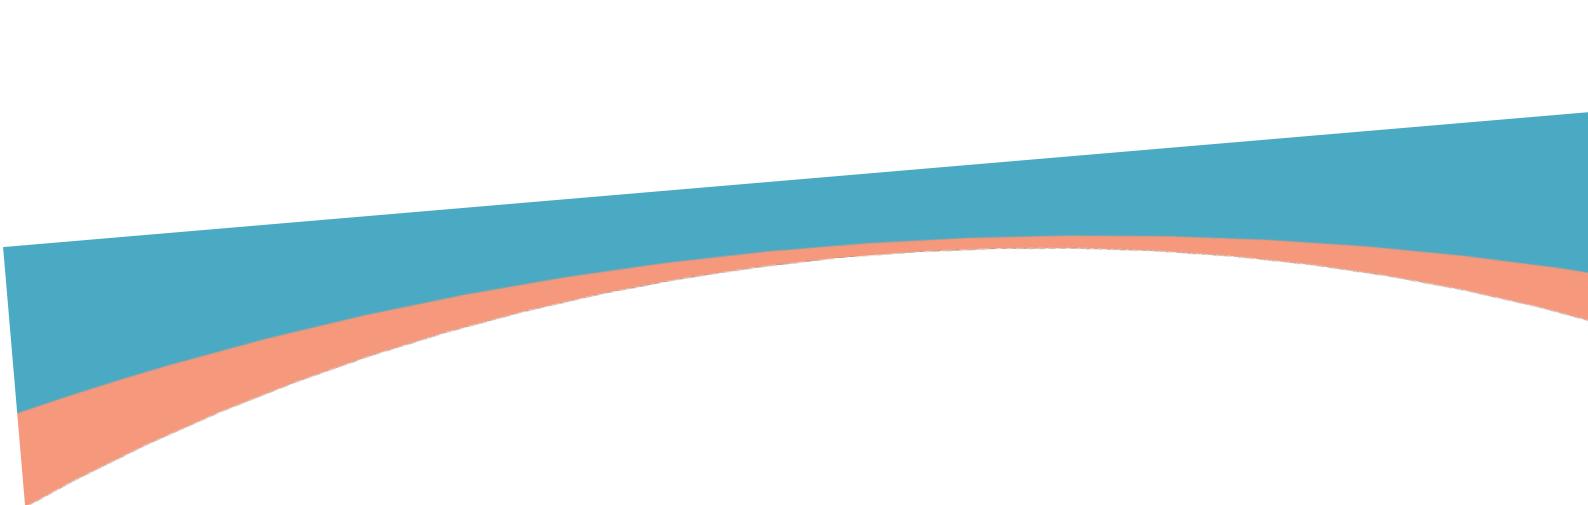

The key issues and risks that could affect the Trust in delivering its objectives are as below. These risks are recorded on the Board Assurance Framework and are scrutinised quarterly by the Board, Quality Assurance Committee and the Audit Committee. In addition, any new risks, or changes to risk ratings, are provided in updates to the Trust Board at every meeting through associated committees. These risks vary on an ongoing basis and are downgraded or upgraded as a result of changing circumstances and the implementation of mitigations. These risks are valid at time of producing this report, April 2020. The organisation has identified the following strategic risks (Red risks rated at 15 and above)

Red Risks (ie scored at 15 and above)

1. Failure to deliver an emergency and elective healthcare service caused by the global pandemic of COVID-19 resulting in major disruption to service provision.
2. Failure to provide adequate staffing levels in some specialities and wards. Caused by inability to fill vacancies, sickness. Resulting in pressure on ward staff, potential impact on patient care and impact on Trust access and financial targets.
3. Financial Sustainability
 - Failure to sustain financial viability, caused by internal and external factors, resulted in potential impact to patient safety, staff morale and enforcement/regulatory action being taken.
 - Failure to deliver the financial position and a surplus places doubt over the future sustainability of the Trust. There is a risk that current and future loans cannot be repaid and this puts into question if the Trust is a going concern.
4. Failure to provide essential, optimised digital services in a timely manner in line with best practice governance and security policies, caused by increasing and competing demands upon finite staffing resources whom lack emerging skillsets, sub-optimal solutions or a

successful indefensible cyber-attack, resulting in poor data quality and its effects upon clinical and operational decisions / returns and financial & performance targets, reduced operational efficiencies, denial of patient access to services, inferior quality of care including harm, failure to meet statutory obligations (e.g. Civil Contingency measures) and subsequent reputational damage.

5. Failure to meet the emergency access standard caused by system demands and pressures. Resulting in potential risk to the quality of care and patient safety, risk to trust reputation, financial impact and below expected Patient experience.
6. Failure to maintain an old estate caused by restriction, reduction or unavailability of resources resulting in staff and patient safety issues, increased estates costs and unsuitable accommodation.
7. Influence within Cheshire & Merseyside
 - Failure to deliver our strategic vision, including two new hospitals and vertical & horizontal collaboration, and influence sufficiently within the Cheshire & Merseyside Healthcare Partnership and beyond, may result in an inability to provide high quality sustainable services may result in an inability to provide the best outcome for our patient population and

organisation, potential impact on patient care, reputation and financial position.

- Failure to fund two new hospitals may result in an inability to provide the best outcome for our patient population and organisation, potential impact on patient care, reputation and financial position.

The risks recorded on the BAF reflect the key issues which could affect the Trust in delivering its objectives, including:

- The impact of COVID-19 on available capacity to deliver elective programme
- Availability of suitable individuals to recruit to all vacant posts
- Funding availability for NHS services nationally and locally, especially in the context of investment in COVID-19 recovery

These issues are addressed in part through the mitigating actions being taken against each of the risks on the BAF. The Trust's strategy also recognises the issues and opportunities available to the Trust and aims to address and maximise them respectively through the delivery of the 3 core aims:

Quality – We will always put our patients first through high quality, safe care and an excellent patient experience

People – We will be the best place to work with a diverse, engaged workforce that is fit for the future

Sustainability – We will work in partnership to design and provide high quality, financially sustainable services

The opportunities which may enable us to deliver on these aims, and which are reflected in our detailed strategy, include:

- The opportunity to become an outstanding healthcare provider
- The opportunity to work with local partners to develop integrated care
- The opportunity to deliver our services in an estate that is fit for purpose, supported by technology and aligned to the needs of our developing populations
- The opportunity to redesign our services to support the provision of outstanding patient care

Key issues and opportunities that could affect the Trust in delivering its objectives are regularly discussed at Trust Board and within the Board Committees; they are documented via the BAF and the Trust strategy. The Trust strategy is formally refreshed on an annual basis and the delivery of the strategy is formally reported to Trust Board every 6 months.

Going Concern Disclosure

These accounts have been prepared on a going concern basis.

International Accounting Standard (IAS) 1 requires the management of all entities to assess, as part of the accounts preparation process, the bodies' ability to continue as a going concern. This is further enforced by Department of Health requirements to review the trust's going concern basis on an annual basis, the going concern principle being the assumption that an entity will remain in business for the foreseeable future.

This is to facilitate the accounting basis to be used in the preparation of the Trust's annual accounts. Should an assessment be made that an entity is not a going concern then the year end balance sheet should be prepared on a 'disposals' basis i.e. items valued at their likely sale value. In many cases this would propose significantly lower values than the usual valuations based on ongoing trading (e.g. stocks) and require the inclusion of other 'winding up costs' (e.g. redundancies).

The Trust's accounts for 2019/20 have recorded a surplus of £770k and the cumulative deficit position on retained earnings amounts to £51.9 million. The Statement of Financial Position shows negative net current assets and liabilities of £66.5 million.

On 2 April 2020, the Department of Health and Social Care (DHSC) and NHS England and NHS Improvement announced reforms to the NHS cash regime for the 2020/21 financial year. During 2020/21 existing DHSC interim revenue and capital loans as at 31 March 2020 will be extinguished and replaced with the issue of Public Dividend Capital (PDC) to allow the repayment. The affected loans totalling £58,013k (Note 20) are classified as current liabilities within these financial statements. As

the repayment of these loans will be funded through the issue of PDC, this does not present a going concern risk for the Trust. The potential I&E impact is a reduction in interest payments of £551k and increase in PDC payments of £1,982k

The final operational plan was never completed due to the national pause. We were working towards accepting the control total and that would have included FRF of £16.266m and MRET £0.970m, leaving a residual unsupported deficit of £8.902m, which may need additional support, which at this stage is not certain. The unsupported deficit being a combination of cost pressures of £3.289m and additional capacity based on a requirement to increase occupancy to 92% £5.613m.

Under the new funding regime FRF is being replaced with a retrospective top up, as the new funding regime becomes clearer the Trust will be revising its 2020/21 Operational Plan. The Trust is plan to breakeven in 2020/21 but this will be dependent upon resolving the unfunded deficit highlighted above.

In accordance with IAS 1, management has made an assessment of the Trust's ability to continue as a going concern considering the significant challenges described above. Although these factors represent a material uncertainty that may cast significant doubt about the Trust's ability to continue as a going concern, the Directors, having made appropriate enquiries, still have a reasonable expectation that the Trust will have adequate resources to continue in operational existence for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the accounts and the financial statements do not include the adjustments that would result if the Trust was unable to continue as a going concern.

Performance Report

The Trust's annual plan for 2019-20 is underpinned by the Quality, People and Sustainability (QPS) strategy which represent the Trusts core activities. Key Performance Indicators, aligned to the strategic objectives, are monitored by the Trust Operations Board, the Executive Team and the Trust Board.

Strategic Objectives:

Quality

1. Patient Safety – we are committed to developing and enhancing our patients safety through a learning culture where quality and safety is everyone's responsibility
2. Patient experience – by Focusing on patient experience we want to place the quality of patient experience at the heart of all we do where 'seeing the person in the patient' is the norm
3. Clinical Effectiveness – Ensuring practice is based on evidence so that we do the right things the right way to achieve the right outcomes for our patients.

People

1. Attract and retain a diverse workforce aligned to our culture and values to ensure that we have the staff with the skills, attitude and behaviours to meet the needs of our population providing excellent and safe care
2. Create the conditions to promote wellbeing and enable an engaged workforce to improve patient and staff experience.
3. Develop a collaborative and inclusive leadership at all levels and organisations learning

Sustainability

1. Play a central role in our healthcare economies to support integrated place based care
2. Work with other acute trusts care providers to ensure that those services which need to be provided in an acute environment are the best they can be and are clinically and financially stable
3. Provide our services in an estate that is fit for purpose, supported by technology and aligned to the needs of our developing populations.

The Trust's key performance measures are established against the QPS framework i.e. Quality, People and Sustainability which underpins delivery of the strategic objectives.

Activity and Performance

During 2019-20 A&E Attendances marginally decreased by 0.9% however, this can be attributed to the impact of COVID-19 in the month of March 2020. Non-elective discharges increased by 14.7% as a consequence of implementing Same Day Emergency Care (SDEC) models and increased numbers of people being treated in this environment. SDEC has supported avoidance of in-patient spells with appropriate

care being provided in an ambulatory setting outside of the Emergency Department.

Positively attendances remained stable for those patients aged 65 years of age and over throughout 2019-20 with the exception of a peak during the winter period. In addition, attendances reduced for those aged between 18-65 from July onwards.

Activity Variance

Activity	2016/17	2017/18	% change 17/18 vs 16/17	2018/19	% change 18/19 vs 17/18	2019/20	% change 19/20 vs 18/19
Elective Inpatient Discharges	5,288	4,919	-7.0%	4634	-5.8%	3938	-15.0%
Elective Day Cases Discharges	31,633	28,937	-8.5%	27267	-5.8%	27377	0.4%
Non-Elective Discharges	42,760	39,636	-7.3%	37729	-4.8%	43284	14.7%
New Outpatient Attendances	109,309	103,584	-5.2%	99629	-3.8%	97570	-2.1%
A&E Attendances	108,889	112,925	3.7%	113398	0.4%	112371	-0.9%

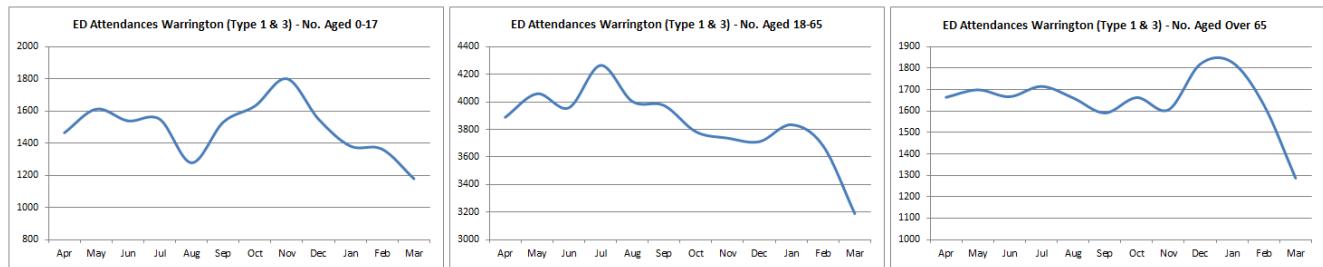

Delivering the Four Hour Standard

It is an expectation that all patients who attend accident and emergency are seen and treated within four hours. Nationally the target is 95% and the majority of acute Trusts have struggled to achieve this target in year. The chart below illustrates our performance in seeing and treating patients within this time. While the Trust performed well compared to peers it did not achieve the 95% national standard and closed with a performance of 82.99% for the year. Importantly performance in quarter 4 showed continued improvement and superseded the same period in 2018-19.

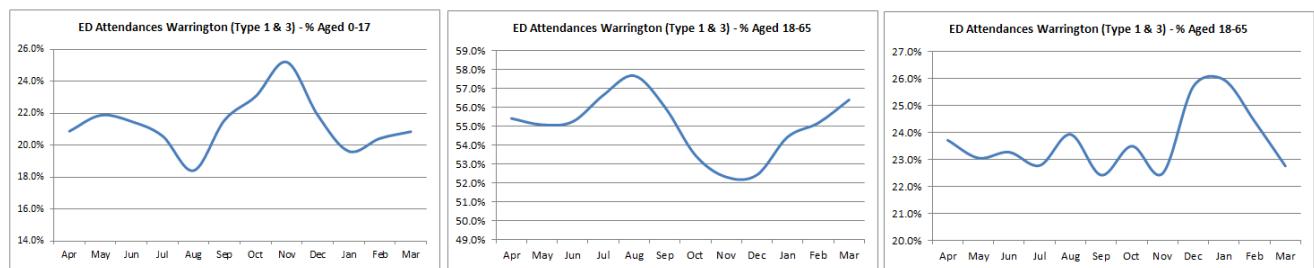

This position below includes the walk-in centre numbers allocated by NHS Digital:

National Indicators		Target	Apr	May	Jun	Qtr1	Jul	Aug	Sep	Qtr2	Oct	Nov	Dec	Qtr3	Jan	Feb	Mar	Qtr4	YTD Position

Number of ED Attendances at Warrington by Age Group

Percentage of ED Attendances at Warrington by Age Group

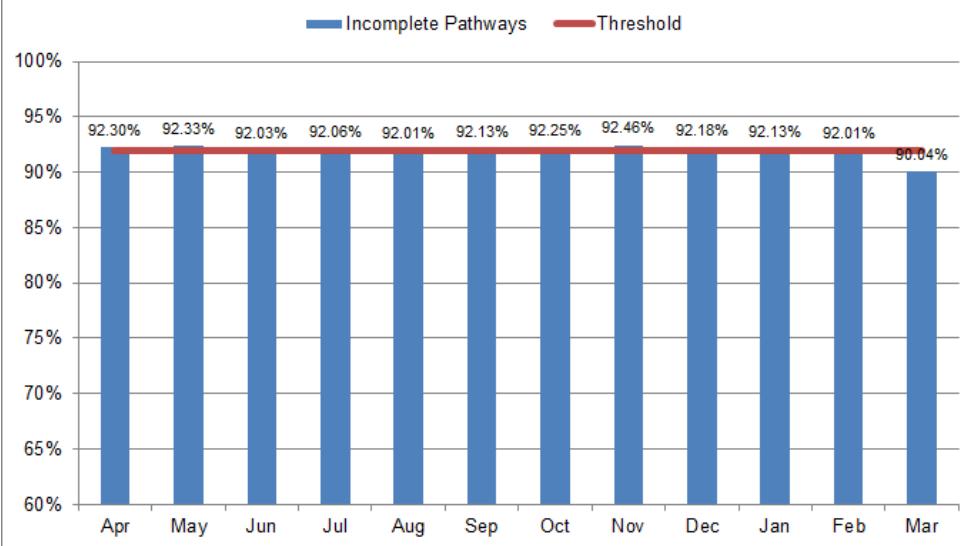

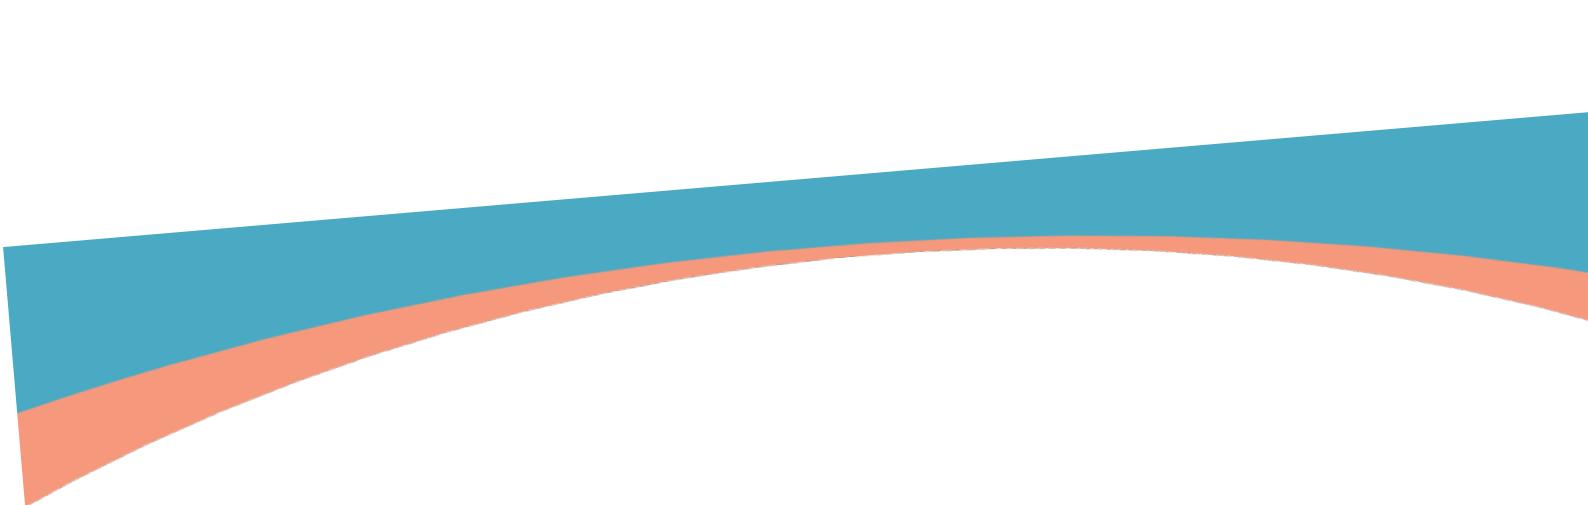

Referral to Treatment (RTT) waiting times

The Referral to Treatment operational standard for England focused on the number of incomplete pathways less than 18 weeks. The Trust achieved the 18 week referral to treatment target consistently throughout 2019-20, against a target of 92% with the exception of March 2020 which is attributable to a reduction in the elective programme as a consequence of COVID-19. This remains a difficult and challenging standard but supports care being delivered in a timely manner.

National Indicators		Target	Apr	May	Jun	Qtr1	Jul	Aug	Sep	Qtr2	Oct	Nov	Dec	Qtr3	Jan	Feb	Mar	Qtr4	YTD Position
RTT - 18 Weeks	Incomplete Pathways % <18 Weeks * Number of incomplete pathways * Number of patients waiting 18+ weeks * Number of patients waiting 52+ weeks	>=90%	92.30%	92.33%	92.03%		92.06%	92.01%	92.13%		92.25%	92.46%	92.18%		92.13%	92.01%	90.04%		
			19081	19895	19848		19459	19555	19908		20241	20028	19565		19303	19664	19311

18 Weeks RTT - Incomplete Pathways

Delayed Transfers of Care

Delayed transfers of care (DTOC) occur when a patient that is medically fit to be discharged from hospital is unable to do so. In year we worked extensively with our partners across the health and social care economy to ensure that patients were supported to return home or on to more appropriate care settings once their acute care was complete thus ensuring that beds remained available for incoming patients. This was supported by a joint post, Associate Director Integrated Care, between the Trust and Warrington Borough Council which has streamlined processes to ensure safe and timely discharge.

The successful discharge of frail older patients following emergency admission to hospital relies on effective joint working between NHS, social care partners and the independent sector. Early assessment and review using the most appropriate multi-disciplinary team at the point of entry to urgent and acute services was essential for frail older patients to ensure a timely and appropriate diagnosis is made, and then a plan for discharge can be implemented.

The table below shows the number of delayed patients in our hospital beds on the last Thursday of every month, which is the current measure all Trusts use and report to NHS England. It also shows the number of days the patients remain delayed in a hospital bed awaiting ongoing care.

	Oct-19	Nov-19	Dec-19	Jan-20	Feb-20	Mar-20	Total
Number of patients delayed on the last Thursday of each month	12	19	6	24	12	13	86
Total days lost in month	487	481	326	491	329	552	2666
Number of occupied bed days (patients aged 18+)	15444	14642	15784	15295	14194	15319	90678
Days lost as % of occupied bed days	3.15%	3.29%	2.07%	3.21%	2.32%	3.60%	2.94%
Average daily bed days lost	498	488	509	493	489	494	2972
Average general and acute occupied beds (including Critical care, excluding Neonatal, Paediatrics and Day case beds)	500	508	500	526	528	499	3061

	Oct-18	Nov-18	Dec-18	Jan-19	Feb-19	Mar-19	Total
Number of patients delayed on the last Thursday of each month	25	30	11	8	17	33	124
Total days lost in month	850	840	525	400	434	726	3775
Number of occupied bed days (patients aged 18+)	15413	13887	15534	15761	13176	14889	88660
Days lost as % of occupied bed days	5.51%	6.05%	3.38%	2.54%	3.29%	4.88%	4.26%
Average daily bed days lost	27	28	17	13	16	23	124
Average general and acute occupied beds (including Critical care, excluding Neonatal, Paediatrics and Day case beds)	478	480	472	505	494	550	2979

Diagnostics waiting times

National Indicators	Target	Apr	May	Jun	Qtr1	Jul	Aug	Sep	Qtr2	Oct	Nov	Dec	Qtr3	Jan	Feb	Mar	Qtr4	YTD Position
Diagnostics - 6+ Week Waiters	<1%	0.03%	0.27%	0.26%		0.18%	0.06%	0.24%		0.05%	0.03%	0.18%		0.12%	0.10%	2.68%		
* Number of patients waiting		7086	7452	7201		6515	6266	6648		6132	6636	6162		5751	7007	3924		
* Number of patients waiting 6+ weeks		2	20	19		12	4	16		3	2	11		7	7	105		

Throughout 2019-20 the Trust has successfully achieved performance against the target of less than 1% of patients waiting more than 6 weeks for a diagnostic test with the exception of March 2020 which can be attributed to the impact of COVID-19.

Cancer waiting time and Regulatory Requirements

Below is a summary of all the national targets and regulatory requirements that we were expected to achieve and performance against each target for the past four years. Throughout 2019-20 the Trust improved monthly performance for Cancer waiting times and achieved the performance standard of 85% against the percentage of cancer patients waiting a maximum of 2 months (62 days) from urgent GP referral to treatment for Q1-Q3.

Performance against national Cancer waiting times 2019-20

Financial Performance

Review of economy, efficiency and effectiveness of the use of resources

The Trust has been assessed as being in 'Segment 2' by the regulator NHS Improvement, meaning the Trust is offered targeted support.

The Trust has performance management processes in place that review the economy, efficiency and effectiveness of the use of resources. The Director of Finance & Commercial Development chairs the monthly Finance Resource Group which receives updates on financial performance from all CBUs and Corporate Areas. The Executive Team reviews the operational performance of the Trust and monitors this through the Trust Operational Board, and leads the Trust's identification and implementation of Cost Improvement Plans (CIPs). The Trust has a Use of Resources group, which is led by the Director of Finance & Commercial Development. Use of Resources is a workstream of the Trust's programme of Moving to Outstanding. Progress is reported quarterly to the Trust Board via a combined Lord Carter/Use of Resources report. Monthly reports to the Board provide updates on performance throughout the year, ensuring service delivery and cost improvements without jeopardising patient safety – schemes are underpinned by Quality Impact Assessments. Part of the remit of the Finance and Sustainability Committee, which meets monthly, is to support the Trust Board in gaining assurances on the economy, efficiency and effectiveness of the use of resources.

The Trust has produced a document which provides supporting information around performance and progress for each Use of Resources Key Lines of Enquiry.

The Trust has a policy and governance framework in place to guide staff on the appropriate use of resources through its Standing Orders, Standing

Financial Instructions and Schemes of Delegation. In addition, there is a robust system for developing and routinely reviewing policies and procedures and staff are appropriately updated and guided or trained on their application.

Independent assurance is provided through the Trust's internal audit programme and the work undertaken by MIAA Counter fraud, reports from which are reviewed by the Audit Committee. In addition, further assurance on the use of resources is obtained from external agencies, including the external auditors and the regulators.

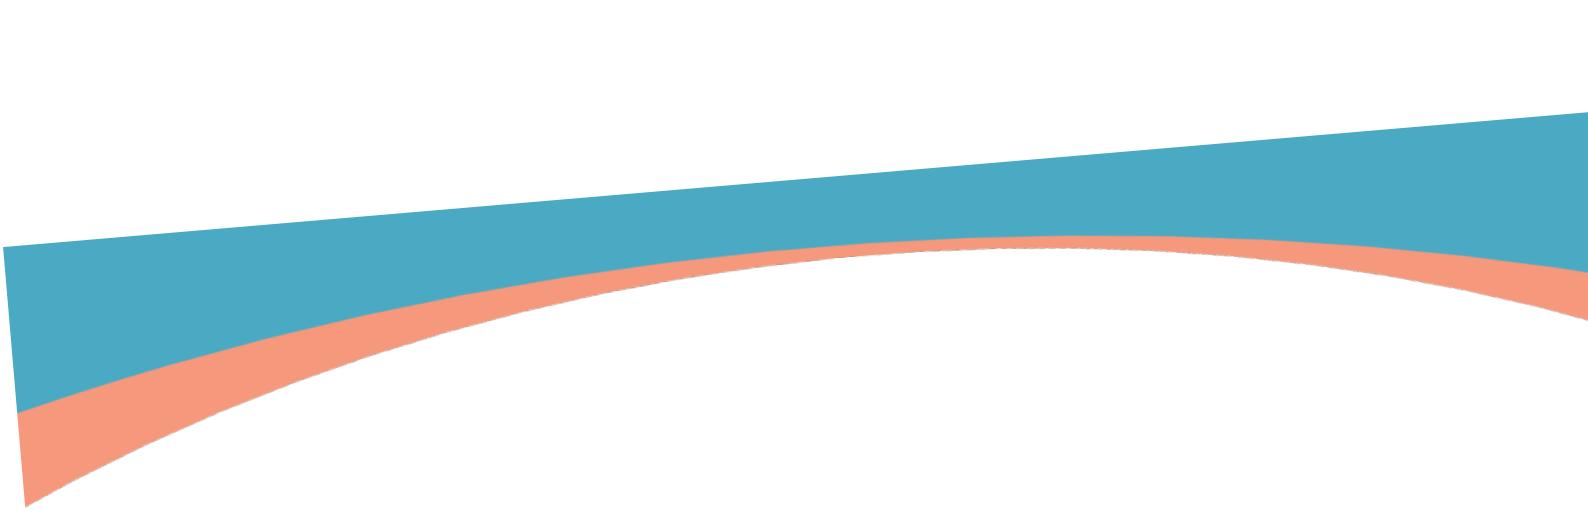

Financial Governance

The Trust recorded a £0.8m surplus for the year, which included £17.9m for PSF, FRF and MRET. This surplus was £0.8m better than plan the control total set by NHSI was £17.9m.

There was an over recovery against the clinical income target of £6.5m, the Trust agreed settlements with all of its main commissioners. There was a £0.5m shortfall against the £7.5m CIP target and agency costs of £10m which was £1.4m above plan.

The response to COVID-19 impacted on the Trust expenditure in March with revenue expenditure of £912k matched by income from NHSI along with capital of £25k. A small element of income was lost in March relating to car parking and private patient income £41k at 31 March 2020 relating to COVID-19 and this has also been matched with income.

The Trust accepted and achieved the 2019/20 breakeven control total so there was no requirement for a working capital loan in relation to 2019/20. DHSC and NHSI have announced that all working capital loans are to be converted to Public Dividend Capital (PDC) under the new cash

and capital regime to be implemented from 2020/21.

The annual capital programme (including external funding) was £15m and the actual spend for the year was £13.9m, an underspend of £1.1m

The cash balance was £1.3m which was £0.1m above the plan.

I am satisfied that there were no failures in financial governance. The Financial Resources Group and the Finance and Sustainability Committee review and scrutinise the financial position and performance of the Trust closely throughout the year and escalated any relevant items to the Board in the Chair's exception report. Furthermore, the Board reviewed position and challenged forecast outturns and mitigations on a monthly basis.

The Trust has monthly review meetings with NHSL and the financial position, forecast and associated mitigations were rigorously tested as part of these review meetings.

Social, Community, Anti-Bribery and Human Rights Issues

The Trust takes very seriously its position in the local community as a major employer. The Trust has established close connections and effective working relationships with our local training providers. We continue to explore new opportunities to grow and develop a career pathway from college to professional qualification utilising our apprenticeship levy, to ensure continued talent management and succession planning.

Through our widening participation agenda we offer members of our communities the opportunity to undertake work experience placements, internships and pre-employment experience.

The Trust's apprenticeship team attend a number of events within schools, careers clinics within the trust and employment events to encourage our communities to join our workforce.

The Trust is a member of the step in to health initiative and has recently signed the Armed Forces Covenant demonstrating our commitment to our past and present serving members of the Armed Forces and their communities.

Recruitment and selection policy promotes applications from all protected characteristic groups to encourage a diverse and inclusive workforce. We are a Forces Friendly and Disability Aware organisation which we advertise in our job advertisements and we recruit based on our Trust Values and Behaviours.

The Trust has an Equality and Diversity Specialist whose responsibility is to ensure that human rights in the Trust are promoted and maintained.

The Trust's commitment to protecting and promoting human rights is enshrined in our Statement on Modern Slavery which is published on the Trust website.

In relation to fraud risks to the organisation, the Trust agrees an annual counter fraud plan using a nominated and nationally Accredited Local Counter Fraud Specialist (LCFS) via its Internal Audit provider Mersey Internal Audit Agency (MIAA). The Trust's plan is based on a generic plan covering seven areas of activity including anti-fraud culture and deference to fraud produced by NHS Protect who take the national lead on NHS fraud related matters. This approach is supplemented by a local risk assessment that examines local fraud vulnerabilities.

Regular monitoring of counter fraud activity is undertaken via the Trust's audit committee on a regular basis via progress reports and an annual report of counter fraud activity. This monitoring process includes the identification of any fraudulent activity against the Trust. During 2019/20 MIAA commenced investigations into four potential fraud issues, two of which have been closed and two are still continuing.

Compliance with the Modern Slavery Act 2015

The Modern Slavery Bill was introduced into Parliament on 10th June 2014 and passed into UK law on 26th March 2015. The Modern Slavery Act is an Act to make provision about slavery, servitude and forced or compulsory labour and about human trafficking, including the provision for the protection of victims.

A person commits an offence if

- The person holds another person in slavery or servitude and the circumstances are such that the person knows or ought to know that the other person is held in slavery or servitude
- The person requires another person to perform forced or compulsory labour and the circumstance are such that the person knows or ought to know that the other person is being required to perform forced or compulsory labour

Our Trust

The Trust employs over 4,500 staff and the vast majority of these staff are employed either under pay, terms and conditions of service established nationally under Agenda for Change or Medical and Dental provisions. A small number of staff, which comprises the Trust Board and very senior managers, are employed under local pay, terms and conditions of service which are established by the Remuneration Committee of the Board.

All staff are appointed subject to meeting the NHS Standards on Employment Checks which includes references, health Checks, DBS checks, immigration checks and Identity checks. In addition the Trust has developed a number of values and behaviours which are fully embedded into the organization. The Trust expects its existing staff to comply with these standards and all future appointments will be expected to demonstrate these attributes as part of the appointment process. This ensures that the Trust can be confident, before staff commence with the Trust, that we know some background about

our staff and that they have a legal right to work for the Trust.

By adopting the national pay, terms and conditions of service, the Trust has the assurance that all staff will be treated fairly and will comply with the various legislation. This includes the assurance that staff receive at least, the National Living Wage.

The Trust has various employment policies and procedures in place designed to provide guidance and advice to staff and managers but to also comply with employment legislation. Every policy is impact assessed from an Equality and Diversity perspective.

The Trust does have specific policies in place to deal with the Safeguarding of Children and Vulnerable Adults but does not have a specific policy on the Modern Slavery Act and does not feel the need to develop one. However, should the Trust become aware of any issue covered under the Modern Slavery Act, it would immediately report the matter to the Police.

The Trust has an extensive training and development programme which is based on a minimum requirement to complete all statutory and mandatory training and other ad-hoc training which staff are required to undertake for their various roles. Training needs are identified through Individual Performance Development Reviews and a Personal Development Plan produced.

The Trust employs an Equality and Diversity Specialist who will take the lead on the Modern Slavery Act and where possible the Trust does support awareness raising events both locally and nationally on such matters as the disabled, Gay and Lesbians and Honour Crime and Forced Marriages.

Important events since year end

At the time of producing this report, the COVID-19 (coronavirus) pandemic has affected people, communities, businesses and economies across the globe. We remain in a level 4 major incident and national emergency with a command and control structure in place through NHSE/I and the NW Regional Team and this is likely to be in place until early 2021.

In response to the pandemic all elective procedures were postponed together with non-urgent outpatient appointments and diagnostic tests. We correspondingly saw a significant reduction in emergency department and urgent care centre attendances as patients in vulnerable groups began an indefinite period of social isolation and the remaining patient population were extremely concerned about entering healthcare environments.

Now, like the rest of the NHS, we prepare for the next phase of the management of the COVID-19 pandemic (phases 2-4) with a realignment of our usual activity alongside the burden of continuing to work and live with COVID-19. We will gradually restart non-urgent elective work in a structured way that incorporates the appropriate infection prevention and control guidance alongside rapid, point of care testing for clinical and operational decision-making.

Understanding our outcomes and the broader health impacts of COVID-19 will be crucially important as will be maintaining staff wellbeing resilience in what will likely be many more months of working in a challenging environment.

ACCOUNTABILITY REPORT

Directors' Report

At 31st March 2020 the Trust Board declares that it has a full complement of Non-Executive and Executive Directors, with all voting and non-voting positions substantively filled. The Board is assured about its balance in terms of gender, with seven female and eight male Directors in total, of which voting members comprise 4 females and 7 males. In addition, the Directors have complementary skill sets and many have considerable prior Board-level experience across both public and private sectors. The Trust Board believes it is therefore appropriately comprised and satisfies the requirements to lead the NHS Foundation Trust.

The Board evaluates its performance, its Committees and its Directors, including the chairperson, on an ongoing basis. At regular Board Meetings an anonymous meeting effectiveness review takes place, the results of which are discussed at the following meeting and 'rolling tracker' of performance maintained. Annual reports are received from each of the committees to the Board.

All Directors undergo an annual appraisal with periodic reviews to monitor progress. The Council of Governors undertakes the Chairman's appraisal annually which comprises a 360 degree survey of Executive and Non-Executive Directors and the Council of Governors plus a 1:1 meeting with the Senior Independent Director.

The appointment and removal of the Chair, Deputy Chair and other Non-Executive Directors is laid down in the Foundation Trust's Constitution and where:

- 24.1 The Council of Governors at a general meeting of the Council of Governors shall appoint or remove the Chair of the Trust and the other Non-Executive Directors and shall appoint one of the Non-Executive Directors as the Deputy Chair of the Trust.
- 24.2 Removal of the Chair, Deputy Chair or another Non-Executive Director shall require the approval of three quarters of the members of the Council of Governors.

The Board of Directors for the reporting period:

1. Non-Executive Directors

Steve McGuirk – Chairman CBE, QFSM, DL

Steve McGuirk joined us as chairman in April 2015. Steve, who lives in Warrington, joined the fire service in 1976. He retired from his role as county fire officer and chief executive of Greater Manchester Fire and Rescue Service in 2015. He was previously county Fire Officer and Chief Executive for Cheshire Fire and Rescue Service before taking on the post in Greater Manchester in 2009. He has also been a Board member and President of the Chief Fire Officers Association and has been the principal adviser on fire and rescue matters to the Local Government Association. He was awarded the long service and good conduct medal in 1996, the Queen's Fire Service Medal in 2002, and the CBE in 2005. He has also gained extensive experience in governance of public authorities. In October 2017 Steve was appointed as an expert witness to the Grenfell Enquiry. His Term of Office was extended for a second term of office in March 2018 for a further three years to March 2021.

Terry Atherton – Deputy Chair

Terry Atherton joined the Trust Board as a Non-Executive Director in July 2014 and is Chair of the Finance & Sustainability Committee. Terry worked for NatWest Bank for 35 years leading large teams and profit centres across the North West and North Wales. For the last 14 years he has worked with the both the public and private sector in a number of Board positions in a Non-Executive capacity. Terry was appointed Chair of Trafford Primary Care Trust in 2009 and following the national NHS reorganisations, he became Vice-Chair of the cluster of ten Greater Manchester PCTs with specific responsibilities for oversight of the workforce of 2,700 and of service redesign

initiatives. He was appointed in January 2013 as Independent Chair of the Morecambe Bay "Better Care Together" Programme before joining the Trust. Terry lives in Cheshire. Terry's Term of Office was extended for a second term of office in June 2017 for a further three years to June 2020.

Ian Jones – Senior Independent Director

Ian Jones joined the Trust Board as a Non-Executive Director in July 2014 and is Chair of the Audit Committee. Ian is also the Senior Independent Director. After a career of over 35 years in the banking sector as regional corporate director for RBS, Ian changed direction in 2003 to take on wider interests and put something back. He is a Non-Executive Director of several charities in the education sector. Ian served as Vice Chair and Treasurer of the Liverpool School of Tropical Medicine for 12 years, until the end of his term of tenure at the end of 2016. Ian is the Chair of The Liverpool Institute for Performing Arts. Ian has lived in Warrington for over 20 years. Ian's Term of Office was extended for a second term of office in June 2017 for a further three years to June 2020.

Anita Wainwright

Anita Wainwright joined the Trust Board as a Non-Executive Director in January 2015. A very experienced human resources and organisational development professional Anita has worked in both the public and private sector in the North West for over 35 years, gaining experience in the nuclear and gas industries; financial services; the fire service and the Environment Agency before joining the NHS. She was appointed as Director of HR and OD at University Hospital South Manchester in 2012 and in 2014 was seconded to

Tameside Hospital to support their improvement programme. Anita has lived in Warrington for over 25 years and both her sons were born at Warrington Hospital. Anita's Term of Office was extended for a second term of office in December 2017 for a further three years to December 2020.

Dr Margaret Bamforth

Margaret Bamforth joined the Trust Board as Non-Executive Director in May 2016 and is Chair of the Quality Assurance Committee. Margaret qualified from Liverpool Medical School and completed her training as a Child and Adolescent Psychiatrist in Manchester. She practiced as a Consultant Child and Adolescent Psychiatrist in Halton for 22 years, before retiring from clinical practice. She has always had a strong interest in Medical Education and continued to work as an Associate Postgraduate Dean for Mersey Deanery and subsequently HENW, following her retirement. She has an interest in leadership and mentoring and has previously been an Associate Tutor at Edge Hill University. Margaret has lived in Lymm for over 30 years and her three sons attended Lymm High School. She has strong links to the local community, both through her personal and work commitments. Margaret's Term of Office was extended for a second term in February 2019, for a further three years to April 2022.

Dr Cliff Richards MBE

Cliff Richards joined the Trust Board as a Non-Executive Director in June 2019. Following General Practice training in Stockport, Cliff joined Brookvale Practice in Runcorn as a partner in 1983, leading the Practice until 2014. He has been a GP trainer and GP appraiser. He has been a member of a number of regional forums including Cheshire + Merseyside Cancer Network from 2000-2010. Cliff has a strong patient focus through his GP career and other Leadership and Commissioning roles.

Cliff has previously been Chair of Halton CCG from 2012 until retirement in 2017 and was also

the inaugural Chair of Merseyside CCG Network. From 2015 he was also Chair of Cheshire and Merseyside Urgent and Emergency Network. He has a passion to improve services for the residents of Halton, Warrington and surrounding areas and was awarded an M.B.E in recognition of his contribution to services to Health in Cheshire and Merseyside. Cliff lives locally in Runcorn.

**Professor Jean-Noel Ezingeard (to April 2019).
Jean-Noel left the Trust due to relocation**

Executive Directors – Voting

Melany Pickup - Chief Executive (to November 2019)

Melany was appointed as Chief Executive of the Trust in February 2011. Mel qualified as a registered general nurse in 1990 and after a number of clinical roles, worked in management before moving back into a professional nursing leadership role. In 1998 Mel became the Deputy Director of Nursing at Doncaster and Bassetlaw Hospitals NHS Trust and was appointed Director of Nursing and Quality at Rotherham General Hospitals NHS Trust in 2001. Mel then moved to Wrightington, Wigan and Leigh NHS Trust in 2003 to take up the post of Director of Nursing and Governance, a role in which she later became Director of Operations and Deputy Chief Executive. Mel was Chief Executive of The Walton Centre NHS Foundation Trust from January 2007 prior to her appointment with Warrington and Halton Teaching Hospitals.

Professor Simon Constable – Executive Medical Director & Deputy Chief Executive Chief Executive from November 2019

Simon Constable joined the Trust as Medical Director in February 2015. He is a Consultant Physician and Honorary Senior Lecturer in Clinical Pharmacology at the University of Liverpool. He studied medicine at Guy's and St Thomas'

Hospitals in London. Undertaking postgraduate training in London, the Midlands and New Zealand, he was appointed as Lecturer in Clinical Pharmacology & Therapeutics at the University of Liverpool before becoming the Medical Director of a clinical research unit in Manchester undertaking early-phase clinical trials on behalf of the international pharmaceutical and biotechnology industries. Simon returned to the NHS full-time in 2010 as a Consultant Physician in Acute Medicine at the Royal Liverpool and Broadgreen University Hospitals NHS Trust where he became Clinical Director and then Divisional Medical Director. Prior to taking up the post at Warrington and Halton, Simon has worked with the NHS Leadership Academy, Harvard University and the Institute for Healthcare Improvement on clinical leadership, employee engagement and transformational change within the NHS. Simon was appointed Deputy Chief Executive with effect from 1st March 2016 and Chief Executive wef 11 November 2019 following the departure of Mel Pickup, Chief Executive.

Andrea McGee - Director of Finance & Commercial Development

Andrea was appointed Director of Finance & Commercial Development from February 2016. Andrea joined the Trust from Calderstones Partnership NHS FT where she was Director of Finance and Information. She is a qualified accountant (ACCA) and has worked for the NHS for over 20 years. During this time Andrea has gained experience working within acute, mental health, learning disability, community and ambulance services and has led finance, procurement, contracting, estates and information teams. Andrea is a strong supporter of staff development and has received personal and team awards for finance staff development in the North west and nationally.

Kimberley Salmon-Jamieson – Chief Nurse

Kimberley joined our Trust in September 2016, having previously held the position of Deputy Chief Nurse at Pennine Acute NHS Trust. With 20 years of experience working as a nurse in the NHS, she has enjoyed a variety of management and nursing roles, gaining a reputation for enthusiasm and energy. Prior to working for Pennine, she was Deputy Chief Nurse at University Hospital South Manchester NHS Foundation Trust. Her first management role was at Salford Royal NHS Foundation Trust where she had previously worked as Advanced Nurse for a long period of time. Her interests in the health sector include patient safety and experience, service development and education.

Chris Evans – Chief Operating Officer

Chris Evans joined the Trust in March 2018 from Salford Royal where he was Managing Director of Salford Health and Social Care. Prior to that Chris was at the University Hospital of South Manchester as Manager for the Women & Children's Division. He commenced his NHS career in 2002 undertaking a range of administrative posts locally within what was Salford Primary Care Trust. Subsequently, Chris developed his managerial career and gained experiences working throughout the region at both Central Manchester University Hospitals and The Christie. He has managed a variety of clinical services including, Renal Medicine, Heart Care, Acute Medicine, Young Oncology, Haematology, Breast, Obstetrics & Gynaecology and Paediatrics.

Dr Alex Crowe, Acting Medical Director from (01.01.2019) + Chief Clinical Information Officer

Dr Alex Crowe is a consultant nephrologist joined the Trust as Deputy Medical Director for WHH in December 2016 and became Medical Director in October 2017. Alex is also the Trust's Clinical Chief Information Officer and current medical appraiser for NHS England. He supports the Royal College of

Physicians for a number of courses such as Physicians as Educators, Mentoring, Appraisal and Revalidation and Leadership. He joined the Trust from Arrowe Park Hospital and Countess of Chester Hospitals where he was Consultant Nephrologist. He was also the renal Lead for Cheshire and Merseyside networks. He has also worked as a Secondary Care Doctor in Manchester, involved in promoting Healthcare Devolution in Manchester. He trained at St Thomas' Hospital, London.

Additional Executive Directors (non-voting)

Phill James, Chief Information Officer

Phill joined us in December 2018 as Chief Information Officer – a shared post between WHH and the accountable care systems of Warrington Together and One Halton. Phill has over two decades of experience in IT engineering roles within both public and private sectors across health, manufacturing, systems and support services.

During this time he worked with Salford Royal NHS Foundation Trust, the North West Ambulance Service, Lancashire Ambulance Service, Datel Technology, Amey Datel and British Aerospace Military Aircraft Division. His most recent post was with Pennine Acute Hospitals NHS Trust where he was employed by Salford Royal NHSFT within the Northern Care Alliance NHS Group and his areas of expertise include transformational change through a range of technical architectures, aligning technology to business requirements and programme management. Phill's role across the partnership is to develop and deliver the Information Management and Technology Digital strategy.

He will direct digital transformational change through collaboration within the local health and social care economies in commissioning and delivering safe, effective and affordable patient care through technology.

Michelle Cloney, Director of Human Resources and Organisational Development

Michelle was appointed Director of HR&OD after occupying the interim position since March 2017. Prior to joining the Trust she was Associate Director of Workforce at Pennine Lancashire Transformation Programme and Senior Responsible Officer for Workforce, Organisational Development and Leadership working across organisational boundaries within East Lancashire & Blackburn with Darwen, including both Clinical Commissioning Groups, two Local Authorities, one Acute Hospital and one Mental Health Trust. Michelle has worked in the NHS since 1984 initially joining the nursing profession and through this developed a passion for developing staff so they could deliver excellent care to patients and service users. In 1997 she moved into Human Resources & Organisational Development and has gained extensive knowledge and experience in the management of HR services, employee engagement, staff wellbeing, and multi-professional education. Michelle is committed to supporting staff to put our patients at the heart of all we do and to enable them to recognise the Trust as a great place to work and receive care.

Pat McLaren - Director of Community Engagement & Fundraising

Pat joined the Trust in December 2015 as director of community engagement, a new position dedicated to expanding and supporting our relationships with the communities and people who use, work, visit, volunteer, support, commission, partner or donate to our hospitals. Commencing her NHS career as a biomedical scientist, Pat moved into communications, marketing and engagement in the healthcare and health sciences sectors over two decades ago. She has lived and worked in healthcare across the UK, USA, Middle East, India, Pakistan and Australia with all types of organisations from private sector global brands to public sector. She joined us from Barnsley Hospital and earlier from Alder Hey

Children's Hospital where as communications lead she led the formal public consultation for the new hospital in the park.

Lucy Gardner, Director of Strategy

Lucy joined the Trust in February 2016 from her role as a Director in Ernst & Young (EY)'s healthcare advisory practice. Her role as Director of Transformation is a new role, designed to lead transformation across the Trust and work with partner organisations to deliver change, enabling sustainable healthcare locally. Lucy started her career 12 years ago as an NHS General Management Trainee, gaining a Master's degree in health and social care leadership and management. In the 12 years she has held a number of operational management roles within the NHS and subsequently, in her role at EY, led large scale change programmes to deliver

significant financial, quality and performance benefits within healthcare.

The focus of Lucy's role altered in 2018, which led to a change in Job title to Director of Strategy. The change in title reflects Lucy's revised portfolio, which now includes leading the programme to deliver two new hospitals, as well as lead for development and delivery of the Trust's overall strategy. Lucy continues to work with partner organisations, both in terms of horizontal and vertical collaboration, to deliver change and enable sustainable healthcare locally.

Register of interests

A register of significant interests of both directors and governors which may conflict with their responsibilities is available from the Company Secretary upon request.

DISCLOSURE REPORT

1. Income disclosures as required by section 43(2A) of the NHS Act 2006

Section 43(2A) of the NHS Act 2006 (as amended by the Health and Social Care Act 2012) requires that the income from the provision of goods and services for the purposes of the health service in England must be greater than its income from the provision of goods and services for any other purposes. Warrington and Halton Hospitals NHS Foundation Trust has complied with this requirement and is satisfied that the income received from provision of non-NHS goods and services does not have any significant impact on the provision of NHS goods and services for the purposes of the health service in England.

2. Disclosure relating to member and public engagement

Throughout the year the Council, through its working group The Governors' Engagement Group, has championed the Trust's first Patient and Public Participation and Involvement Strategy and has actively supported an intensive and varied work plan throughout the year.

The Governors supported and have been involved in a wide range of engagement and involvement events including: Implementation of the Accessible Information Standard, the Experience of Care week, supported recruitment to our Lived Experience Panels including a very successful falls collaborative; an open day for patients with orthopaedic conditions, two Your Health Matters event with a focus on heart disease and dementia (with formal opening of our memory garden on the Forget me Not Unit) Together we 'Made May Purple' with the Stroke Association and governors undertook quality improvement training. Another successful Disability Awareness Day saw us focus

on child physical wellbeing through the SMART HEART programme and we promoted Apprenticeships and Work Placements to those with additional needs. Advocates for better communication between the hospital and patients, an excellent, well attended engagement and involvement workshop called 'Be the Change – Letters Be the Best' event was held to deep-dive issues with written communication. A partnership with the Deafness Resource Centre saw service users visit a number of services at the hospital to identify issues relating to caring for those with hearing impairment – part of our implementation of the accessible information standard. Diversity remains top of mind at all events and the governors continue to press for greater diversity in our membership particularly among our BAME communities.

3. Disclosure relating to Quality Governance

Quality assurance and governance is described more fully in the Annual Governance Statement (AGS) at Annex 5, however the Board has an established Quality Assurance Committee chaired by a clinical Non-Executive Director. In year, the Risk Management Strategy was reviewed and the Board Assurance Framework similarly updated and aligned to each of the Board's Committees. The Quality Assurance Committee liaises closely with the Audit Committee to ensure the strategic risk register and Board Assurance Framework drives the internal audit plan and to provide the Audit Committee with assurance regarding systems of internal control. The Quality Assurance Committee continued to monitor the statutory and regulatory requirements relating to quality governance throughout the year including monitoring of Care Quality Commission preparedness work, national audit activity, NICE guidance, national surveys, quality KPIs, complaints improvement etc.

4. Statement of Disclosure to Auditors

In accordance with the requirements of the Companies (Audit, Investigations and Community Enterprise) Act 2004, the Trust confirms that for each individual who was a Director at the time that the Director's report was approved, that:

- so far as each of the Trust Directors is aware, there is no relevant audit information of which the Trust's auditor is unaware; and
- each Director has taken all steps that they ought to have taken as a Director in order to make themselves aware of any relevant audit

information and to establish that the Trust's auditor is aware of that information.

For the purposes of this declaration:

- relevant audit information means information needed by the Trust's auditor in connection with preparing their report; and
- that each director has made such enquiries of his/her fellow Directors and taken such other steps (if any) for that purpose, as are required by his/her duty as a Director of the Trust to exercise reasonable care, skill and diligence.

Additional reporting information

Additional information or statements which fall into other sections within the annual report and accounts are noted/ signposted below:

- The Trust has not made any political donations during the year
- The Trust's Research & Development team were nominated for "Excellence in Commercial Life Sciences Research" as part of the North West Coast Research and Innovation awards for their work in developing a commercial relationship with the life sciences industry to promote research and provide new treatment options to benefit local patients.
- A statement that accounting policies for pensions and other retirement benefits are set out in the accounts and details of senior employees' remuneration can be found in the Remuneration Report
- Trust policies on employment and training of disabled persons can be found in the Accountability Report - Staff Report
- Details of sickness absence data can be found in the Accountability Report - Staff Report
- The statements relating to compliance with the cost allocation and charging guidance issued by HM Treasury can be found in the Financial Statements
- Details of the Trust's approach to communications with its employees can be found in Accountability Report - Staff Report
- Details of the Trust's financial risk management objectives and policies and exposure to price, credit, liquidity and cash flow risk can be found in the financial accounts section

Related Party Transactions

The Trust has a number of significant contractual relationships with other NHS organisations which are essential to business. A list of the organisations with whom the Trust holds the largest contracts is included in the financial accounts.

Appointment of External Auditors

The Trust's External Auditor is Grant Thornton. The company commenced a three-year term in January 2017 which has been extended for a further 12 months following a competitive market review process overseen by the Council of Governors.

Better Payment Practice Code:

The Better Payment Practice Code gives NHS organisations a target of paying 95% of invoices within agreed payment terms or in 30 days where there are no terms agreed.

Performance for 2019/20 and 2018/19 was as follows:

	2019/20 Number	2019/20 £000	2018-19 Number	2018-19 £000
Non-NHS trade invoices paid in the year	43,847	82,616	48,285	84,366
Non-NHS trade invoices paid within target	16,555	45,616	24,665	58,300
Percentage of non-NHS trade invoices paid within agreed payment terms or in 30 days	38%	55%	51%	69%
NHS trade invoices paid in the year	1,477	15,098	2,397	21,689
NHS trade invoices paid within target	198	7,274	1,262	16,081
Percentage of NHS trade invoices paid within agreed payment terms or in 30 days	13%	48%	53%	74%

The decline in the percentage of NHS invoices by value between 2018/19 and 2019/20 was due to the limited cash resources available to the Trust. Priority was given to small and or local suppliers who rely on the Trust for the majority of their cash flow.

The total paid within 2019/20 for late payment of commercial debt was £4k (£5k in 2018/19).

Disclosures relating to NHS Improvement's Well Led Framework

As part of a commitment to simplifying regulatory approaches, NHS Improvement worked closely with the Care Quality Commission (CQC) to bring together their respective approaches to the Well-Led key line of enquiry (KLOE). This resulted in a new, wholly joint Well-Led Framework structured around eight key lines of enquiry introduced in 2017/18.

1. Is there the leadership capacity and capability to deliver high quality sustainable care?
2. Is there a clear vision and credible strategy to deliver high quality sustainable care to people and robust plans to deliver?
3. Is there a culture of high quality sustainable care?
4. Are there clear responsibilities, roles and systems of accountability to support good governance and management?
5. Are there clear and effective processes for managing risks, issues and performance?
6. Is appropriate and accurate information that is being effectively processed, challenged and acted upon?
7. Are the people who use services, public, staff and external partners are being engaged and involved to support high quality sustainable services?
8. Are there robust systems and processes for learning, continuous improvement and innovation.

The CQC carried out a Well-Led Assessment between 30 April – 2 May 2019. The rated the Trust **GOOD** for Well-Led because:

- Leaders had the integrity, skills and abilities to run the service. They were visible and approachable in the services for patients and staff.
- The trust had a well embedded vision and values which were well understood by staff. The trust had refreshed its strategy which was focused on sustainability of services and

aligned to local plans within the wider health economy.

- Staff felt respected, supported and valued. They were focused on the needs of patients receiving care. The service had an open culture where patients, their families and staff could raise concerns without fear.
- Leaders operated effective governance processes, throughout the service and with partner organisations
- Leaders and teams used systems to manage performance effectively. They identified and escalated relevant risks and issues and identified actions to reduce their impact. The trust had made improvements to its risk management since the last inspection
- The trust collected reliable data and analysed it. The trust had a good range of reports and dashboards for staff to understand performance, make decisions and improvements
- Leaders and staff actively and openly engaged with patients, staff, equality groups, the public and local organisations to plan and manage services. They collaborated with partner organisations to help improve services for patients.
- The trust was committed to continually learning and improving services. Staff received training in quality improvement methodology and were encouraged to share learning.

Work on further self and external assessment continues and further information on these assurances can be found in the Annual Governance Statement.

Signed

Simon Constable, Chief Executive

Non-Executive Directors may be appointed or terminated according to the Foundation Trust's Constitution:

Board of Directors – appointment and removal of Chair, Deputy Chair and other Non-Executive Directors

24.1 The Council of Governors at a general meeting of the Council of Governors shall appoint or remove the Chair of the Trust and the other Non-Executive Directors and shall appoint one of the Non-executive Directors as the Deputy Chair of the Trust.

24.2 Removal of the Chair, Deputy Chair or another Non-Executive Director shall require the approval of three quarters of the members of the Council of Governors.

The Work of the Audit Committee

The Audit Committee is required to report annually to the Board and to the Council of Governors outlining the work it has undertaken during the year and where necessary, highlighting any areas of concern. The Audit Committee is responsible on behalf of the Board for independently reviewing the systems of integrated governance, risk management, assurance and internal control. The Committee's activities cover the whole of the Trust's governance agenda, not just the finances, and is in support of the achievement of the Trust's objectives.

During the reporting period, the Committee has been composed of at least three Non-Executive Directors with a quorum of two. Non-Executive Ian Jones is Chair of the Audit Committee (since 1st December 2014.) The required relevant and recent financial experience and background necessary for the membership of the Audit Committee is met by the Chair. During the year the Committee met five times.

Regular attendees at the Committee Meetings were the Trust's external auditors Grant Thornton (External Auditors from January 2017), Mersey Internal Audit Agency (MIAA - Internal Audit and

Counter-Fraud Services), the Director of Finance & Commercial Development and the Trust Secretary.

In year the significant issues that the committee considered in relation to financial statements, operations and compliance were as below, they were addressed through inclusion in the Internal Audit work plan and assurance sought for each element.

High Assurance was provided in the following:
Financial Systems Review

Substantial Assurance was provided in the following: Freedom to Speak Up Review, Payroll Review and DSPT Toolkit Review.

Moderate Assurance was provided in the following: Data Quality Review, Physician Associate Review and Diagnostic Policy Review.

Limited Assurance was provided in the following: Discharge Planning Review, Quality Spot Checks Review and Business Continuity Review.

There were no areas reported as providing no assurance.

Governance and Risk Management

During the Year the Trust continued to develop and enhance its governance and risk management systems and processes. It also fully appraised its key strategic risks and refreshed its Board Assurance Framework which is fully reviewed by the Board at each of its meetings and the Quality Assurance Committee on a bi-monthly basis. In year, there was further alignment of the relevant elements of the Board Assurance Framework to the Committees of the Board.

System of Internal Control

The Trust's Governance Structure aligns the Trust's various governance groups to the Trust Board committees. The Board Assurance Framework provides an overview of the internal control environment and evidence of the effectiveness of the controls that manage the risks to the Trust in achieving its strategic objectives as identified in the annual plan, The Audit

The Audit Committee monitored and tracked all material governance activity during the reporting period to ensure that the system of internal control, risk management and governance is fit for purpose and compliant with regulatory requirements, aligned to best practice where appropriate and provides a solid foundation to support a **Substantial Assurance** rating from the Head of Internal Audit (HOIA).

Committee is charged by the Board in reviewing and evaluating the system of internal control through the delivery of the internal audit plan. The Chair of the Audit Committee provides an annual report of the work of the Committee to the Board as well as periodic escalation reports following each meeting.

Internal Audit Activities

MIAA acted as Internal Auditors for the Trust during the year. Internal Audit is an independent and objective appraisal service which has no executive responsibilities within the line management structure. It pays particular attention to any aspects of risk management, control or governance affected by material changes to the Trust's risk environment, subject to Audit Committee approval. A detailed programme of work is agreed with the Committee and set out for each year in advance and then carried out along with any additional activity that may be required during the year.

In approving the internal audit work programme, the Committee uses a three cycle planning and mapping framework to ensure all areas are reviewed at the appropriate frequency.

Detailed reports, including follow-up reviews to ensure remedial actions have been completed, are presented to the Committee by Internal Audit at each meeting throughout the year. All such information and reports are fully recorded in the minutes and papers prepared for each Audit Committee meeting. The assurance level for each audit completed during the year are listed below:

Substantial Assurance	Moderate Assurance	Limited Assurance	Advisory Support and Guidance Provided to:
<ul style="list-style-type: none"> • Freedom to Speak Up Review • Payroll Review • DSPT Toolkit Review 	<ul style="list-style-type: none"> • Data Quality Review • Physician Associate Review • Diagnostic Policy Review 	<ul style="list-style-type: none"> • Discharge Planning Review • Quality Spot Checks Review • Business Continuity Review 	<ul style="list-style-type: none"> • Detailed insight into the overall Governance and Assurance processes gained from liaison throughout the year with Senior Officers including members of the Board and regular review of Board papers • Ongoing discussion with Lead Officers, Managers and Non-Executive Directors throughout the year • Effective utilisation of internal audit including in year communication and changes to the audit plan in respect of Extra duties review • Engagement with MIAA Insights benchmarking, best practice and outcome reporting • Opportunities / Involvement through MIAA events. Including the Learning Series, Audit Committee Members Network events, and Quality Improvement Network

External Audit

Grant Thornton commenced its 3-year term as Auditors to the Trust in January 2017, this has been extended for a further 12 months following a competitive procurement exercise and review and recommendation by the Council of Governors. During the year the Auditors reported on the 2018-19 Financial Statements and Quality Accounts. No material or significant issues were raised in respect of these Statements and Accounts. Technical support has been provided on an ongoing basis to the

Committee and the Trust and representatives of Grant Thornton attended each Audit Committee.

Grant Thornton have since audited these 2019-20 Financial Statements and their report and opinion is enclosed herein. The auditor assurance work on the Quality Account for 2019-20 has ceased, this is following guidance from NHS England and NHSI released on 20th March 2020 in response to the COVID global pandemic

Anti-Fraud Activity

The Committee and the Trust are supported in carrying out Anti-Fraud activity by MIAA's Anti-Fraud Service (AFS) working to a programme agreed with the Audit Committee. The role of AFS is to assist in creating an anti-fraud culture within the Trust: deterring, preventing and detecting fraud, investigating suspicions that arise, seeking to apply appropriate sanctions and redress in respect of monies obtained through fraud. Where such cases are substantiated, the Trust will take appropriate disciplinary measures.

Pro-active work has also included induction and awareness training along with ensuring Trust policies and procedures incorporate, where applicable, anti-fraud measures including the Anti-Fraud, Bribery and Corruption Policy. The Audit Committee received regular progress reports from the AFS and also received an annual report. No significant cases or issues of Anti-Fraud took place or were identified during the year.

REMUNERATION REPORT

Statement from the Chairman of the Nominations and Remuneration Committee

For the purposes of the remuneration report the term senior managers relates to those persons in senior positions having authority or responsibility for directing or controlling the major activities of the Trust and covers the chair, the executive and non-executive directors of the Trust (collectively the directors).

Nominations

In year the Committee considered and approved the following:

- Provision of a service for Executive Medical leadership for Bridgewater Community Healthcare NHS FT for one day per week
- Temporary Chief Executive Officer and Executive Medical Director acting up arrangements
- Chief Executive Officer recruitment arrangements
- Continuation of Joint Director of HR & OD role with Bridgewater Community Healthcare NHS FT
- Arrangements for appointment of Medical Director
- Interim appointment of joint Deputy Chief Executive Officers

Remuneration

The Committee is responsible to the Board in setting the remuneration and conditions of service include provisions for other benefits as well as arrangements for termination of employment for the executive directors. It also considers all ex-gratia payments and redundancy payments. During the year under review the committee did not approve any special termination arrangements for senior managers, and no such awards have been made to past senior managers.

The Board of Directors delegates the responsibility to a Board Nominations and Remuneration Committee (Committee) to make decisions regarding the nomination, appointment, remuneration and conditions of service for Executive Directors including the Chief Executive. This Committee also has general oversight of the Trust's pay policies, but only determines the reward package for directors and staff not covered by agenda for change. The vast majority of staff remuneration, including the first layer of management below Board level, is covered by the NHS Agenda for Change pay structure.

In year the Committee considered and approved the following:

- Chief Executive salary and contractual arrangements

The Chief Executive and Executive Directors participate in annual performance reviews and appraisals undertaken by the Trust Chair and Chief Executive respectively and individual objectives set are linked to the Trust's corporate and strategic objectives. The setting of non-executive directors pay is the responsibility of the council of governors through its own Nomination and Remuneration Committee (the NARC). As the Trust does not have a Remuneration Policy for Directors it has not been required to consult with employees.

The membership of this Board Committee comprises of the Chair and all the Non-Executive Directors with the attendance of the Chief Executive (except for matters concerning their own employment and conditions) and the Director of HR & OD and Trust Secretary.

During 2019-20, the Committee met as below:

Steve McGuirk, Chairman Non-Executive Director + Chair	7/7
Ian Jones, Non-Executive Director	7/7
Margaret Bamforth, Non-Executive Director	5/7
Terry Atherton, Non-Executive Director	7/7
Anita Wainwright, Non-Executive Director	6/7
Cliff Richards, Non-Executive Director (wef 10.06.2019)	5/7
Mel Pickup, Chief Executive (to 31.10.2019)	2/2
Simon Constable, Chief Executive (wef 14.11.2019)	3/3
Jean-Noel Ezingeard, Non-Executive Director (to 30.04.2019)	0/0

Persons or organisations that provided advice to the Remuneration Committee in year were:

Hill Dickinson LLP - Independent, professional legal organisation	Attendance requested by the Committee at various points throughout the period – to provide advice relating to Employment Law.
--	---

SENIOR MANAGER REMUNERATION POLICY

On 2nd June 2015, the Secretary of State for Health wrote formally to the Chairs of all NHS Provider Trusts, NHS Foundation Trusts and Clinical Commissioning Groups in relation to the pay for very senior managers (defined as Chief Executives and Executive Directors) and the need to ensure that executive pay remains proportionate and justifiable.

The Trust's executive pay structure is very simple and includes only basic pay. All pay is taxed at source and there are no bonus payments. Salaries are benchmarked against the NHS Providers national report and similar Trusts in the North West region. All new appointments are sourced at

the benchmark level and adjustments are made only if the market rate or existing salary indicates this is necessary.

During the year under review the Chief Executive Officer, Mel Pickup, received a performance related bonus which was wholly attributable to her role as Senior Responsible Officer of the Cheshire & Merseyside Healthcare Partnership. Full details of the award are contained within the remuneration report. The Chief Executive left this post on the 31st of October 2019. In addition the Director of Human Resources & Organisational Development received a performance related bonus which was wholly attributable to her role as

Director of Workforce & Organisational Development at Bridgewater Healthcare NHS Foundation Trust. Full details of the award are contained within the remuneration report.

Directors of the Trust are employed on a permanent contract basis. During the year appointments to the Board were made to the roles of :

- Chief Executive Officer
- Non-Executive Director

Performance Appraisal

Performance of the Executive Directors is assessed and managed through regular appraisal against predetermined objectives along with one to one reviews with the Chief Executive. Similarly, the Chairman conducts both one-to-one's and a formal appraisal with the Chief Executive. Any deficit in performance is identified during these regular meetings. Serious performance issues are managed via our organisational performance capability management policy.

Performance of the Non-Executive Directors is assessed and managed through regular appraisal by the Chairman against predetermined objectives along with regular one to one reviews with each NED. Any deficit in performance is identified during these regular meetings along with opportunities for regular professional development.

Provisions for Termination of Contract

There are no special contractual compensation provisions for early termination of Executive Directors' contracts. Early termination by reason of redundancy is subject to the normal provisions of the Agenda for Change (AfC): NHS Terms and Conditions of Service Handbook (Section 16). For those above the minimum retirement age, early termination by reason of redundancy is in accordance with the NHS Pension Scheme.

Acting up role:

- Medical Director

Required notice periods are six months. Where salaries of very senior managers exceed £150,000 (£142,500 in 2017/18) per annum, these have been reviewed and found to be appropriate to match market rate, maintain relativities with other very senior manager posts and to match pay in the jobs from which individuals were recruited.

The Chairman is formally appraised by the Senior Independent Director taking in to account an objective 360 degree feedback process to which all members of the Board and Council of Governors contribute. That appraisal is formally signed off by the full Council of Governors annually.

Appraisals led by the Chairman - for the Chief Executive and Non-Executive Directors – are also used as an opportunity to identify continuing professional development needs. No performance payment element has been paid to any of the Trust's Executive Directors during the year. Equally, there have been no payments to both Executive and Non-Executive Directors for loss of office.

Employees above the minimum retirement age who themselves request termination by reason of early retirement are subject to the normal provisions of the NHS Pension Scheme.

The principles for determining how payments for loss of office will be approached, including: how each component will be calculated and whether, and if so how, the circumstances of the loss of office and the senior manager's performance are

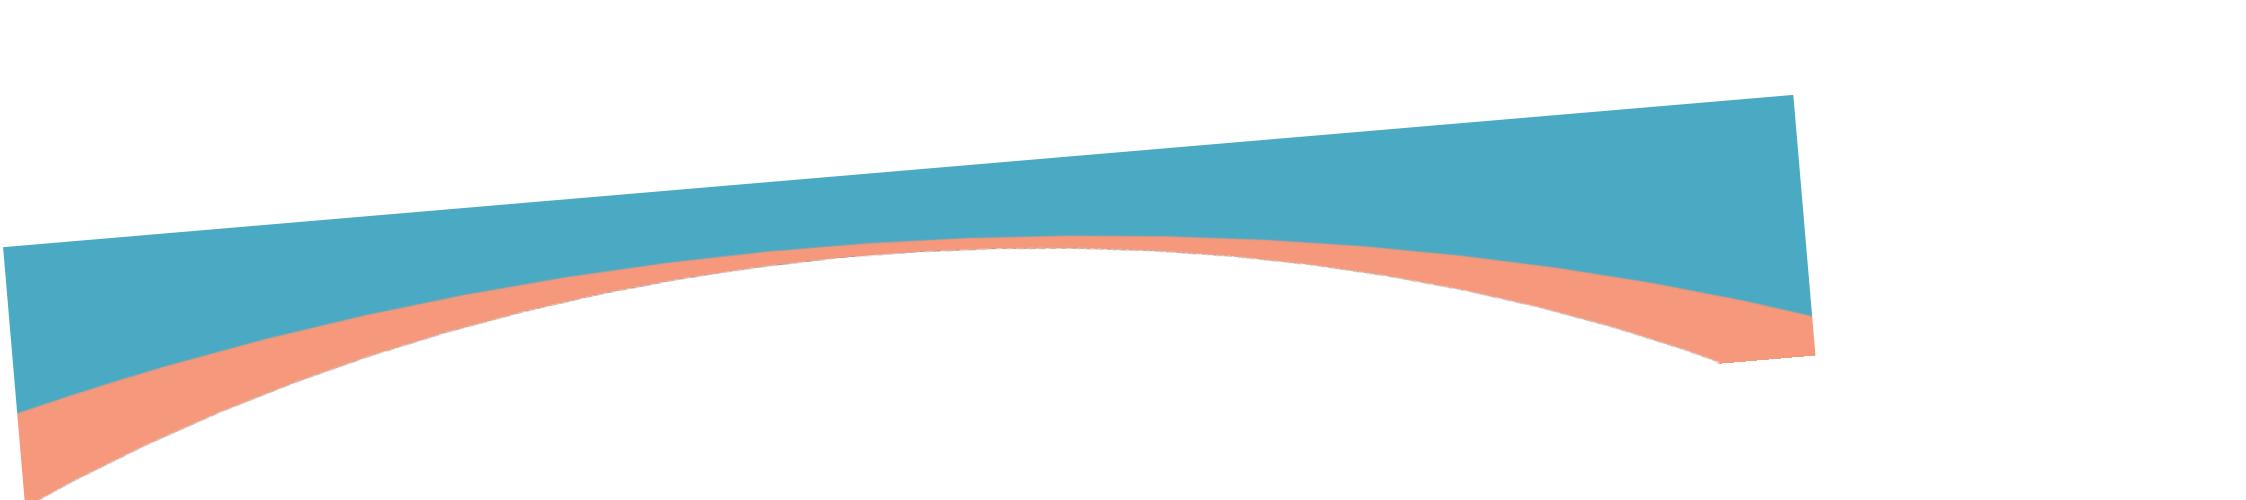

relevant to any exercise of discretion would all be considered on a case by case basis by the

Remuneration Committee and would be approved by NHS Improvement in advance.

The Trust is required to report what constitutes the senior managers' Remuneration Policy in tabular format set out below. At the date of completion of this Annual Report there have been no changes to this policy and no future changes are anticipated:

Components of Remuneration Package of Executive and Non-Executive Directors	Basic pay in accordance with their contract of employment (Executive) and letters of appointment (non-executive)
Components of Remuneration that is relevant to the short and long term Strategic Objectives of the Trust	The Directors do not receive any remuneration tailored towards the achievement of Strategic Objectives.
Explanation of how the Components of Remuneration operate	Basic pay of the Executive Directors is determined by the Board Nominations and Remuneration Committee, taking into account past performance, future objectives, market conditions and comparable remuneration information from Trusts within the locality. Basic pay of the non-executive directors is determined by the Governor Nominations and Remuneration Committee.
Maximum amount that could be paid in respect of the component	Maximum payable is the Director's annual salaries as determined by the relevant Nominations and Remuneration Committee.
Payment for loss of office	Notice periods are included in all Directors' contracts and is currently set at six months. Payments in lieu of notice are contained within the contract of employment and are subject to tax and national insurance deductions. Payments made other than through notice periods are set out in the Organisational Change policy i.e. through redundancy/mutually agreed severance schemes. All payments to any staff member outside contractual terms are scrutinised by the Board's Nominations and Remuneration Committee.
Explanation of any provisions for recovery	If an individual is overpaid in error, there is a contracted right to recover the overpayment.
Diversity & Inclusion	The Trust utilises its Equality Diversity and Inclusion Strategy (ED&I) 2019-2022 and its Equality Diversity and Inclusion policy as the reference for diversity and inclusion. The ED&I strategy workforce objectives include completion of an Equality impact assessment on all relevant policies therefore this will be relevant to all pertaining to remuneration i.e. Organisation Change policy. The ED&I strategy objectives i.e. reviewing the Trusts approach to attraction recruitment and retention to ensure processes are fair and

	<p>equitable and to promote diversity, will be a consideration for the Nominations and Remuneration Committee in its decision making and subsequent completion of an Equality Impact assessment on Committee papers.</p> <p>The Trust completes annual gender pay gap reporting that is reviewed at the operational and strategic people committees.</p> <p>All progress relating to objectives of the EDI Strategy and Policy are reported to the Equality and Diversity Subcommittee and Strategic People committee for assurance.</p> <p>The Trust's ED&I Strategy can be found here:</p> <p>https://whh.nhs.uk/about-us/corporate-publications-and-statutory-information/equality-diversity-and-human-rights</p>

Annual report on Directors Remuneration - Year ended 31 March 2020 (and comparison year ended 31 March 2019) (Audited)

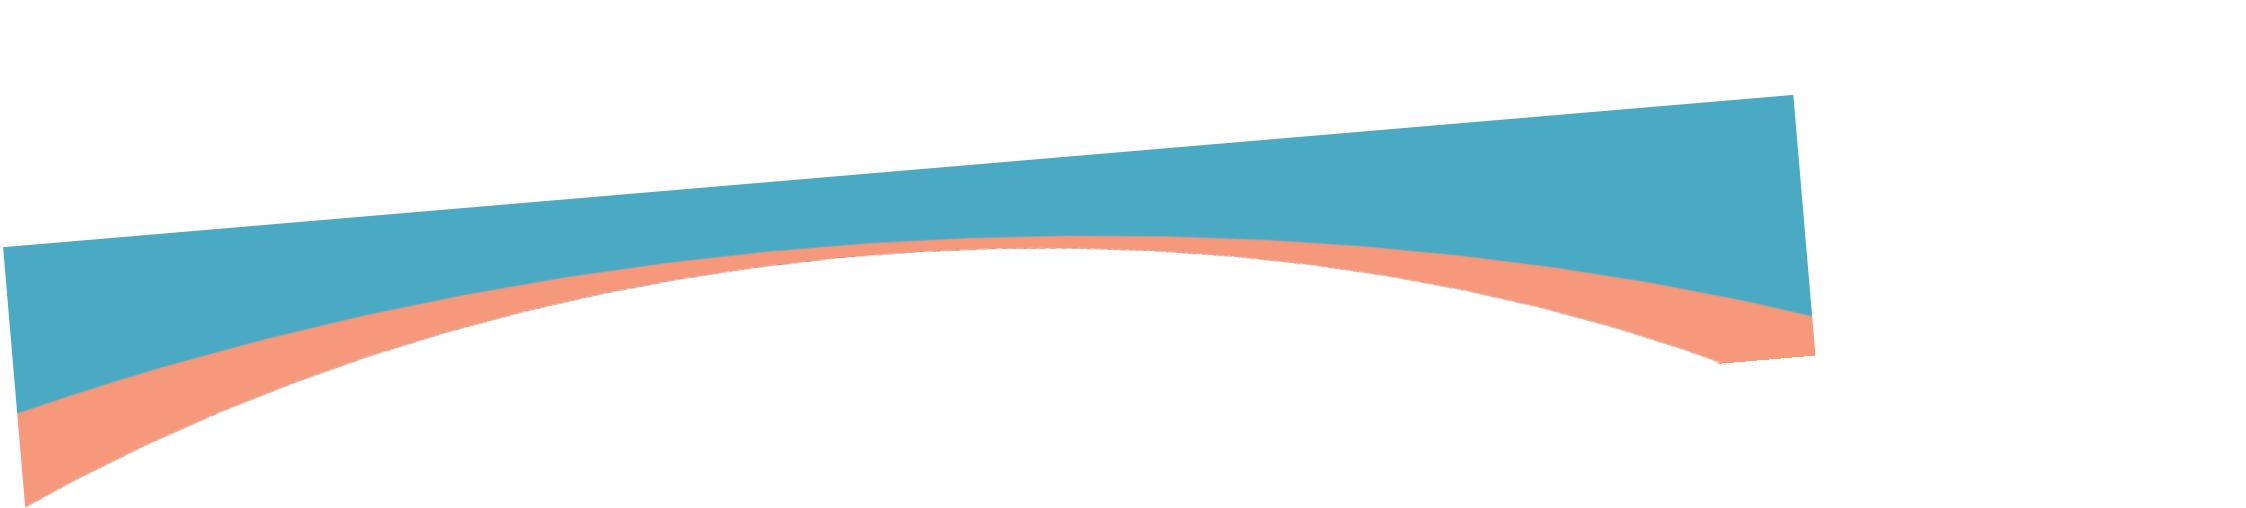

The following table includes salary, benefits-in-kind and all pension related benefits received (whether in cash or otherwise) by each Director during the year under review. Pension related benefits included here is the annual increase (expressed in £2,500 bands) in pension entitlement less any contributions paid by employees.

The value of pension benefits accrued during the year is calculated as the real increase in pension multiplied by 20, less the contributions made by the individual. The real increase excludes increases due to inflation or any increase or decrease due to a transfer of pension rights. This value derived does not represent an amount that will be received by the individual. It is a calculation that is intended to provide an estimation of the benefit being a member of the pension scheme could provide. The pension benefit table provides further information on the pension benefits accruing to the individual.

	2019-20					2018-19				
	Directors' Salary and fees (bands of £5,000)	Taxable benefits (to the nearest £100)	All performance related bonuses (bands of £5,000)	All Pension-related Benefits (bands of £2,500)	Total (bands of £5,000)	Directors' Salary and fees (bands of £5,000)	Taxable benefits (to the nearest £100)	All performance related bonuses (bands of £5,000)	All Pension-related benefits (bands of £2500)	Total (bands £5,000)

Notes:

- (1) Mel Pickup was appointed as Senior Responsible Officer (SRO) of the Cheshire and Merseyside Healthcare Partnership on 18.09.17. She shares her working week between the CEO of Warrington and Halton Hospitals NHS Foundation Trust (the Trust) and SRO of the Cheshire and Merseyside Healthcare Partnership. The Trust is reimbursed for her time and associated costs. The taxable benefit and performance related bonus shown are wholly attributable to the role of SRO. The Chief Executive left the Trust on the 31st October 2019.
- (2) Proportion of salary is recharged to Bridgewater Community Healthcare NHS Foundation Trust. The table above is net of this recharge.
- (3) Simon Constable was the acting Chief Executive from 1 to 13 November 2019.
- (4) Alex Crowe Non-Voting Executive Director.

Notes: (1) This is an annualised figure, adjusted to reflect the time in post as a Director. Where the real increase reflects a loss in year the figure is reported as zero.
As Non-Executive Directors do not receive pensionable remuneration, there will be no entries in respect of pensions for Non-Executive Directors.

Total remuneration

During the year the following total amount of payments made by the Trust to the Executive and Non-Executive Directors.

	2019-20 £000	2018-19 £000
Remuneration including employers national insurance contribution for Executive and Non-Executive Directors	1,576	1,560
Employers contribution to pension in relation to executive directors	167	162

Total remuneration includes salary, non-consolidated performance-related pay and benefits-in-kind. It does not include severance payments, employer pension contributions or the cash equivalent transfer value of pensions.

Expenses paid to Directors and Governors (Unaudited)

Expenses paid to Directors of the Trust include all business expenses arising from the normal course of business of the Trust and are paid in accordance with the Trust's policy. Non-Executive Directors are also reimbursed reasonable expenses relating to their work as Directors of the Trust.

Expenses paid to Governors are made in accordance with the Trust's constitution and related to the work as Governors of the Trust. Governors do not receive any other payments from the Trust. All Governors have a responsibility to ensure that they incur only reasonable expenses, which includes travel costs for attendance at, for example, Council of Governors and committee meetings held at the Trust or for attendance at training courses and conferences and that the cost to the Trust is kept as low as possible. The table below states the total amount of expenses reimbursed to Directors and Governors for 2019/20 and comparative figures for 2018/19.

	Number in Office	Number claiming expenses during the year	Total expenses Claimed	Number in Office	Number claiming expenses during the year	Total expenses Claimed
	2019-20	2019-20	2019/20	2018-19	2018-19	2018/19
	Number	Number	£	Number	Number	£
Directors	18	14	6,733	17	12	4,421
Governors	22	4	1	26	3	1
Total	28	18	6,734	43	15	4,422

Fair Pay Multiple (Audited)

Reporting bodies are required to disclose the relationship between the remuneration of the highest-paid Director in their organisation and the median remuneration of the organisation's workforce.

The mid-point of the banded remuneration of the highest-paid Director in Warrington & Halton Teaching Hospitals NHS Foundation Trust in the financial year 2019/20 was £177,500 (2018/19 £222,500). The highest-paid Director in 2019/20 and 2018/19 was the Chief Executive Officer.

In 2019/20 the highest-paid Director earned 6.20 times (8.64 times in 2018/19) the median remuneration of the workforce, which was £28,640 (£25,755 in 2018/19).

In 2019/20, 21 employees (6 employees in 2018/19) received remuneration in excess of the mid-point of the banded remuneration of the highest-paid Director. Remuneration in excess of the highest-paid Director ranged from £180,193 to £276,294 (£223,524 to £251,935 in 2018/19).

Total remuneration includes salary, non-consolidated performance-related pay and benefits-in-kind. It does not include severance payments, employer pension contributions or the cash equivalent transfer value of pensions. In the case of agency staff, figures have been generated by annualising invoices for agency staff in post as at 31 March 2020.

Signed

Simon Constable, Chief Executive

Date: 30/06/2020

The Council of Governors

The Council of Governors is made up of the following representative constituencies:

- 16 Public Governors - elected by the Trust's public membership who represent the local community.
- 5 Staff Governors - elected by the Trust's staff members, whom they represent
- 6 Partner Governors - nominated by partner organisations who work closely with the Trust

Governor Elections

A Governor election was carried out in September-November 2019 to appoint or renew governor terms in twelve constituencies.

Understanding the views of the governors, members and the public

The Board recognises the value and importance of engaging with governors in order that the governors may properly fulfil their role as a conduit between the Board and the Trust's members, the public and stakeholders.

The Board and Council of Governors meet regularly and enjoy a strong and working relationship. Each is kept advised of the other's progress through the Chair's monthly briefings, Q&A's with Non-Executive Directors, and Council of Governor Meetings

Any disputes or disagreements between the Board and the Council of Governors is set out in the Trust's Constitution section 9: Resolution of Disputes with Board of Directors.

Members of the Board are invited to attend all Council of Governors meetings (four per year) and some Governor committees to provide input and support. Each committee of the Council is supported by relevant executive directors and

senior managers from the Trust who report openly and collaboratively on the activities and performance of the Trust.

The Governors Nominations and Remuneration Committee met to consider and subsequently approve an uplift in Chair and Non-Executive Director remuneration in line with NHS Providers benchmarking. The Committee also met to conduct the Chairman's appraisal. The role of this committee is outlined in more detail in the Remuneration Report.

The Council of Governors receive copies of all Board meeting agenda and minutes in accordance with the requirements of the Health and Social Care Act 2012 and the Trust's Constitution. All governors (and members of the public) are able to observe the meeting of the Board held in public in order to understand the issues raised at the Trust Board. Governors are encouraged to attend the Board meetings in order to observe the non-executive directors' performance at the meetings in challenging and scrutinising reports presented by the executive directors. Nominated Governors also observe all Board Committees and this helps the Governors to discharge their duty in holding the Non-Executive Directors, individually and collectively, to account for the performance of the Board.

The Chair provides informal briefings to governors through a monthly informal question and answer session for governors to raise matters outside of the formal council meeting.

At Governors' meetings there is a standing item for public and staff governors to feedback any issues from constituency members. Issues raised at constituency meetings and through communications from members to Governors is discussed at Governor meetings.

The Council has the following statutory powers and responsibilities:

- hold the Non-Executive Directors to account individually and collectively for the performance of the Board;
- the appointment and, if appropriate, removal the Chair;
- the appointment and, if appropriate, remove the other Non-Executive Directors;
- approve the remuneration and allowances, and other terms and conditions of office, of the Chair and other Non-Executive Directors;
- approve the appointment of the Chief Executive on recommendation from the Board Nominations and Remuneration Committee;
- appoint, re-appoint and, if appropriate, remove the Auditor;
- receive the annual report and accounts and any report on these provided by the auditor;
- approve any ‘significant transactions’ as defined within the Trust’s constitution;
- approve an application by the Trust to enter into a merger, acquisition, separation or dissolution;
- decide whether the Trust’s non-NHS work would significantly interfere with its principal purpose, which is to provide goods and services for the health service in England, or performing its other functions; and
- approve amendments to the Trust’s constitution.

In addition to the statutory responsibilities, the CoG focuses on the following activities:

- Contribute to the business planning process and the development of forward plans for the Trust in co-operation with the Board of Directors;
- Represent the interests of the communities served by the Trust and ensure they are appropriately represented;
- Consult with members and reflects the view of the membership; and
- Develop and maintain the Trust’s membership and engagement strategy – now encompassed in the Patient and Public Participation and Involvement Strategy.

All Committees are attended by Non-Executive and Executive Directors and senior management who provide advice and support in order for the committee to carry out its functions in the provision of assurance to the Council. A full list of Governor attendance at Governor Committee meetings is available on the Trust internet site www.whh.nhs.uk.

Other meetings and involvement

Alongside the formal meetings and Committees, number of briefing sessions and workshops have taken place to both inform the Governors of Trust initiatives and work programmes and gain their views and support.

In line with the requirements of the Provider Licence all governors have made ‘Fit and Proper Person Test’ declarations.

The Council of Governors between 1st April 2019-31 March 2020 comprised:

Changes to the Foundation Trust Constitution in Year

The Council of Governors engaged in resolving a number of initiatives to enhance our member and

public engagement which have necessitated amendments to our Constitution. As per Article 45 'Amendment to the Constitution' the Trust may make amendments to its constitution if more than half of the members of the Board of Directors of the Trust voting approve the request. Following the support of the Council of Governors on 14th February 2019, the Trust Board unanimously agreed on 4 November 2019, that the following amendments should be made to the Trust's Constitution:

1. The Board may appoint other committees of the Board subject to 5.1 and 5.3, consisting wholly or partly of Directors of the Trust. This may include, the appointment of Committees in Common and Joint Committeesⁱ with other NHS organisations

2. Amendment in the name of the Trust from NHS Warrington and Halton Teaching Hospitals NHS Foundation Trust to NHS Warrington and Halton Teaching Hospitals NHS Foundation Trust

A register of interests for the Council of Governors is available on request at the address below.

Governors may be contacted at:

Warrington and Halton Teaching Hospitals NHS Foundation Trust
Foundation Trust Office
Kendrick Wing
Warrington Hospital
Lovely Lane
Warrington WA5 1QG
Telephone – 01925 662139
E-Mail – whh.foundation@nhs.net

The Foundation Trust Membership

As an NHS Foundation Trust, Warrington and Halton Teaching Hospitals has a membership scheme that means that members of the public (aged 16 and over) and staff can become members of the Trust. Members play a key role in the hospitals, providing input into what services they want their hospitals to provide. They do this by electing Public and Staff Governors who represent the membership's views and therefore that of the local community.

Eligibility, constituencies and boundaries for membership

There are two constituencies of membership for Warrington and Halton Teaching Hospitals NHS

Foundation Trust – the public constituency and the staff constituency. The public constituency comprises of those members that live in one of the public constituencies. The staff constituency is divided into 5 classes, staff automatically become Staff Members unless they choose to opt-out of the membership:

1. Medical
2. Nursing and Midwifery
3. Support
4. Clinical Scientist or Allied Health Professional
5. Estates, Administrative and Managerial

Membership breakdown – total staff and public members 15,737 (11,196 + 4,540 staff)

Staff Report

At Warrington and Halton Teaching Hospitals NHS Foundation Trust we recognise that our workforce is central to us achieving our ambition of '*moving to outstanding.*' We believe that by harnessing the talents of our workforce and creating the conditions for staff to provide excellent care we will be recognised as an outstanding organisation – somewhere where people want to be cared for and somewhere where people want to work.

People Strategy

Our People Strategy is now beginning its third year, with excellent progress made against all of our people objectives:

- We will create the conditions to promote wellbeing and enable an engaged workforce to improve patient and staff experience
- We will attract and retain a diverse workforce aligned to our culture and

values, to ensure that we have the staff with the skills to deliver excellent patient care

- We will develop a collaborative, compassionate and inclusive culture of collective leadership and organisational learning

Successes to date include the introduction of a four tier mental health support model, roll out of team development, retention programmes and the implementation of a staff-led change programme.

We continue to strive to be the best place to work with a diverse, engaged workforce that is fit for the future. This is reflected across a range of metrics, including our staff engagement and equality, diversity and inclusion score results from the 2019 staff survey as detailed below.

Analysis of Staff Costs

	2019/20 Total £000s	2018/19 Total £000s
Salaries and wages	141,461	131,995
Social security costs	13,980	12,607
Apprenticeship levy	664	619
Pension costs (employer contributions to NHS Pensions)	16,194	14,900
Pension costs (other)	60	76
Pension costs (employer contributions paid by NHSE on Provider's behalf (6.3%))	7,042	0
Termination benefits	112	72
Bank and agency staff	23,312	23,341
Total employee benefit expenses	202,825	183,610
Less costs capitalised as part of assets	(574)	(159)
Total per employee expenses	202,251	183,451
Employee costs include staff costs of £574k (£159k in 2018/19) which have been capitalised as part of the Trust's capital programme. These amounts are excluded from employee expenses (Note 5.1). The employee expenses table above is for Executive Directors, staff costs and redundancy payments only. It excludes Non-Executive Directors.		

Average Staff Numbers

Below is a breakdown of the number of male and female Directors and senior managers:-

		2019/2020		2018/2019	
		Male	Female	Male	Female
Directors (Executive and Non-Executive)		8	7	8	8
Senior Managers (Band 8a and above)		54	168	53	160
Other Employees		843	3459	813	3440

The average number of employees is calculated as the whole time equivalent number of employees under contract of service in each week in the financial year, divided by the number of weeks in the financial year.

Staff Category	2019/2020			2018/19			2017/18
	Permanently Employed	Other	Total	Permanently Employed	Other	Total	Total
Medical and dental	297	136	433	395	32	427	415
Administration and estates	943	53	996	880	4	884	866
Healthcare assistants and other support staff	857	13	870	807	106	913	89
Nursing, midwifery and health visiting staff	938	26	964	954	127	1,081	1,062

Scientific, therapeutic and technical staff	557	12	569	576	27	603	590
Total	3592	240	3858	3,612	296	3,908	3,832

Attendance Management

The Trust has a clear and robust framework within which managers are able to address the issues of attendance and sickness absence with a consistent, supportive and fair approach. There is a strong focus on workforce health and wellbeing across the organisation, as set out within our People Strategy.

For information in respect of sickness absence, please us the following link:
<https://digital.nhs.uk/data-and-information/publications/statistical/nhs-sickness-absence-rates>

Staff Policies and Actions Applied in Year

The following workforce policies were applied in the financial year:

- Special Leave
- Secondment Policy
- Annual Leave Policy
- Disability Equality Policy (to be replaced with Equality In Employment Policy)
- Study and Professional Leave Policy For Non-Training Grade Medical Staff
- Clinical Excellence Awards Policy
- IV Drug Administration Policy
- Time off for Recognised Representatives and members of Trade Unions/Staff Organisations policy
- Grievance Procedure
- Dignity at Work
- Attendance Management
- Stress Policy - Staff Mental Wellbeing and Emotional Resilience
- Organisational Change Policy
- Exit Payments Policy
- Multi-professional Clinical Supervision Policy
- Preceptorship Policy
- Whistleblowing - Freedom to Speak Up Policy
- Recruitment and Selection

- Remediation Policy for Medical and Dental Staff
- Maintaining High Professional Standards
- Temporary Staffing Policy: Medical Staff, Professions Allied to Medicine and Admin and Clerical Staff
- The Strengthened Medical Appraisal to Support Revalidation Policy
- Retirement and Long Service Policy
- Overtime Policy
- Work Experience Policy
- Unified Do not attempt Resuscitation Policy
- Policy for the Payment of Travel and Expenses
- Management of Needlestick, Sharps and Innoculation Injury, including Sharps Safety Policy
- Workplace Alcohol, Drug and Substance Misuse Policy
- Providing Employment References
- Apprenticeship Policy
- Training and Development Policy
- Job Planning Policy for Consultant Medical Staff (Agreed at WC but JLNC claim approval not given)
- Resuscitation Policy
- Annual Leave Policy for Consultant Medical and Dental Staff
- Career Break
- Medical Illustration Policy
- Performance Improvement Policy
- Shared parental leave policy
- On Call Policy
- Professional Clinical Registration
- Non-Medical Staff Study Leave / Funding Policy
- Disciplinary Policy
- Protection of Pay
- Management of Personal Relationships at Work
- Immunisation Of Healthcare Workers And Health Clearance - Occupational Health Standards
- Appraisal Policy
- Pay Progression Policy
- Induction Policy
- Job Planning Policy for SAS Doctors

Equality, Diversity and Inclusion

The Trust is committed to equality, diversity and inclusion across our workforce. We aim to be a leading organisation, which is recognised locally, regionally and nationally, for promoting equality, diversity and inclusion.

The Trust's Equality Diversity and Inclusion (EDI) Strategy 2019-2022, provides our basis for creating a culture of inclusion encompassing our patients, communities and workforce through our EDI objectives:

- We will work to reduce health inequalities and ensure that our services meet the needs of all our patients.
- We will provide equal access to our services and improve the experience of our patients with protected characteristics.
- We will build and maintain a diverse and representative workforce that is empowered, engaged and supported to demonstrate inclusive behaviours.
- We will work to ensure that the Trust has inclusive and diverse leadership across all levels of the workforce.

Our Black Asian and Minority Ethnic (BAME) staff network group is now running meeting bi-monthly with participants linking into key areas within the trust such as Learning and Organisational Development to promote learning opportunities for our BAME staff, and the Equality, Diversity and Inclusion sub-committee meeting to share feedback from our BAME workforce about what it is like to be part of our WHH team.

The appointment of our Staff Engagement and Wellbeing Lead provides us with the opportunity to consolidate our strategy

objectives with key work stream now in place to support our workforce to be, engaged, developed and involved.

Through collating our data for the EDS2 report we have engaged across our workforce to evaluate how we are progressing within the areas addressed this year. We identified areas of good practice to celebrate and development priorities.

The Trust has met all of its statutory reporting requirements throughout 2019/20 and all reports are published on the Trust website (available here: <https://whh.nhs.uk/about-us/corporate-publications-and-statutory-information/equality-diversity-and-human-rights>). The outputs of these publications continue to direct our engagement with our patients, our workforce and our communities, and have fed into our Strategy.

Actions taken in the financial year to provide employees systematically with information on matters of concern to them as employees:

We have continued to communicate with our staff through a variety of methods. We make use of a variety of media platforms such as the monthly team brief, the emailed weekly update and daily safety briefing arising from the daily safety huddle.

Our communication with our staff remains of great importance and continue to utilise our monthly team brief, weekly update from our communication teams and daily safety huddle up dates. The primary method of this communication is via email

however our People Champions ensure that this is accessible to all staff through printing out this information and displaying it across the Trust. The safety huddle outcomes are also used as part of our clinical areas daily face to face huddle/handover.

There is also an expectation that all team members who were unable to attend the month team brief sessions have this information provided to them as part of their team meetings. Team Brief continues to be an open invite to all our staff. It continues to be presented by our Chief Executive on both Trust sites, based around our Quality, People and Sustainability framework.

Our social media profile continues to grow utilising this opportunity to communicate via Twitter, Facebook and Instagram ensuring a wide reach for our communications. Our Executive Directors continue to be a visible presence within the Trust engaging with staff and seeking opinion and feedback.

This year we have utilised staff focus groups to create the behaviours that sit underneath our Trust values. These behaviours were developed through seeking input and engagement from a range of clinical and non-clinical staff. The behaviours will be endorsed in our recognition of exemplar work in demonstrating of our values, and in other areas of our reward and recognition schemes such as team and employer of the month and our Trust Thanks You awards.

Actions taken in the financial year to consult employees or their representatives on a regular basis so that the views of employees can be taken into account in

making decisions which are likely to affect their interests:

The strong culture of partnership working with Staff Side colleagues and the Trust continues with the ongoing Joint Negotiating and Consultative Committee (JNCC) meetings providing a forum for communication and collaborative working. The group meets every two months as a forum for consultation and negotiation on a range of issues that are of common interest to managers and employees. There is also a monthly Local Negotiating Committee, which feeds into JNCC, relating to medical staff. In addition to the formal partnership working structures, there are a range of informal 'touch points' each month between the HR and OD Team and staff side colleagues.

Employee voice is heard through the Staff Survey and Staff Friends and Family Test. Our Be the Change Team continue to seek engagement from all areas of our workforce in bringing ideas to life to improve our patient care and staff experience.

Information on health and safety performance and occupational health:

Our Workplace Health and Wellbeing Team deliver our Occupational Health service and have responsibility for supporting staff Health and Wellbeing. The Department is a SEQUOSH accredited nurse led unit, with a team of fully qualified occupational health nurses. The department provides employment clearance, vaccination, flu campaigns, well-being and health support, physiotherapy and counselling.

The team consists of nurses, physiotherapists, counsellor, administrators and external doctor provisions offering a robust integrated OH service, supporting Commissioning for Quality Innovation (CQUIN) targets and our People Strategy. Key highlights of the year include:-

Health Awareness and promotion

The 'Fit to Care' Programme has continued to take place with the addition of a menopause group which is well attended. Further health and well being events include looking after your heart month and health and wellbeing checks taking place.

Flu Campaign

- The trust achieved the vaccination rate of 87% of front line staff
- The CQUIN target has been achieved

Musculoskeletal (MSK)

The Physiotherapists Back Club drop-in sessions continue to take place within the Trust.

Mental Health care first

The offer of resilience training and Mental Health First Aid Training is ongoing with 40 members of staff now being trained as Mental Health first aiders . In addition the Trust is now working with Care First who provide telephone support and advice all day every day and can provide over the

phone counselling support and referral onto further counselling as required.

Staff Survey Results

Our staff survey for 2019 had a 53% response rate and improvement from the previous years 51% and remains higher than the national average response rate of 46%. We continue to encourage a response from our entire workforce.

We use the outcomes of our survey to direct future organisational change for example reviewing and redesigning our PDR process based upon the score for staff who feel they have had a meaningful PDR.

We are particularly proud of the achievement of score of 9.4 for the Equality Diversity and Inclusion equalling the best score nationally within this area.

Staff Engagement:

Our overall engagement score from the staff survey increased from 7.0 in the 2018 survey to 7.1 against a nation average score of 7.

We have successfully recruited to the new post of Head of Service for Staff Wellbeing and Engagement. This post will encompass our Be the Change Team, Occupational Health and Wellbeing Team and drive forward our ambition to engage all of workforce across the Trust.

For our staff survey results see Annex 2.

Trade Union Facilities Time

The Trust's statistics relating to our Trade Union facility time for the period ending 31 March 2019 (published in July 2019) are as follows:-

Table 1

Number of employees who were relevant union officials during the period 201-19

no employees who were relevant union officials	full time equivalent employee number
31	28.6

Table 2

Percentage of time spent on facility time

percentage	no of individuals
0%	4
1 – 50%	25
51 – 99 %	1
100 %	1

Table 3

Total cost of facility time

Cost of TU activity/facility time	£

total pay bill (2018 – 19)	£ 153,754,509
% age of total pay bill spent on facility time	.04%

Table 4

Paid trade union activities

	%age
paid TU activity time as a percentage of paid facility time	5.84 %

Expenditure on Consultancy

The Trust has incurred the following expenditure on consultancy services:-

	2019/20	2018/19
Total expenditure (£000's)	1,815	1,708

Expenditure of £429k (£438k in 2018/19) was for the provision of Trust management advice and assistance outside the “business as usual” environment and covers strategy, financial, organisation and change management and IM&T services. Expenditure of £1,326k (£1,163k in 2019/20 was for the provision of consultancy services on behalf of the Cheshire and Merseyside Sustainability and Transformation Programme which has been hosted by the Trust since 18th September 2017.

Gender Pay Gap

The Equality Act 2010 (Gender Pay Gap Information Regulations 2017) requires all organisations with over 250 employees to report on and publish their gender pay gap annually. This report: https://whh.nhs.uk/application/files/5115/9102/7242/GPG_Report_v2.pdf details the data for Warrington & Halton Teaching Hospitals Foundation Trust (WHH) as at the year ending 31st March 2019.

Disclosures set out in the NHS Foundation Trust Code of Governance

The Directors are responsible for the preparation of the annual report and annual accounts. The Board of Directors considers the annual report and accounts, taken as a whole, are fair, balanced and understandable and provide the information necessary for patients, regulators and other stakeholders to assess the NHS Foundation Trust's performance, business model and strategy.

Warrington and Halton Teaching Hospitals NHS Foundation Trust has applied the principles of the NHS Foundation Trust Code of Governance on a 'comply or explain' basis. The NHS Foundation Trust Code of Governance, most recently revised in July 2014, is based on the principles of the UK Corporate Governance Code issued in 2012.

The Board of Directors provides effective and proactive leadership within a framework which enables risk to be assessed and managed appropriately (see Annual Governance Statement). The Board ensures compliance with the constitution, mandatory guidance, relevant statutory requirements and contractual obligations. It sets the strategic aims of the Trust, taking into account the views of the Council of Governors, and ensures that the necessary resources are in place to meet priorities and objectives.

Principles and standards of clinical and corporate governance are set and overseen by standing committees of the Board. The Trust has established policies and processes that reflect the principles of the NHS Foundation Trust Code of Governance. These include:

- Standing Orders of the Board of Directors
- Standing Orders of the Council of Governors
- Scheme of Reservation and Delegation of Powers (SoRD)
- Standing Financial Instructions (SFIs)
- Established role of the Senior Independent Director (SID)

- Agreed recruitment process for Non-Executive Directors
- Induction programme for Non-Executive and Executive Directors
- Regular private meetings between the Chair and the Non-Executive Directors
- Robust performance appraisal process for all Non-Executive Directors, including the Chairman, developed and approved by the Council of Governors
- Attendance records for Directors and Governors at key meetings
- Induction programme and continuing training and development for Governors
- Council of Governors process for raising concerns and resolving disagreements between the Council of Governors and Board of Directors
- Established role of Lead Governors
- Structure of Council of Governors subgroups
- Patient, Public Participation and Involvement (PPP&I) strategy in place
- Nomination and Remuneration Committee (NARC) of the Board of Directors
- Nomination and Remuneration Committee of the Council of Governors (GNARC)
- Publicly available Register of Interests for Directors, Governors and Senior staff
- Fit and Proper Persons checks and declarations
- Code of Conduct for Board of Directors
- Code of Conduct for Council of Governors
- Robust Audit Committee arrangements
- Governor-led appointment process for External Auditor
- Freedom to Speak Up Policy and counter fraud policy and plan
- Going Concern statement.

The Trust declares that there are no items for which the Trust is not fully compliant; and disclosures are made throughout the 2019/20 Annual Report on a comply or explain basis.

Annex 1

Staff Exit Packages

Redundancy and other departure costs have been paid in accordance with the provisions of Agenda for Change and the NHS Pension Scheme. Exit costs are accounted for in full in the year of departure. Where the organisation has agreed early retirements, the additional costs are met by the Warrington and Halton Teaching Hospitals and not by the NHS pension scheme. Ill-health retirement costs are met by the NHS pension scheme and are not included in the table.

The table below discloses the number and value of exit packages agreed in 2019/20.

Exit package cost band	Number of compulsory redundancies	Cost of compulsory redundancies	Number of other departures agreed	Cost of other departures agreed	Total number of exit packages	Total cost of exit packages	Number of departures where special payments have been made	Cost of special payment element included in exit packages
	Number	£000	Number	£000	Number	£000	Number	£000
<£10,000	0	0	16	47	16	47	0	0
£10,00 – £25,000	0	0	2	20	2	20	0	0
£25,001 – £50,000	0	0	1	45	1	45	0	0
£50,001 – £100,000	0	0	0	0	0	0	0	0
Total	0	0	19	112	19	112	0	0

The number and value of exit packages agreed in 2018/19 are listed in the table below for comparison.

Exit package cost band	Number of compulsory redundancies		Cost of compulsory redundancies		Number of other departures agreed		Cost of other departures agreed		Total number of exit packages		Total cost of exit packages		Number of departures where special payments have been made		Cost of special payment element included in exit packages	
	Number	£000	Number	£000	Number	£000	Number	£000	Number	£000	Number	£000	Number	£000	Number	£000
<£10,000			19	55	19	55			0	0						
£10,00 – £25,000	1	17	0	0	1	17			0	0						
£25,001 – £50,000	0	0	0	0	0	0			0	0						
£50,001 – £100,000	0	0	0	0	0	0			0	0						
Total	1	17	19	55	20	72										

Other departures

During 2019/20 there were no non-compulsory departures which attracted an exit package in the year. There were none for 2018/19 to list for comparison.

Annex 2 NHS Staff Survey 2019

The 2019 staff survey took place between September and November 2019 via Quality Health, who are an approved NHS staff survey provider. The organisation undertook a mixed mode approach to the survey providing paper copies as well as an online option for all members of staff.

In the 2019 staff survey, the organisation's response rate was 53% which is an increase of 2.4% from the 2018 staff survey figures, diagram one identifies our organisational position in comparison with the best, average and worse acute trust scores.

2,136 members of staff completed their survey and the organisation's response rate was 6% above the national score when compared with other acute trusts nationally. The thematic results demonstrate how the organisation have made great strides in increasing participation in the survey and most importantly how there have been initiatives and interventions throughout the year which have contributed to a cycle of continuous improvement from our staff and the services that we provide.

Diagram One – Comparison for response rates

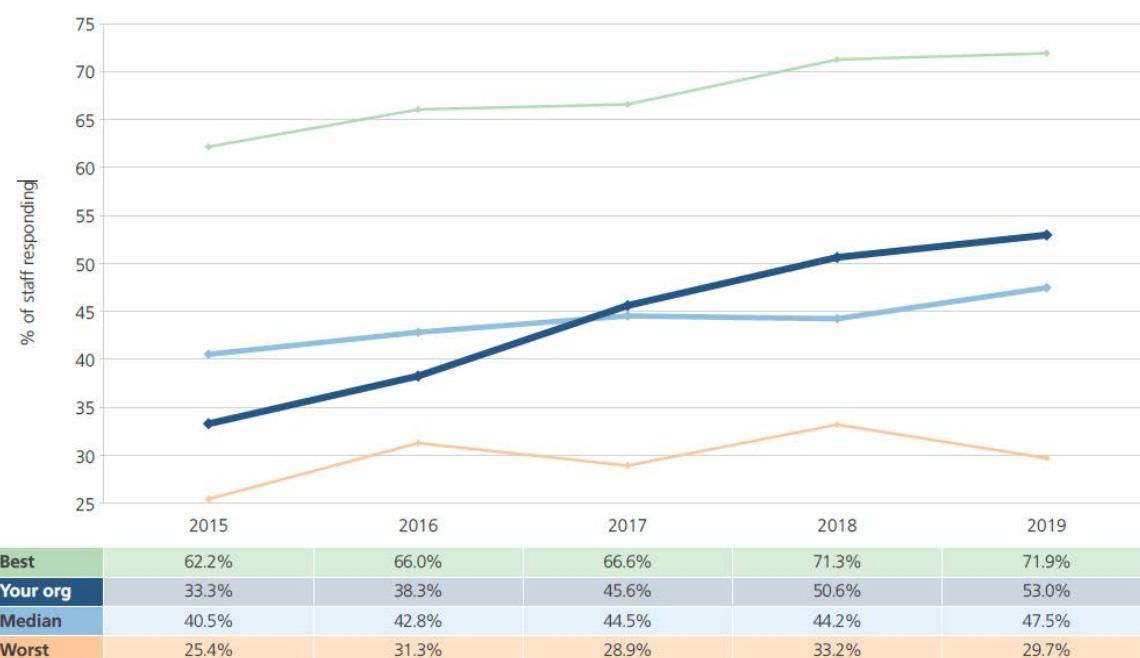

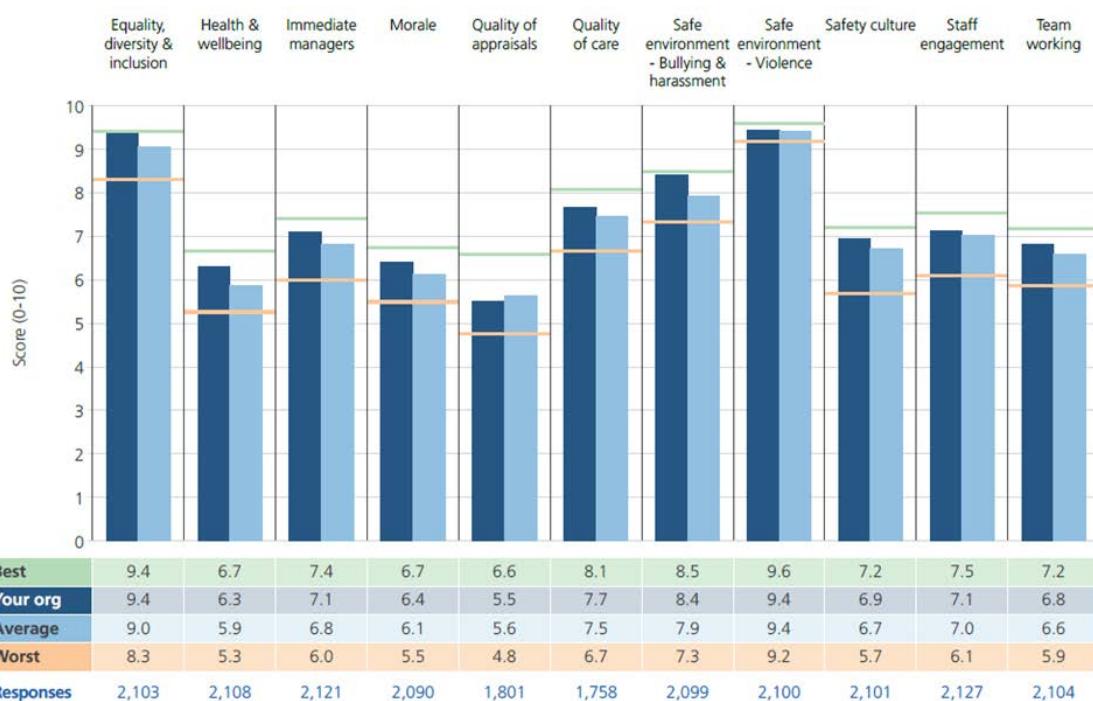

Diagram Two highlights the thematic results from the 2019 staff survey including best and average scores. The results illustrated that the organisation is better than the average score in 9 areas, the same as the average score in one area in relation to a safe environment from violence and slightly below average in the quality of appraisals. Although the quality of appraisals thematic score is lower than the national average for acute specialist trusts, the organisation has improved on last year's score which demonstrates the impact of some of the initial work undertaken in relation to refreshing and developing the PDR and appraisal process for the organisation.

Diagram Two - Thematic Overview 2019 staff survey result

Comparison of the Organisation and Average scores by theme

	2016		2017		2018		2019	
Indicator/Theme	us	average	us	average	us	average	us	average

Team work	6.4	6.5	6.6	6.5	6.6	6.5	6.8	6.6

The following communication was sent to all staff to update on the outcomes of the 2019 Staff Survey results:

Key Highlights

- The organisation has the best score of 9.4 for equality, diversity and inclusion when compared with other acute trusts nationally
- Staff feel that the organisation takes positive action on health and wellbeing with an increase of 2.9% from 2018
- Staff look forward to coming to work and are enthusiastic about their job which has increased by 2% since 2018

- There has been a decrease of staff feeling unwell as a result of work related stress
- Increase by 2.3% in the workforce feeling that their immediate managers are supportive in terms of helping with difficult tasks
- All questions relating to staff morale show a positive improvement above the national average for acute trusts
- Individuals experiencing discrimination on the basis of ethnicity has decreased by 3.6% and is 17% better than the average acute trust score nationally
- Staff feel satisfied with the quality of care that they give which has increased by 2.5% from 2018
- All questions that fall under the safety culture theme have improved results since 2018

Key learning

- The thematic results identify the areas for improvement as quality of appraisals, bullying and harassment and violence.
- In the last 12 months there has been an increase of 0.3% in staff experiencing bullying, harassment or abuse from other colleagues.
- Whilst the trust results are overall positive, MSK interventions will be an area to focus on over the next year.

Following reports to both Operational People Committee (February 2020) and Strategic People Committee (March 2020), agreement was made around next steps in terms of both a Trust-wide and at a CBU/Department level approach.

Any further action has since been suspended due to COVID-19 and will be reviewed as part of workforce recovery planning.

Annex 3 – NHS Improvement’s Single Oversight Framework

NHS Oversight Framework

NHS England and NHS Improvement’s NHS Oversight Framework provides the framework for overseeing providers and identifying potential support needs. The framework looks at five themes:

- Quality of care
- Finance and use of resources
- Operational performance
- Strategic change
- Leadership and improvement capability (well-led)

Based on information from these themes, providers are segmented from 1 to 4, where ‘4’

The finance and use of resources theme is based on the scoring of five measures from ‘1’ to ‘4’, where ‘1’ reflects the strongest performance. These scores are then weighted to give an overall score. Given that finance and use of resources is only one of the five themes feeding into the NHS Oversight Framework, the segmentation of the

reflects providers receiving the most support, and ‘1’ reflects providers with maximum autonomy. A Foundation Trust will only be in segments 3 or 4 where it has been found to be in breach or suspected breach of its licence.

Segmentation

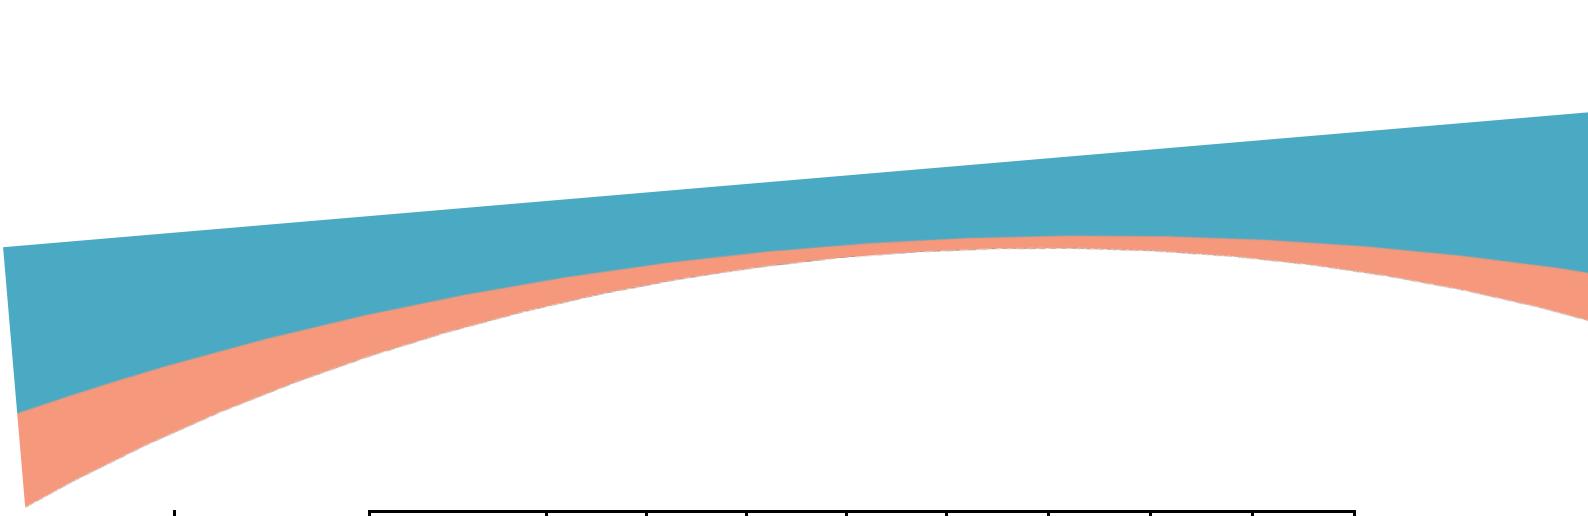

The Trust is currently assigned to segment 2 of the framework. This segmentation information is the Trust’s position as at 31st March 2020. Current segmentation information for NHS Trusts and Foundation Trusts is published on the NHS Improvement website.

Finance and use of resources

Trust disclosed above might not be the same as the overall finance score here.

This segmentation information is the Trust’s position as at 31st March 2020. Current segmentation information for NHS trusts and foundation trusts is published on the NHS Improvement website.

Annex 4 Statement of accounting officer's responsibilities

Statement of the Chief Executive's responsibilities as the Accounting Officer of Warrington and Halton Teaching Hospitals NHS Foundation Trust.

The NHS Act 2006 states that the Chief Executive is the Accounting Officer of the NHS foundation Trust. The relevant responsibilities of the Accounting Officer, including their responsibility for the propriety and regularity of public finances for which they are answerable, and for the keeping of proper accounts, are set out in the NHS Foundation Trust Accounting Officer Memorandum issued by NHS Improvement. NHS Improvement, in exercise of the powers conferred on Monitor by the NHS Act 2006, has given Accounts Directions which require Warrington and Halton Teaching Hospitals NHS foundation Trust to prepare for each financial year a statement of accounts in the form and on the basis required by those Directions. The accounts are prepared on an accruals basis and must give a true and fair view of the state of affairs of Warrington and Halton Teaching Hospitals NHS Foundation Trust and of its income and expenditure, other items of comprehensive income and cash flows for the financial year.

In preparing the accounts and overseeing the use of public funds, the Accounting Officer is required to comply with the requirements of the Department of Health Group Accounting Manual and in particular to:

- observe the Accounts Direction issued by NHS Improvement, including the relevant accounting and disclosure requirements, and apply suitable accounting policies on a consistent basis
- make judgements and estimates on a reasonable basis

- state whether applicable accounting standards as set out in the NHS Foundation Trust Annual Reporting Manual (and the Department of Health Group Accounting Manual) have been followed, and disclose and explain any material departures in the financial statements
- ensure that the use of public funds complies with the relevant legislation, delegated authorities and guidance and
- prepare the financial statements on a going concern basis and disclose and material uncertainties over going concern.

The Accounting Officer is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the NHS foundation Trust and to enable them to ensure that the accounts comply with requirements outlined in the above mentioned Act. The Accounting Officer is also responsible for safeguarding the assets of the NHS Foundation Trust and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

As far as I am aware, there is no relevant audit information of which the foundation trust's auditors are unaware, and I have taken all the steps that I ought to have taken to make myself aware of any relevant audit information and to establish that the entity's auditors are aware of that information.

To the best of my knowledge and belief, I have properly discharged the responsibilities set out in the NHS Foundation Trust Accounting Officer Memorandum.

Signed

Simon Constable, Chief Executive

Date: 30/06/2020

Annual Governance Statement

Scope of responsibility

As Accounting Officer, I have responsibility for maintaining a sound system of internal control that supports the achievement of the NHS foundation trust's policies, aims and objectives, whilst safeguarding the public funds and departmental assets for which I am personally responsible, in accordance with the responsibilities assigned to me. I am also responsible for ensuring that the Warrington and Halton Teaching Hospitals NHS Foundation Trust is administered prudently and economically and that resources are applied efficiently and effectively. I also acknowledge my responsibilities as set out in the *NHS Foundation Trust Accounting Officer Memorandum*.

The purpose of the system of internal control

The system of internal control is designed to manage risk to a reasonable level rather than to eliminate all risk of failure to achieve policies, aims and objectives; it can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the policies, aims and objectives of Warrington and Halton Teaching Hospitals NHS Foundation Trust, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically. The system of internal control has been in place in Warrington and Halton Teaching Hospitals NHS Foundation Trust for the year ended 31 March 2020 and up to the date of approval of the annual report and accounts.

Capacity to handle risk

As Accounting Officer, supported by the Board Members, I have responsibility for the overall direction of the risk management systems and

processes within the Trust. I have delegated the Executive Lead for risk management to the Chief Nurse who in turn is supported by the Deputy Director of Governance who manages the risk team.

The Quality Assurance Committee is the delegated committee of the Board of Directors to oversee the strategic risk register. Strategic risks are discussed at each meeting. It approves amendments to the strategic risk register / board assurance framework for ratification by the Board of Directors.

The Finance and Sustainability Committee oversees financial risk and risks arising through transformation on behalf of the Trust and report on any additional risk/controls/assurances which will be recorded on the appropriate risk register.

The Strategic People Committee oversees workforce risk on behalf of the Trust and report on any additional risk/controls/assurances which will be recorded on the appropriate risk register.

The Risk Review Group reports to Trust Quality Assurance Committee and oversees the corporate risk register and CBU risk registers on a rolling programme and makes recommendations to the Quality Assurance Committee regarding new strategic risks, review of existing strategic risks and assurance review of the corporate risk register and CBU risk registers.

The Trust Operations Board oversees the Trust's operations and any risks associated with delivery of this and reports on any additional risk/controls/assurances which will be recorded on the appropriate risk register.

The Audit Committee oversees the entire risk management system. It commissions an annual audit of the board assurance framework and strategic risk register, as part of the internal audit plan, to satisfy itself that the system of internal

control is effective. It examines the assurances on the effectiveness of controls for all strategic risks received from the Chair of the Quality Committee, and from internal and external auditors.

Risk Training

Staff are trained and equipped to manage risk in a way appropriate to their authority and duties. All new staff receive information as part of the local induction programme organised by line managers. Further education is provided with cyclical mandatory training undertaken by both clinical and non-clinical staff; the content for this programme is continually reviewed in light of any changes. There is a robust appraisal process which facilitates the identification of individual staff training needs. These are reviewed as part of the member of staff's annual performance and development appraisal. All relevant risk policies are available to staff via the Trust's document management system including:

- Risk Management Strategy
- Risk Assessment Policy
- Incident Reporting & Investigation Policy (Including Serious Incident Framework & Duty of Candour)
- Complaints & Concerns Policy

The Trust is committed to quality improvement and recognises the benefits gained from shared learning which helps to minimise future risk and to improve the care that the Trust provides. To achieve this, the Trust uses a range of mechanisms including clinical supervision, reflective practice, individual and peer reviews, performance management, continuing professional development, clinical audit and the application of evidence based practice. The revalidation process that a number of health professionals now undertake further supports learning and development.

Lessons learned and good practice is shared throughout the Trust, for example via the Trustwide Safety Huddle, daily Safety Briefings, Quality Assurance Committee, Patient Safety &

Clinical Effectiveness Sub Committee, Complaints Quality Assurance Group and the Clinical Claims Group. Furthermore, the Trust publishes the Learning to Improve Newsletters quarterly. The CBUs also have a robust governance process for feedback.

The risk and control framework

During the year the Trust continued to develop and enhance its governance and risk management systems and processes. It also fully appraised its key strategic risks and refreshed its Board Assurance Framework which is reviewed by the Board at each of its meetings and the Quality Assurance Committee on a bi-monthly basis. In year, there was further alignment of the relevant elements of the Board Assurance Framework to the committees of the board.

The Risk Management Strategy provides a framework for managing risk across the Trust. The Strategy describes the process for managing risks and the roles and responsibilities of the Board of Directors, its Committees and that of all staff and provides a clear, structured and systematic approach to the management of risk to ensure that risk assessment is an integral part of clinical, managerial and financial processes across the Trust.

Local risk registers are monitored and maintained locally within the Clinical Business Units (CBU) which enables risk management decision-making to occur as near as practicable to the risk source. For those risks that cannot be managed locally these are escalated to the appropriate manager and are included in the appropriate corporate departments or CBU risk register.

Risks should be scored by the competent person undertaking the risk assessment and validated by a manager according to the residual risk score:

- 6 or below (low, and very low) are verified by the ward or department manager.

- 8-10 (moderate) are verified by CBU Managers, Corporate Heads of Service, Lead Nurse, Matron
- 12 (high) are verified by the Clinical Directors, Associate Directors
- ≥15 (significant) are verified at Executive level.

The Risk Review Group is chaired by the Chief Nurse and attended by the Deputy Director of Governance, Chief Operating Officer, Medical Director, Head of Safety and Risk and the CBU Governance Managers. CBU Managers also attend on a rotational basis. This group will review the risk for inclusion onto the Board Assurance Framework. The recommendation will then be reviewed and ratified by the Trust Quality Assurance Committee.

The Trust employs a number of systems to ensure that risk management is embedded within the organisation including business planning, performance management frameworks and clinical information systems. Regular reports are also available to the various committees responsible for aspects of risk management.

There are a number of corporate policies and procedures in place to support risk management, covering the management of incidents, risk assessment and consent and general risk management arrangements.

The Trust encourages stakeholder and partner organisations' participation and has developed an active Patient Experience Committee. Partners and Governors are encouraged to raise issues, be involved in determining solutions and input to all aspects of risk management.

The Trust has a Board Assurance Framework in place which is reviewed by the Board of Directors, and includes: the identification of the key risks to the achievement of the strategic objectives, CQC fundamental standards; the Provider Licence and the systems in place to manage/mitigate these risks; the control systems in place to manage the

key risks; the identification of sources of internal and external assurances evidencing the management of risk; and evidence of compliance with equality, diversity and human rights legislation. The Board Assurance Framework is reviewed by the Board of Directors at each of their meetings and the Audit Committee, and bi-monthly by the Quality Assurance Committee, which provides additional challenge and scrutiny of the risks identified.

The NHS Digital Data Security and Protection Toolkit, an online tool that enables organisations to measure compliance against data security and information governance requirements, was introduced in June 2018.

The Trust receives assurance from the National Reporting and Learning System (NRLS) on reporting performance. This data forms part of the CQC Insight Report which incorporates data indicators that align to key lines of enquiry, brings together information from users of the Trust's services, knowledge from inspections of the Trust and data from our partners. Furthermore, the report indicates where the greatest risk to quality of care lies, points to services where the quality may be improving and monitors change over time for each measure.

Incidents, complaints, claims, Coroners' Inquests and patient feedback are routinely analysed to identify lessons for learning and improve internal control. To enhance learning and improve governance, the Trust actively pursues external peer review of all serious incidents should this be necessary.

Learning and improvement from incidents, complaints, claims and coroners inquests has been a particular focus for the Trust and help to improve internal control. Incidents, complaints, PALS, Claims, Coroner inquests, external agency, Risk KPIs are reported through the Quality Assurance Committee, its Sub-Committees, CBU-level reports; and shared with the lead Commissioners as part of the Quality Contract.

Lessons for learning are also disseminated to staff using a variety of methods including Trust Wide Safety Huddle, which convenes on each weekday, the subsequent Safety Briefings and regular safety alerts.

Supporting the learning are monthly meetings such as the Complaint Quality Assurance Group and Clinical Claims Group.

Furthermore, each quarter a Learning from Experience Report is compiled and submitted to the Quality Assurance Committee and the Trust Board and includes aggregated analysis of Incidents, Complaints, Claims, Health & Safety incidents and Inquests. The report contains trend data and through qualitative and quantitative data analysis, provides assurance of lessons learned from past harms together with the changes to clinical practice that have subsequently been put in place.

CQC Registration and Assessment

The Trust is required to register with the Care Quality Commission. The Foundation Trust is fully compliant with the registration requirements of the Care Quality Commission.

The CQC inspected Warrington and Halton Teaching Hospitals NHS Foundation Trust from 29th March to 2nd May 2019 and the final report was received in July 2019. During the visit the CQC looked at the quality and safety of the care provided, based on whether the service is: Safe, Effective, Caring, Responsive and Well-led. Included within the remit of the inspection was the Well-Led Inspection and NHSI Use of Resources review. The Trust was rated as 'Good' overall with an 'Outstanding' rating for Caring in Critical Care. A robust and comprehensive action plan has been developed which is being overseen by a '*Moving to Outstanding*' Steering Group' which reports on progress to the Quality Assurance Committee and the Trust Board. Specific work-streams have been developed to drive improvement actions and identify training,

development, infrastructure and capital investment needs and where the improvement actions are being managed closely with timelines and leads identified.

The Trust remains fully compliant with the registration requirements of the Care Quality Commission.

The Foundation Trust Code of Governance

The Foundation Trust governance structure ensures that the Board has an overarching responsibility through its leadership and, to ensure and be assured that the organisation operates with openness, transparency and candour particularly in relation to its patients, the wider community and its staff. The Board holds itself to account including with a wide range of stakeholders.

The Governors play a significant role in holding the Board, and in particular the Non-Executive Directors, to account in a challenging but constructive way within a unitary board. The Council of Governors meets quarterly as well as a quarterly Governor Engagement Group and regular Governor Working Party meetings. The Board has developed a culture across the organisation which supports open dialogue and includes Non-Executive Directors and Executive Directors regularly visiting Wards and Departments to personally listen to feedback from staff, patients, their carers and relatives.

The Board of Directors have throughout the year reviewed the relationship and responsibilities of the Board Committees and Sub-Committees to ensure appropriate delegation of authority and that the appropriate assurance and oversight is maintained on behalf of the Trust Board. All the committees; which comprise of the Quality Assurance Committee, the Finance and Sustainability Committee and the Strategic People Committee, have Non-Executive Director (NED) membership and Chairs. The Complaints Quality Assurance Group is also chaired by the Chair of

the Trust. The Audit Committee is a significant statutory committee of the Board that is chaired by the Senior Independent Director.

The Board receives Chair's Key Issue Reports from each of the committees which provide timely and accurate information. This facilitates an overarching and durable framework that allows the Board to make sense of the effective use of the information and data to gain further assurance of good practice in governance and provides confidence that the organisation provides patient centred care or provides alerts to where further investigation and monitoring may be required. To further support the Board, each of the committees receive regular updates and High Level Briefings from the operational groups which are chaired by the Executive Directors. There is an opportunity at each meeting for the relevant operational group minutes to be questioned and where needed, further details requested and clarified.

The Board and its committees demonstrate leadership and the rigour of oversight of the Trust's performance by having formulated an effective strategy for the organisation, ensuring accountability by robustly challenging the control systems in place and where appropriate seeking further intelligence on the current trend analysis with the Trust's performance indicators to further understand the wider community's health needs.

The Trust is able to assure itself of the validity of its Corporate Governance Statement, required under NHS foundation Trust condition 4(8)(b) through its Annual Governance Statement (this document), its Code of Governance self-assessment evidence and its Head of Internal Audit Opinion; which reported substantial assurance for the period 1st April 2019 to 31st March 2020.

People & Organisational Development

The Trust's 3 year people strategy is now entering its final year. Progress has been made on all of the

People objectives set out in the document and the delivery of our Leadership model, coaching model and training and Trust behaviours is imminent. Upon launch evaluation of the impact of these initiatives will take place utilising standardised objective measurement tools such as psychological safety inventory alongside capturing qualitative data. This is to ensure that we are meeting organisational need and provide data to support future developments.

Operational delivery of both the Strategy and Workforce Plan continues to be overseen by the Operational People Committee, chaired by the Director of HR and OD. Strategic People Committee, which is a Committee of the Board, Chaired by a Non-Executive Director, has strategic oversight of the Strategy and Plan, and provides assurance to Board.

The Trust takes a structured approach to workforce change and this is driven through our Workforce Redesign Group evidenced through the population centric workforce planning methodology. The Trust is in the process of developing a talent management and succession planning tool, this is in collaboration with the North West Leadership Academy.

The Trust's 2019 Staff Survey safety culture scores have further increased to 6.9 against a national average of 6.7. Furthermore the Trust Equality Diversity and Inclusion score is 9.4 equal to the highest national score. There has been initiation of a staff network group for our Black Asian Minority Ethnic workforce and the Trust has also signed the Armed Forces Covenant pledging our support to serving and ex-military and their families.

All Trust staff are supported by the Freedom to Speak Up Guardian, Champions and Policy. Our People Champions provide additional support to ensure all Trust communications reach as wide as is possible across our workforce.

The Daily Safety Huddles continue to provide a forum where staff are able to raise any safety concerns and likewise receive clear communication on all safety related matters in real time. New starters continue to be welcomed into the trust by an Executive Team member on the Corporate Induction day. Leadership is visible throughout the organisation with a clear senior leadership presence encouraging two way communication with our workforce, further embedding our culture of openness and transparency.

The Foundation Trust has published on its website an up-to-date register of interests, including gifts and hospitality, for decision-making staff (as defined by the trust with reference to the guidance) within the past twelve months, as required by the 'Managing Conflicts of Interest in the NHS' guidance.

NHS Pension Scheme

As an employer with staff entitled to membership of the NHS Pension Scheme, control measures are in place to ensure all employer obligations contained within the Scheme regulations are complied with. This includes ensuring that deductions from salary, employer's contributions and payments into the Scheme are in accordance with the Scheme rules, and that member Pension Scheme records are accurately updated in accordance with the timescales detailed in the Regulations.

Equality, Diversity and Human Rights

Control measures are in place to ensure that all the organisation's obligations under equality, diversity and human rights legislation are complied with.

Carbon Reduction

The foundation trust has undertaken risk assessments and has a sustainable development

management plan in place which takes account of UK Climate Projections 2018 (UKCP18). The trust ensures that its obligations under the Climate Change Act and the Adaptation Reporting requirements are complied with.

Review of economy, efficiency and effectiveness of the use of resources

The Trust has been assessed as being in 'Segment 2' by the regulator NHS Improvement, meaning the Trust is offered targeted support.

The Trust has performance management processes in place that review the economy, efficiency and effectiveness of the use of resources. The Director of Finance & Deputy Chief Executive chairs the monthly Finance Resource Group (FRG) which reviews financial performance of all CBUs and Corporate Areas and reports into the Non-Executive led Finance and Sustainability Committee (FSC). Part of the remit of the FSC, which meets monthly, is to support the Trust Board in gaining assurances on the economy, efficiency and effectiveness of the use of resources. Standing items on the agenda include the monthly financial position report and a Cost Improvement Programme (CIP) and cost pressures report to ensure regular review of any financial challenges and implementation of recovery measures

The Executive Team reviews the operational performance of the Trust and monitors this through the Trust Operational Board. The Trust has a Use of Resources Group, which is led by the Director of Finance + Commercial Development. Use of Resources is a workstream supporting the Trust's programme of 'Moving to Outstanding' CQC rating. Progress is reported to the Trust Board via a combined Lord Carter/Use of Resources report. The Board at each meeting is provided with an integrated performance report that sets out performance against an agreed framework of performance measures for Quality, People and Sustainability. The Director of Finance + Commercial Development regularly reports to

the Quality Committee the CIP Quality Impact Assessments to provide assurance that CIPs have not had a detrimental impact to the quality of services.

The Trust has a policy and governance framework in place to guide staff on the appropriate use of resources through its Standing Orders, Standing Financial Instructions and Schemes of Delegation. In addition, there is a robust system for developing and routinely reviewing policies and procedures and staff are appropriately updated and guided or trained on their application.

Independent assurance is provided through the Trust's internal audit programme and the work undertaken by MIAA Counter fraud, reports from which are reviewed by the Audit Committee. In addition, further assurance on the use of resources is obtained from external agencies, including the external auditors and the regulators.

Financial Governance

The Trust recorded a £0.8m surplus for the year, which included £17.9m for PSF, FRF and MRET. This surplus was £0.8m better than plan the control total set by NHSI was £17.9m.

There was an over recovery against the clinical income target of £6.5m, the Trust agreed settlements with all of its main commissioners. There was a £0.5m shortfall against the £7.5m CIP target and agency costs of £10m which was £1.4m above plan.

The response to COVID-19 impacted on the Trust expenditure in March with revenue expenditure of £912k matched by income from NHSI along with capital of £25k. A small element of income was lost in March relating to car parking and private patient income £41k at 31 March 2020 relating to COVID-19 and this has also been matched with income.

The Trust accepted and achieved the 2019/20 breakeven control total so there was no requirement for a working capital loan in relation

to 2019/20. DHSC and NHSI have announced that all working capital loans are to be converted to Public Dividend Capital (PDC) under the new cash and capital regime to be implemented from 2020/21.

The annual capital programme (including external funding) was £15m and the actual spend for the year was £13.9m, an underspend of £1.1m

The cash balance was £2.2m with £0.9m relating to cash held on behalf of Cheshire and Merseyside Health and Care Partnership under a hosting arrangement. The remaining £1.3m is Trust cash balance which was £0.1m above the plan.

I am satisfied that there were no failures in financial governance. The Financial Resources Group and the Finance and Sustainability Committee review and scrutinise the financial position and performance of the Trust closely throughout the year and escalated any relevant items to the Board in the Chair's exception report. Furthermore, the Board reviewed position and challenged forecast outturns and mitigations on a monthly basis.

The Trust has monthly review meetings with NHSI and the financial position, forecast and associated mitigations were rigorously tested as part of these review meetings.

Information governance

Organisations that have access to NHS patient information must provide assurances that best practice data security and protection mechanisms are in place. The Trust is contractually obliged to undertake assessments against the NHS Digital Data Security and Protection Toolkit on an annual basis.

The Trust's 2019/20 Data Security and Protection Toolkit assessment was reviewed by Mersey Internal Audit Agency in March 2020 as part of the Trust's annual audit programme. The Governance assurance statement provided in the published review stated that "Warrington and Halton Teaching Hospitals NHS Foundation Trust has

demonstrated that it has implemented a robust, active framework to progress its information governance agenda". The overall assurance level awarded for the Trust's 2019/20 Data Security and Protection Toolkit submission is Substantial Assurance.

In the 2019/20 financial year the Trust reported 5 data loss incidents via the Data Security and Protection Toolkit reporting tool which were escalated to the Information Commissioner's Office (ICO). After investigating the circumstances surrounding each of the 5 reported incidents the ICO ruled that further action against the Trust was not necessary. Under the Network and Information Systems (NIS) Regulations 2018 the Trust is required to have adequate data and cyber security measures in place to protect against the increasing cyber threat. As an operator of essential services we are required to report network and information systems incidents which have significantly affected the continuity of services. The Trust has recorded no such incidents in the 2019/20 financial year.

As required by the Data Protection Act 2018 the Trust carries out Data Protection Impact Assessments (DPIAs) on projects that involve new types of data processing. Eleven Data Protection Impact Assessments on new IT system implementations in 2019/20 have been completed. A summary of these assessments will be made publically available on the Trust's website. No high risk data processing issues which would require escalation to the ICO were identified in the impact assessments completed during 2019/20.

The Trust uses the Data Security and Protection Toolkit in conjunction with the Datix Risk Management system to inform the work of its Information Governance and Corporate Records Sub-Committee. The Information Governance and Corporate Records Sub-Committee is accountable to the Quality Assurance Committee which is a sub-committee of the Trust board.

The Trust's Senior Information Risk Owner (SIRO) chairs the Information Governance and Corporate Records Sub-Committee which is also attended by the Trust's Caldicott Guardian. The SIRO (Chief Information Officer) acts as the Board level lead for information risk within the Trust. Any areas of weakness in relation to the management of information risk which are identified, or are highlighted by internal audit review, are targeted with action plans to ensure that we continue to strive to be information governance assured.

Data Quality and Governance

A Data Standards and Assurance meeting occurs every month and is chaired by the Head of Information, Business Information and Data Quality. Groups presented at the meeting include: Information Governance, Information team, HR, Contracting, ePR team, Clinical Coding, Theatres, Maternity, Outpatients, Cancer Services and the Trust's Clinical Business Units (CBU).

The standard agenda includes the following items:

- SUS (Secondary User Service) Data Quality Report.
- Systems Data Quality corrections.
- NHS Digital Information Standards Notifications tracking.
- Data Security and Protection Toolkit update.
- Documents for Review/Approval.
- Data Quality Dashboard
- Data Quality Policy and timeliness KPIs.
- CBU updates.
- Finance update including NHS England Compliance report for financial data quality.
- Coding update.
- Contracts/Model Hospital updates.
- HR update.
- ePR/(PAS) Patient Administration System update.

A Key Performance Indicator meeting discusses Data quality every month and is chaired by the Trust's Chief Operating Officer.

The Trust Data Quality policy was revised in 2019 and the new version ratified and uploaded to the Trust's policy HUB for ease of access.

All staff including clinicians and administrative staff who collect and record data both manually and on the Trust clinical information systems are responsible for ensuring adherence to the relevant data standards and for ensuring good data quality.

In order to achieve this they must:

- Ensure the timely, accurate and complete recording of data in the appropriate Trust information systems or record.
- Ensure they have the appropriate level of knowledge and skills for using the information systems required to do their role
- Undertake regular validation checks of data collection and input to confirm that the patient demographic data and Personally Identifiable Data for our patients is accurate and up to date.
- Update any inaccuracies and / or missing data in server user records.
- Address any data quality issues as soon as possible, and escalate appropriately. Reporting any concerns to the appropriate Information Asset Owner (IAO) or Information Asset Administrator (IAA).
- Have an awareness of and comply with national legislation, Trust level and local procedures.
- Ensure that they meet the Trust's Data Quality Standards where agreed for their area.
- Monitor their own competencies and access training where necessary both for clinical information systems and record keeping/data quality.

- Ensure all data is process in a secure and confidential way to comply with General Data Protection Regulation standards.

Ensuring that data is accurate, valid, reliable, timely, relevant and complete will help the Trust and its partners to assess the quality of our data and take action to address potential weaknesses.

Internal Trust wide Standard Operating Procedures (SOPs) are created, reviewed and maintained to ensure the consistency with data collection and adherence to standards. SOPs are used by clinical and non-clinical teams and are also available on the Trust's policy HUB for ease of access.

A dedicated Referral To Treatment (RTT) team validates all specialties and all areas such as inpatients, outpatients, Diagnostics and Cancer as part of the RTT pathways with the latter two also validated elsewhere. The team also act upon issues, e.g. tests not ordered or patients not added to Waiting lists. Long waiters of 40 weeks are proactively tracked.

Our robust process validates all patients that will or have breached in month where no current validation has been done and known data quality issues. We also assure admitted and non-admitted clock stops, requests for appointments, clinical notes, clinical decision, un-outcomed appointments, consecutive cancellations / DNA's for clinical review (discharge or give another appointment/TCI/Diagnostic test) for example, are then acted upon.

As a result of the COVID-19 Pandemic, Price Waterhouse Cooper (PWC), auditors for NHS Shared Business Services and Finance and Accounting Services, were not able to obtain evidence for a small number of controls operating for February and/or March 2020. As a result PWC have issued a qualified opinion, which is in line with the requirements of the ISAE 3402 Standard. During 2019/20 testing no exceptions were identified by PWC for any of the listed controls,

and although the testing could not be completed for February and/or March 2020, NHS SBS have provided assurances that all controls remained in place and fully operational.

Review of effectiveness

As Accounting Officer, I have responsibility for reviewing the effectiveness of the system of internal control. My review of the effectiveness of the system of internal control is informed by the work of the internal auditors, clinical audit and the executive managers and clinical leads within the NHS Foundation Trust who have responsibility for the development and maintenance of the internal control framework. I have drawn on performance information available to me. My review is also informed by comments made by the external auditors in their management letter and other reports. I have been advised on the implications of the result of my review of the effectiveness of the system of internal control by the board, the audit committee, the Quality Assurance Committee and the Risk Review Group; and a plan to address weaknesses and ensure continuous improvement of the system is in place.

Board of Directors: The Board Assurance Framework provides an overview of the internal control environment and evidence of the effectiveness of the controls that manage the risks to the Trust in achieving its strategic objectives as identified in the annual plan.

Audit Committee: The Audit Committee reviews the effectiveness of internal control through the delivery of the internal audit plan.

Clinical Audit: Clinical Audit is an integral part of the Trust's internal control framework. An annual programme of clinical audit is developed involving all clinical business units. Clinical audit priorities are aligned to the Trust's clinical risk profile, compliance requirements under the provisions of the Health & Social Care Act 2008 (Regulated Activities) Regulations 2010, and national clinical audit priorities or service reviews. The Trust has

adopted the Health Research Authority (HRA) procedures which moved the emphasis towards acceptance of HRA assessment within the framework of research governance, strict legislation and recognised good clinical practice and local assessment of capability and capacity to run a study.

Internal Audit: MIAA acted as Internal Auditors for the Trust during the year. Internal Audit is an independent and objective appraisal service which has no executive responsibilities within the line management structure. It pays particular attention to any aspects of risk management, control or governance affected by material changes to the Trust's risk environment, subject to Audit Committee approval. A detailed programme of work is discussed with the Executive Team via the Director of Finance and set out for each year in advance and then carried out along with any additional activity that may be required during the year.

In approving the internal audit work programme, the Committee uses a three cycle planning and mapping framework to ensure all areas are reviewed at the appropriate frequency. Detailed reports, including follow-up reviews to ensure remedial actions have been completed, are presented regularly to the Committee by Internal Audit throughout the year. All such information and reports are fully recorded in the minutes and papers prepared for each Audit Committee meeting.

The Head of Internal Audit issued an overall opinion for 2019-20 of **Substantial Assurance** noting that there is a good system of internal control designed to meet the organisation's objectives, and that controls are generally being applied consistently. The HOIA confirmed continued compliance with the definition of internal audit (as set out in the Trust's Internal Audit Charter), code of ethics and professional standards. The HOIA also confirmed organisational independence of the audit activity

and that this has been free from interference in respect of scoping, delivery and reporting.

External Audit: External audit provides independent assurance on the Accounts, Annual Report, Annual Governance Statement and on the Annual Quality Report. The assurance framework itself provides me with evidence that the effectiveness of controls that manage the risks to the organisation achieving its principal objectives have been reviewed. My review is also informed by the work of internal and external audit, the external review processes for the clinical negligence scheme for Trusts along with NHS Resolution and the Care Quality Commission. In order to assure itself of the effectiveness of the external audit process, the Audit Committee receives an External Audit Update and Progress report at each meeting of the Committee. Furthermore, the Chair of the Audit Committee meets with the External Auditor on an annual basis to discuss their performance and will

provide an overview of this in the Committee Chair's Annual Report.

Conclusion

In preparing this statement I have considered the corporate, quality and clinical governance infrastructure, functionality and effectiveness in place at the Trust.

The Board of Directors remain committed to continuous improvements and enhancement of the systems of internal control. In line with the guidance on the definition of the significant control issues I have no significant internal controls to declare within this year's statement. My review confirms that Warrington and Halton Teaching Hospitals NHS Foundation Trust has a generally good sound system of governance and stewardship that supports the achievement of its policies, aims and objectives.

Signed

Chief Executive

Annex 6 Off-payroll arrangements disclosure requirements

Off Payroll Arrangements

Existing off-payroll engagements, outlined above, have at some point been subject to a risk based assessment as to whether assurance is required that the individual is paying the right amount of tax and, where necessary, that assurance has been sought.

For all off-payroll engagements as of 31 March 2020 for more than £245 per day and that last for longer than six months	
Number of existing engagements as of 31 March 2020	5
Of which...	
Number that have existed for less than one year at time of reporting	0
Number that have existed for between one and two years at time of reporting	0
Number that have existed for between two and three years at time of reporting	4
Number that have existed for between three and four years at time of reporting	0
Number that have existed for four or more years at time of reporting	0

Existing off-payroll engagements, outlined above, have at some point been subject to a risk based assessment as to whether assurance is required that the individual is paying the right amount of tax and, where necessary, that assurance has been sought.

For all new off-payroll engagements, or those that reached six months in duration, between 1 April 2019 and 31 March 2020, for more than £245 per day and that last for longer than six months :	
Number of new engagements, or those that reached six months in duration between 1 April 2018 and 31 March 2019	5
Of which...	
Number assessed as within the scope of IR35	0
Number assessed as NOT within the scope of IR35	5
Number engaged directly (via PSC contracted to Trust) and are on the Trust's payroll	1
Number of engagements reassessed for consistency/assurance purposes during the year	0
Number of engagements that saw a change to IR35 status following the consistency review	0

For any off-payroll engagements of board members, and/or, senior officials with significant financial responsibility, between 1 April 2019 and 31 March 2020

Number of off-payroll engagements of board members, and/or, senior officials with significant financial responsibility, during the financial year	0
Number of individuals that have been deemed 'board members and/or senior officials with significant financial responsibility' during the financial year	25*

*All directors and Bands 8d and 9 (all on payroll). Additional guidance is available from the Tax Centre of Excellence here: <https://taxcentreofexcellence.uk/homepage/off-payroll-working-ir35/>

Trust name: Warrington and Halton Teaching Hospitals NHS Foundation Trust
This year: 2019/20
This year ended: 31 March 2020
This year beginning: 1 April 2019

Foreword to the accounts for the year 1 April 2019 to 31 March 2020

Warrington and Halton Teaching Hospitals NHS Foundation Trust

These accounts, for the year ended 31 March 2020, have been prepared by Warrington & Halton Teaching Hospitals NHS Foundation Trust in accordance with paragraphs 24 & 25 of Schedule 7 within the National Health Service Act 2006.

Simon Constable
Chief Executive
24 June 2020

STATEMENT OF COMPREHENSIVE INCOME FOR THE YEAR ENDED 31 MARCH 2020

	NOTE	2019/20 £000	2018/19 £000
Income from activities	3	234,411	210,888
Other operating income	3	44,935	32,349
Operating income	3	279,346	243,237
Operating expenses	4	(275,761)	(256,387)
OPERATING SURPLUS / (DEFICIT)		3,585	(13,150)
FINANCE INCOME / (EXPENSE)			
Finance income - interest receivable	7	94	85
Finance expense - interest payable	8	(884)	(784)
PDC dividends payable		(1,917)	(2,002)
NET FINANCE COSTS		(2,707)	(2,701)
Net losses on disposal of assets	9	(108)	(168)
SURPLUS / (DEFICIT) FOR THE FINANCIAL YEAR		770	(16,019)
Other comprehensive income / (expense)			
Items that will not be reclassified to income and expenditure			
Net impairments on property, plant and equipment	10	5,479	4
Revaluation gains on property, plant and equipment			
TOTAL COMPREHENSIVE INCOME / (EXPENSE) FOR THE YEAR		6,249	(16,015)
Allocation of losses for the period			
(a) Surplus / (Deficit) for the period attributable to:			
(i) non-controlling interest, and		0	0
(ii) owners of the parent		770	(16,019)
TOTAL		770	(16,019)
(b) Total comprehensive income / (expense) for the period attributable to:			
(i) non-controlling interest, and		0	0
(ii) owners of the parent		6,249	(16,015)
TOTAL		6,249	(16,015)

The notes on pages 5 to 37 form part of these accounts.

STATEMENT OF FINANCIAL POSITION AS AT 31 MARCH 2020

	NOTE	31 March 2020 £000	31 March 2019 £000
NON-CURRENT ASSETS			
Intangible assets	11	2,314	2,049
Property, plant and equipment	12	139,589	127,023
Trade and other receivables	15	1,263	827
Total non-current assets		143,166	129,899
CURRENT ASSETS			
Inventories	14	3,564	3,484
Trade and other receivables	15	21,219	15,287
Cash and cash equivalents	17	2,242	2,124
Total current assets		27,025	20,895
CURRENT LIABILITIES			
Trade and other payables	18	(31,836)	(21,693)
Borrowings	20	(58,039)	(24,304)
Provisions	22	(484)	(353)
Other liabilities	19	(3,160)	(1,267)
Total current liabilities		(93,519)	(47,617)
Total assets less current liabilities		76,672	103,177
NON-CURRENT LIABILITIES			
Borrowings	20	0	(34,621)
Provisions	22	(1,754)	(1,242)
Total non-current liabilities		(1,754)	(35,863)
TOTAL ASSETS EMPLOYED		74,918	67,314
TAXPAYERS' EQUITY			
Public dividend capital		90,600	89,245
Revaluation reserve		36,190	30,711
Income and expenditure reserve		(51,872)	(52,642)
TOTAL TAXPAYERS' EQUITY		74,918	67,314

The primary accounts on pages 1 to 4 and the notes on pages 5 to 37 were approved by the Audit Committee on 17 June 2020 on behalf of the Trust Board using the powers delegated to the Committee and signed on its behalf by Simon Constable, Chief Executive.

Signed: Date: 24 June 2020

Simon Constable
Chief Executive

STATEMENT OF CHANGES IN TAXPAYERS' EQUITY FOR THE YEAR ENDED 31 MARCH 2020

	Total Taxpayers' Equity £000	Public Dividend Capital £000	Revaluation Reserve £000	Income and Expenditure Reserve £000
Taxpayers' equity as at 1 April 2019	67,314	89,245	30,711	(52,642)
Surplus for the year	770	0	0	770
Transfers between reserves	0	0	0	0
Net impairments on property, plant and equipment	5,479	0	5,479	0
Revaluation gains on property, plant and equipment	0	0	0	0
Public Dividend Capital received	1,355	1,355	0	0
Public Dividend Capital repaid	0	0	0	0
Taxpayers' equity as at 31 March 2020	74,918	90,600	36,190	(51,872)
	Total Taxpayers' Equity £000	Public Dividend Capital £000	Revaluation Reserve £000	Income and Expenditure Reserve £000
Taxpayers' equity as at 1 April 2018	83,236	89,152	30,707	(36,623)
Deficit for the year	(16,019)	0	0	(16,019)
Transfers between reserves	0	0	0	0
Net impairments on property, plant and equipment	4	0	4	0
Revaluation gains on property, plant and equipment	0	0	0	0
Public Dividend Capital received	93	93	0	0
Public Dividend Capital repaid	0	0	0	0
Taxpayers' equity as at 31 March 2019	67,314	89,245	30,711	(52,642)

STATEMENT OF CASH FLOWS FOR THE YEAR ENDED 31 MARCH 2020

	NOTE	2019/20 £000	2018/19 £000
Cash flows from operating activities			
Operating surplus / (deficit) from continuing operations		3,585	(13,150)
Non-cash income and expense			
Depreciation and amortisation	4	7,008	5,967
Impairments and reversals	4	(657)	1,100
Income recognised in respect of capital donations	3	(56)	(245)
(Increase) / decrease in trade and other receivables	15	(6,539)	(3,876)
(Increase) / decrease in inventories	14	(80)	(220)
Increase / (decrease) in trade and other payables	18	7,860	(1,782)
Increase / (decrease) in other liabilities	19	1,893	(1,094)
Increase / (decrease) in provisions	22	643	(140)
Other movements in operating cash flows		0	1
Net cash used in operations		13,657	(13,439)
Cash flows from investing activities			
Interest received	7	94	85
Purchase of intangible assets	11	(995)	(394)
Purchase of property, plant and equipment	12	(10,741)	(6,314)
Sales of property, plant and equipment		63	19
Receipt of cash donations to purchase capital assets	3	56	122
Net cash used in investing activities		(11,523)	(6,482)
Cash flows from financing activities			
Public Dividend Capital received		1,355	93
Movement in loans from Department of Health and Social Care	20	(624)	22,165
Capital element of finance lease	20	(263)	(358)
Interest on loans	8	(876)	(681)
Other interest	8	(4)	(5)
Interest element of finance lease	8	(3)	(14)
Public Dividend Capital dividend paid		(1,601)	(1,364)
Net cash used in financing activities		(2,016)	19,836
Increase / (Decrease) in cash and cash equivalents		118	(85)
Cash and cash equivalents as at 1 April		2,124	2,209
Cash and cash equivalents as at 31 March	17	2,242	2,124

NOTES TO THE ACCOUNTS

Note 1 Accounting policies and other information

Note 1.1 Basis of preparation

NHS Improvement, in exercising the statutory functions conferred on Monitor, has directed that the financial statements of the Trust shall meet the accounting requirements of the Department of Health and Social Care (DHSC) Group Accounting Manual (GAM), which shall be agreed with HM Treasury. Consequently, the following financial statements have been prepared in accordance with the GAM 2019/20 issued by the DHSC. The accounting policies contained in the GAM follow International Financial Reporting Standards (IFRS) to the extent that they are meaningful and appropriate to the NHS, as determined by HM Treasury, which is advised by the Financial Reporting Advisory Board. Where the GAM permits a choice of accounting policy, the accounting policy that is judged to be most appropriate to the particular circumstances of the Trust for the purpose of giving a true and fair view has been selected. The particular policies adopted are described below. These have been applied consistently in dealing with items considered material in relation to the accounts.

Note 1.1.1 Accounting convention

These accounts have been prepared under the historical cost convention modified to account for the revaluation of property, plant and equipment, intangible assets, inventories and certain financial assets and financial liabilities.

Note 1.2 Going concern

These accounts have been prepared on a going concern basis.

International Accounting Standard (IAS) 1 requires the management of all entities to assess, as part of the accounts preparation process, the bodies' ability to continue as a going concern. This is further enforced by Department of Health requirements to review the trust's going concern basis on an annual basis, the going concern principle being the assumption that an entity will remain in business for the foreseeable future.

This is to facilitate the accounting basis to be used in the preparation of the Trust's annual accounts. Should an assessment be made that an entity is not a going concern then the year end balance sheet should be prepared on a 'disposals' basis i.e. items valued at their likely sale value. In many cases this would propose significantly lower values than the usual valuations based on ongoing trading (e.g. stocks) and require the inclusion of other 'winding up costs' (e.g. redundancies).

On 2 April 2020, the Department of Health and Social Care (DHSC) and NHS England and NHS Improvement announced reforms to the NHS cash regime for the 2020/21 financial year. During 2020/21 existing DHSC interim revenue and capital loans as at 31 March 2020 will be extinguished and replaced with the issue of Public Dividend Capital (PDC) to allow the repayment. The affected loans totalling £58,013k (Note 20) are classified as current liabilities within these financial statements. As the repayment of these loans will be funded through the issue of PDC, this does not present a going concern risk for the Trust. The potential I&E impact is a reduction in interest payments of £551k and increase in PDC payments of £1,982k.

The final operational plan was never completed due to the national pause. We were working towards accepting the control total and that would have included FRF of £16.266m and MRET £0.970m, leaving a residual unsupported deficit of £8.902m, which may need additional support, which at this stage is not certain. The unsupported deficit being a combination of cost pressures of £3.289m and additional capacity based on a requirement to increase occupancy to 92% £5.613m.

Under the new funding regime FRF is being replaced with a retrospective top up, as the new funding regime becomes clearer the Trust will be revising its 2020/21 Operational Plan. The Trust is planning to breakeven in 2020/21 but this will be dependent upon resolving the unfunded deficit highlighted above.

In accordance with IAS 1, management has made an assessment of the Trust's ability to continue as a going concern considering the significant challenges described above. Although these factors represent a material uncertainty that may cast significant doubt about the Trust's ability to continue as a going concern, the Directors, having made appropriate enquiries, still have a reasonable expectation that the Trust will have adequate resources to continue in operational existence for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the accounts and the financial statements do not include the adjustments that would result if the Trust was unable to continue as a going concern.

Note 1.3 Key sources of judgement and estimation uncertainty

In the application of the Trust's accounting policies, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from those estimates and the estimates and underlying assumptions are continually reviewed. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the judgements that management have made in the process of applying the Trust's accounting policies, together with the key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year.

Provisions

The Trust recognises a provision where it has a present legal or constructive obligation of uncertain timing or amount; for which it is probable that there will be a future outflow of cash or other resources; and a reliable estimate can be made of the amount. The amount recognised in the SoFP is the best estimate of the resources required to settle the obligation. Where the effect of the time value of money is significant, the estimated risk-adjusted cash flows are discounted using the discount rates published and mandated by HM Treasury.

The pension provision relating to former employees, including directors, has been calculated using the life expectancy estimates from the Government's actuarial tables.

The legal claims provision relates to employer and public liability claims and expected costs are advised by NHS Resolution. The Trust accepts financial liability for the value of each claim up to the excess defined within the policy.

Allowances for credit losses (previously provision for impairment of receivables)

An allowance for credit losses has been made for amounts which are uncertain to be received from NHS and non-NHS organisations as at 31 March 2020. The allowance includes 21.79% (21.89% for 2018/19) of accrued Injury Cost Recovery (ICR) income to reflect the average value of claims withdrawn as advised by the Department of Health's Compensation Recovery Unit (CRU).

Asset valuations and lives

The value and remaining useful lives of land and building assets are estimated by Cushman & Wakefield who provide professional valuation services. The valuations are carried out in accordance with the Royal Institute of Chartered Surveyors (RICS) Appraisal and Valuation Manual insofar as these terms are consistent with the agreed requirements of the DHSC and HM Treasury. Valuations are carried out primarily on the basis of Depreciated Replacement Cost based on the Modern Equivalent for specialised operational property (property rarely sold on the open market) and Current Value in Existing Use for non-specialised operational property.

A full asset valuation is undertaken every five years with an annual 'desk top' valuation being undertaken in the intervening years. Any increase in valuation which reverses a previous impairment has been credited to other operating income, to the extent of what has been charged there already relating to the asset. Any remaining balance has been credited to the revaluation reserve.

The valuation exercise was carried out in January 2020 with a valuation date of 31 March 2020. In applying the Royal Institute of Chartered Surveyors (RICS) Valuation Global Standards 2020 ('Red Book'), the valuer has declared a 'material valuation uncertainty' in the valuation report. This is on the basis of uncertainties in markets caused by COVID-19. The values in the report have been used to inform the measurement of property assets at valuation in these financial statements. With the valuer having declared this material valuation uncertainty, the valuer has continued to exercise professional judgement in providing the valuation and this remains the best information available to the Trust.

The lives of equipment assets are estimated on historical experience of similar equipment lives with reference to national guidance and consideration of the pace of technological change. Operational equipment is carried at its cost less any accumulated depreciation and any impairment losses. Where assets are of low value and / or have short useful economic lives, these are carried at depreciated historical cost as a proxy for current value.

Software licences are amortised over their expected useful economic lives in a manner consistent with the consumption of economic or service delivery benefits.

Employee benefits

The cost of annual leave entitlement not taken is accrued at the year end. Accruals are calculated using actual entitlement outstanding for Trust employees based on actual point of their salary band (Note 5.1).

Note 1.4 Income

Where income is derived from contracts with customers, it is accounted for under IFRS 15. The GAM expands the definition of a contract to include legislation and regulations which enables an entity to receive cash or another financial asset that is not classified as a tax by the Office of National Statistics (ONS).

Revenue in respect of goods/services provided is recognised when (or as) performance obligations are satisfied by transferring promised goods/services to the customer and is measured at the amount of the transaction price allocated to those performance obligations. At the year end, the Trust accrues income relating to performance obligations satisfied in that year. Where the Trust's entitlement to consideration for those goods or services is unconditional a contract receivable will be recognised. Where entitlement to consideration is conditional on a further factor other than the passage of time, a contract asset will be recognised. Where consideration received or receivable relates to a performance obligation that is to be satisfied in a future period, the income is deferred and recognised as a contract liability.

The Trust acts as a host for the Health and Care Partnership for Cheshire and Merseyside and uses the pooled fund to commission services on behalf of the strategic partnership. In doing so the Trust acts as a principal and treats amounts collected from other parties as revenue. It accounts for these amounts and payments to the ultimate provider of services on a gross basis. Amounts distributed to partner organisations on behalf of NHSE or others are accounted for on a net basis. This hosting arrangement ceased on 31 March 2020 and hosting arrangements transferred to Liverpool University Hospitals NHS Foundation Trust on 1 April 2020.

Revenue from NHS contracts

The main source of income for the Trust is contracts with commissioners for health care services. A performance obligation relating to delivery of a spell of health care is generally satisfied over time as healthcare is received and consumed simultaneously by the customer as the Trust performs it. The customer in such a contract is the commissioner, but the customer benefits as services are provided to their patient. Even where a contract could be broken down into separate performance obligations, healthcare generally aligns with paragraph 22(b) of the Standard entailing a delivery of a series of goods or services that are substantially the same and have a similar pattern of transfer. At the year end, the Trust accrues income relating to activity delivered in that year, where a patient care spell is incomplete.

Revenue is recognised to the extent that collection of consideration is probable. Where contract challenges or penalties raised by commissioners are expected to be upheld, the Trust reflects this in the transaction price and derecognises the relevant portion of income.

The Trust receives income from commissioners under Commissioning for Quality and Innovation (CQUIN) schemes. The Trust agrees to the national schemes with its commissioners but they affect how care is provided to patients. That is, the CQUIN payments are not considered distinct performance obligations in their own right; instead they form part of the transaction price for performance obligations under the contract.

NHS injury cost recovery scheme

The Trust receives income under the NHS injury cost recovery scheme, designed to reclaim the cost of treating injured individuals to whom personal injury compensation has subsequently been paid, for instance by an insurer. The Trust recognises the income when it receives notification from the Department of Work and Pension's Compensation Recovery Unit, has completed the NHS2 form and confirmed there are no discrepancies with the treatment. The income is measured at the agreed tariff for the treatments provided to the injured individual, less an allowance for unsuccessful compensation claims and doubtful debts in line with IFRS 9 requirements of measuring expected credit losses over the lifetime of the asset.

Note 1.4.1 Revenue grants and other contributions to expenditure

Government grants are grants from government bodies other than income from commissioners or Trusts for the provision of services. Where a grant is used to fund revenue expenditure it is taken to the Statement of Comprehensive Income (SoCI) to match that expenditure.

The value of the benefit received when accessing funds from the Government's Apprenticeship service is recognised as income at the point of receipt of the training service. Where these funds are paid directly to an accredited training provider, the corresponding notional expense is also recognised at the point of recognition for the benefit.

Note 1.4 Income (continued)

Where income is received for a specific activity that is to be delivered in a future financial year that income is deferred.

Income from the sale of non-current assets is recognised only when all material conditions of sale have been met and is measured as the sums due under the sale contract.

The main sources of other operating income are from the DHSC, Health Education England, NHS Trusts, NHS Foundation Trusts and Local Authorities.

Note 1.5 Expenditure on employee benefits

Short-term employee benefits

Salaries, wages and employment related payments such as social security costs and the apprenticeship levy are recognised in the period in which the service is received from employees. The cost of annual leave entitlement earned but not taken by employees at the end of the period is recognised in the financial statements to the extent that employees are permitted to carry-forward leave into the following period.

Pension costs

Past and present employees are covered by the provisions of the two NHS Pension Schemes. Details of the benefits payable and rules of the Schemes can be found on the NHS Pensions website at www.nhsbsa.nhs.uk/pensions. Both are unfunded defined benefit schemes that cover NHS employers, GP practices and other bodies, allowed under the direction of the Secretary of State for Health and Social Care in England and Wales. They are not designed to be run in a way that would enable NHS bodies to identify their share of the underlying scheme assets and liabilities. Therefore, each scheme is accounted for as if it were a defined contribution scheme: the cost to the NHS body of participating in each scheme is taken as equal to the contributions payable to that scheme for the accounting period.

In order that the defined benefit obligations recognised in the financial statements do not differ materially from those that would be determined at the reporting date by a formal actuarial valuation, the FReM requires that “the period between formal valuations shall be four years, with approximate assessments in intervening years”. An outline of these follows:

a) Accounting valuation

A valuation of scheme liability is carried out annually by the scheme actuary (currently the Government Actuary's Department) as at the end of the reporting period. This utilises an actuarial assessment for the previous accounting period in conjunction with updated membership and financial data for the current reporting period, and is accepted as providing suitably robust figures for financial reporting purposes. The valuation of the scheme liability as at 31 March 2020, is based on valuation data as at 31 March 2019, updated to 31 March 2020 with summary global member and accounting data. In undertaking this actuarial assessment, the methodology prescribed in IAS 19, relevant FReM interpretations, and the discount rate prescribed by HM Treasury have also been used.

The latest assessment of the liabilities of the scheme is contained in the report of the scheme actuary, which forms part of the annual NHS Pension Scheme Accounts. These accounts can be viewed on the NHS Pensions website and are published annually. Copies can also be obtained from The Stationery Office.

Note 1.5 Expenditure on employee benefits (continued)

b) Full actuarial (funding) valuation

The purpose of this valuation is to assess the level of liability in respect of the benefits due under the schemes (taking into account recent demographic experience), and to recommend contribution rates payable by employees and employers.

The latest actuarial valuation undertaken for the NHS Pension Scheme was completed as at 31 March 2016. The results of this valuation set the employer contribution rate payable from April 2019 to 20.6%, and the Scheme Regulations were amended accordingly.

The 2016 funding valuation was also expected to test the cost of the Scheme relative to the employer cost cap set following the 2012 valuation. Following a judgment from the Court of Appeal in December 2018 Government announced a pause to that part of the valuation process pending conclusion of the continuing legal process.

Note 1.6 Expenditure on goods and services

Expenditure on goods and services is recognised when, and to the extent that they have been received, and is measured at the fair value of those goods and services. Expenditure is recognised in operating expenses except where it results in the creation of a non-current asset such as an intangible asset or an item of property, plant and equipment.

Note 1.7 Intangible assets

Note 1.7.1 Recognition

Intangible assets are non-monetary assets without physical substance which are capable of sale separately from the rest of the Trust's business or which arise from contractual or other legal rights. They are recognised only when it is probable that future economic benefits will flow to, or service potential be provided to, the Trust; where the cost of the asset can be measured reliably; and where the cost is at least £5,000.

Intangible assets acquired separately are initially recognised at fair value. Software that is integral to the operating of hardware, for example an operating system, is capitalised as part of the relevant item of property, plant and equipment. Software that is not integral to the operation of hardware, for example application software, is capitalised as an intangible asset, if it meets the above conditions.

Note 1.7.2 Measurement

Intangible assets are initially recognised at cost, comprising all directly attributable costs needed to create, produce and prepare the asset to the point that it is capable of operating in the manner intended by management.

Subsequently intangible assets are measured at current value in existing use. Where no active market exists, intangible assets are valued at the lower of depreciated replacement cost and the value in use where the asset is income generating. Revaluations gains and losses and impairments are treated in the same manner as for property, plant and equipment. An intangible asset which is surplus with no plan to bring it back into use is valued at fair value where there are no restrictions on sale at the reporting date and where they do not meet the definitions of investment properties or assets held for sale.

Intangible assets held for sale are measured at the lower of their carrying amount or 'fair value less costs to sell'.

Note 1.7 Intangible assets (continued)

Amortisation

Intangible assets are amortised over their expected useful lives in a manner consistent with the consumption of economic or service delivery benefits.

Note 1.8 Property, plant and equipment

Note 1.8.1 Recognition

Property, plant and equipment is capitalised where:

- it is held for use in delivering services or for administrative purposes;
- it is probable that future economic benefits will flow to, or service potential will be provided to, the Trust;
- it is expected to be used for more than one financial year;
- the cost of the item can be measured reliably; and
- the item has a cost of at least £5,000; or
- collectively, a number of items which have a cost of at least £5,000 and individually have a cost of more than £250, where the assets are functionally interdependent, had broadly simultaneous purchase dates, are anticipated to have simultaneous disposal dates and are under single managerial control; or
- items form part of the initial equipping and setting-up cost of a new building, ward or unit, irrespective of their individual or collective cost.

The whole of a site is designated as the property asset with the land, the separate buildings upon it and the external works being the main components with significantly different asset lives, the components are treated as separate assets and depreciated over their own useful economic lives.

Note 1.8.2 Measurement

Valuation

All property, plant and equipment is initially measured at cost, representing the cost directly attributable to acquiring or constructing the asset and bringing it to the location and condition necessary for it to be capable of operating in the manner intended by management.

Land and buildings used for the Trust's services or for administrative purposes are stated in the SoFP at their revalued amounts, being the fair value at the date of revaluation less any subsequent accumulated depreciation and impairment losses. HM Treasury has adopted a standard approach to depreciated replacement cost valuations based on modern equivalent assets and where it would meet the location requirements of the service being provided an alternative site valuation can be used. The Trust has used alternative site valuation from 2017/18 onwards. The Trust commissioned Cushman & Wakefield to undertake a full valuation as at 31 March 2020. Revaluations are performed with sufficient regularity to ensure that carrying amounts are not materially different from those that would be determined at the SoFP date. Fair values are determined as follows:

- Land and non specialised buildings - market value for existing use.
- Specialised buildings - depreciated replacement cost.
- Equipment - depreciated historical cost.

Properties in the course of construction for service or administration purposes are carried at cost, less any impairment loss. Cost includes professional fees but not borrowing costs, which are recognised as expenses immediately, as allowed by IAS 23 for assets held at fair value. Assets are revalued and depreciation commences when they are brought into use.

IT equipment, transport equipment, furniture and fittings, and plant and machinery that are held for operational use are valued at depreciated historic cost where these assets have short useful lives or low values or both, as this is not considered to be materially different from current value in existing use.

An item of property, plant and equipment which is surplus with no plan to bring it back into use is valued at fair value under IFRS 13, if it does not meet the requirements of IAS 40 or IFRS 5.

Note 1.8 Property, plant and equipment (continued)

Subsequent expenditure

Subsequent expenditure relating to an item of property, plant and equipment is recognised as an increase in the carrying amount of the asset when it is probable that additional future economic benefits or service potential deriving from the cost incurred to replace a component of such item will flow to the enterprise and the cost of the item can be determined reliably. Where a component of an asset is replaced, the cost of the replacement is capitalised if it meets the criteria for recognition above. The carrying amount of the part replaced is de-recognised. Other expenditure that does not generate additional future economic benefits or service potential, such as repairs and maintenance, is charged to the Statement of Comprehensive Income (SoCI) in the period in which it is incurred.

Depreciation

Items of property, plant and equipment are depreciated over their remaining useful lives in a manner consistent with the consumption of economic or service delivery benefits. Freehold land is considered to have an infinite life and is not depreciated.

Property, plant and equipment which has been reclassified as 'held for sale' ceases to be depreciated upon the reclassification. Assets in the course of construction and residual interests in off-SoFP PFI contract assets are not depreciated until the asset is brought into use or reverts to the Trust, respectively.

Revaluation gains and losses

Revaluation gains are recognised in the revaluation reserve, except where, and to the extent that, they reverse a revaluation decrease that has previously been recognised in operating expenses, in which case they are recognised in operating expenses.

Revaluation losses are charged to the revaluation reserve to the extent that there is an available balance for the asset concerned, and thereafter are charged to operating expenses.

Gains and losses recognised in the revaluation reserve are reported in the SoCI as an item of 'other comprehensive income / expenses'.

Impairments

At the end of the financial year the Trust reviews whether there is any indication that any of its assets have suffered an impairment loss. If there is an indication of an impairment loss, the recoverable amount of the asset is estimated to determine whether there has been a loss and, if so, its amount.

In accordance with the GAM, impairments that are due to a loss of economic benefits or service potential in the asset are charged to operating expenses. A compensating transfer is made from the revaluation reserve to the income and expenditure reserve of an amount equal to the lower of (i) the impairment charged to operating expenses, and (ii) the balance in the revaluation reserve attributable to that asset before the impairment.

An impairment arising from a clear consumption of economic benefit or of service potential is reversed when, and to the extent that, the circumstances that gave rise to the loss are reversed. Reversals are recognised in operating expenditure to the extent that the asset is restored to the carrying amount it would have had if the impairment had never been recognised. Any remaining reversal is recognised in the revaluation reserve, where at the time of the original impairment, a transfer was made from the revaluation reserve to the income and expenditure reserve, an amount is transferred back to the revaluation reserve when the impairment reversal is recognised.

Other impairments, such as unforeseen obsolescence, are treated as revaluation losses. Reversals of 'other impairments' are treated as revaluation gains and classed as 'other operating income'.

Note 1.8 Property, plant and equipment (continued)

Note 1.8.3 De-recognition

Assets intended for disposal are reclassified as 'held for sale' once all of the following criteria are met:

The asset is available for immediate sale in its present condition subject only to terms which are usual and customary for such sales and the sale must be highly probable i.e. management are committed to a plan to sell the asset, an active programme has begun to find a buyer and complete the sale, the asset is being actively marketed at a reasonable price, the sale is expected to be completed within 12 months of the date of classification as 'held for sale' and the actions needed to complete the plan indicate it is unlikely that the plan will be abandoned or significant changes made to it.

Following reclassification, the assets are measured at the lower of their existing carrying amount and their 'fair value less costs to sell'. Depreciation ceases to be charged. Assets are de-recognised when all material sale contract conditions have been met.

Property, plant and equipment which is to be scrapped or demolished does not qualify for recognition as 'held for sale' and instead is retained as an operational asset and the asset's life is adjusted. The asset is de-recognised when scrapping or demolition occurs.

Note 1.8.4 Donated, government grant and other grant funded assets

Donated, government grant and other grant funded property, plant and equipment assets are capitalised at their fair value on receipt. The donation / grant is credited in full to income at the same time, unless the donor has imposed a condition that the future economic benefits embodied in the grant are to be consumed in a manner specified by the donor, in which case, the donation / grant is deferred within liabilities and is carried forward to future financial years to the extent that the condition has not yet been met.

The donated and grant funded assets are subsequently accounted for in the same manner as other items of property, plant and equipment.

Note 1.9 Leases

Leases are classified as finance leases when substantially all the risks and rewards of ownership are transferred to the lessee. All other leases are classified as operating leases.

Note 1.9.1 The Trust as lessee

Finance leases

Where substantially all risks and rewards of ownership of a leased asset are borne by the Trust, the asset is recorded as property, plant and equipment and a corresponding liability is recorded. The value at which both are recognised is the lower of the fair value of the asset or the present value of the minimum lease payments, discounted using the interest rate implicit in the lease.

The asset and liability are recognised at the commencement of the lease. Thereafter the asset is accounted for as an item of property, plant and equipment.

The annual rental charge is split between the repayment of the liability and a finance cost so as to achieve a constant rate of finance over the life of the lease. The annual finance cost is charged to finance costs in the SoCI. The lease liability is de-recognised when the liability is discharged, cancelled or expires.

Operating leases

Other leases are regarded as operating leases and the rentals are charged to operating expenses on a straight line basis over the term of the lease. Operating lease incentives received are added to the lease rentals and charged to operating expenses over the life of the lease.

Contingent rents are recognised in operating expenses in the period in which they are incurred.

Leases of land and buildings

Where a lease is for land and buildings, the land component is separated from the building component and the classification for each is assessed separately.

Note 1.9 Leases (continued)

Note 1.9.2 The Trust as lessor

Finance leases

Amounts due from lessees under finance leases are recorded as receivables at the amount of the Trust's net investment in the leases. Finance lease income is allocated to accounting periods to reflect a constant periodic rate of return on the Trust's net investment outstanding in respect of the leases.

Operating leases

Rental income from operating leases is recognised on a straight-line basis over the term of the lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as an expense on a straight-line basis over the lease term.

Note 1.10 Inventories

Inventories are valued at the lower of cost and net realisable value using the first-in first-out cost formula, which is considered to be a reasonable approximation to fair value due to the high turnover of stocks.

Note 1.11 Cash and cash equivalents

Cash is defined as cash in hand and deposits with any financial institution repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in 3 months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value. Interest earned on bank accounts is recorded as interest receivable in the periods to which it relates. Balances exclude monies held in bank accounts belonging to patients (Note 17).

Note 1.12 Provisions

The Trust recognises a provision where it has a present legal or constructive obligation of uncertain timing or amount, for which it is probable that there will be a future outflow of cash or other resources, and a reliable estimate can be made of the amount. The amount recognised in the SoFP is the best estimate of the expenditure required to settle the obligation. Where the effect of the time value of money is significant, the estimated risk adjusted cash flows are discounted using HM Treasury's discount rates. Early retirement provisions and injury benefit provisions have both been discounted using the HM Treasury's pension discount rate of -0.50% (0.29% in 2018/19) in real terms.

Clinical negligence costs

NHS Resolution operates a risk pooling scheme under which the Trust pays an annual contribution (Note 4) to NHS Resolution which in return settles all clinical negligence claims. The contribution is charged to operating expenses. Although NHS Resolution is administratively responsible for all clinical negligence cases the legal liability remains with the Trust. The total value of clinical negligence provisions carried by NHS Resolution on behalf of the Trust is not recognised in the Trust's accounts (Note 22).

Non-clinical risk pooling

The Trust participates in the Property Expenses Scheme and the Liabilities to Third Parties Scheme. Both are risk pooling schemes under which the Trust pays an annual contribution to the NHS Resolution and, in return, receives assistance with the costs of claims arising. The annual membership contributions and any excesses payable in respect of successful claims are charged to operating expenses as and when the liability arises.

Note 1.13 Contingencies

Contingent assets (that is, assets arising from past events whose existence will only be confirmed by one or more future events not wholly within the entity's control) are not recognised as assets, but are disclosed in note 23 where an inflow of economic benefits is probable. The Trust does not have any contingent assets.

Contingent liabilities are not recognised, but are disclosed in note 23, unless the probability of a transfer of economic benefits is remote.

Contingent liabilities are defined as:

- possible obligations arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the entity's control; or
- present obligations arising from past events but for which it is not probable that a transfer of economic benefits will arise or for which the amount of the obligation cannot be measured with sufficient reliability.

Note 1.14 Value added tax (VAT)

Most of the activities of the Trust are outside the scope of VAT and in general, output tax does not apply and input tax on purchases is not recoverable. Irrecoverable VAT is charged to the relevant expenditure category or included in the capitalised purchase cost of fixed assets. Where output tax is charged or input VAT is recoverable, the amounts are stated net of VAT.

Note 1.15 Corporation tax

Warrington and Halton Teaching Hospitals NHS Foundation Trust is a Health Service Body within the meaning of s519A ICTA 1988 and accordingly is temporarily exempt from taxation in respect of income and capital gains within categories covered by this. There is a power for the Treasury to dis-apply the exemption in relation to the specified activities of a Foundation Trust (s519A (3) to (8) ICTA). Accordingly, the Trust will become within the scope of Corporation Tax in respect of activities which are not related to, or ancillary to, the provision of healthcare and where the profits exceed £50,000 per annum. However, there is no tax liability in respect of the current financial year (£nil in 2018/19).

Note 1.16 Third party assets

Assets belonging to third parties (such as money held on behalf of patients) are not recognised in the accounts since the Trust has no beneficial interest in them. However, they are disclosed in a separate note to the accounts in accordance with requirements of HM Treasury's FReM (Note 17).

Note 1.17 Public dividend capital (PDC) and PDC dividend

PDC is a type of public sector equity finance based on the excess of assets over liabilities at the time of establishment of the predecessor NHS Trust. HM Treasury has determined that PDC is not a financial instrument within the meaning of IAS 32.

The Secretary of State can issue new PDC to, and require repayments of PDC from, the Trust. PDC is recorded at the value received.

An annual charge, reflecting the cost of capital utilised by the Trust, is payable to the DHSC as PDC dividend. The charge is calculated at the rate set by HM Treasury (currently 3.50%) on the average relevant net assets of the Trust during the financial year. Relevant net assets are calculated as the value of all assets less the value of all liabilities, except for (i) donated assets (ii) average daily cleared cash balances held with Government Banking Services (GBS) and National Loans Fund (NLF) deposits, excluding cash balances held in GBS accounts that relate to a short-term working capital facility and (iii) any PDC dividend balance receivable or payable. Provider Sustainability Fund (PSF) year end incentives are also excluded from the calculation.

In accordance with the requirements laid down by the DHSC (as the issuer of PDC), the dividend for the year is calculated on the actual average relevant net assets as set out in the unaudited version of the annual accounts. The dividend calculated is not revised should any adjustment to net assets occur as a result of the audit of the annual accounts.

Note 1.18 Losses and special payments

Losses and special payments are items that Parliament would not have contemplated when it agreed funds for the health service or passed legislation. By their nature they are items that ideally should not arise. They are therefore subject to special control procedures compared with the generality of payments. They are divided into different categories, which govern the way that individual cases are handled.

Losses and special payments are charged to the relevant functional headings in operating expenses on an accruals basis, including losses which would have been made good through insurance cover had the Trust not been bearing its own risks (with insurance premiums then being included as normal revenue expenditure).

However, the note on losses and special payments is compiled directly from the losses and compensations register which reports amounts on an accruals basis with the exception of provisions for future losses.

Note 1.19 Consolidation

The Trust is the corporate Trustee to Warrington & Halton Teaching Hospitals NHS FT Charitable Fund. The Trust has assessed its relationship to the charitable fund and determined it to be subsidiary because the Trust is exposed to, or has rights to, variable returns and other benefits for itself, patients and staff from its involvement with the charitable fund and has the ability to effect those returns and other benefits through its power over the fund.

The Charitable Fund's statutory accounts are prepared to 31 March in accordance with the UK Charities Statement of Recommended Practice (SORP) which is based on UK Financial Reporting Standard (FRS) 102.

The Trust has opted not to consolidate charitable funds with the main Trust Accounts in 2019/20 because they are immaterial. This will be reviewed each year for appropriateness.

Note 1.20 Financial assets and financial liabilities

Note 1.20.1 Recognition

Financial assets and financial liabilities arise where the Trust is party to the contractual provisions of a financial instrument, and as a result has a legal right to receive or a legal obligation to pay cash or another financial instrument. The GAM expands the definition of a contract to include legislation and regulations which give rise to arrangements that in all other respects would be a financial instrument and do not give rise to transactions classified as a tax by ONS.

This includes the purchase or sale of non-financial items (such as goods or services), which are entered into in accordance with the Trust's normal purchase, sale or usage requirements and are recognised when, and to the extent which, performance occurs, i.e. on receipt or delivery of the goods or services.

Note 1.20.2 Classification and measurement

Financial assets and financial liabilities are initially measured at fair value plus or minus directly attributable transaction costs except where the asset or liability is not measured at fair value through income and expenditure. Fair value is taken as the transaction price, or otherwise determined by reference to quoted market prices or valuation techniques.

Financial assets or financial liabilities in respect of assets acquired or disposed of through finance leases are recognised and measured in accordance with the accounting policy for leases described below.

Financial assets and liabilities are classified and subsequently measured at amortised cost.

Financial assets and financial liabilities at amortised cost

Financial assets and financial liabilities at amortised cost are those held with the objective of collecting contractual cash flows and where cash flows are solely payments of principal and interest. This includes cash equivalents, contract and other receivables, trade and other payables, rights and obligations under lease arrangements and loans receivable and payable.

After initial recognition, these financial assets and financial liabilities are measured at amortised cost using the effective interest method less any impairment (for financial assets). The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of a financial asset or to the amortised cost of a financial liability.

Interest revenue or expense is calculated by applying the effective interest rate to the gross carrying amount of a financial asset or amortised cost of a financial liability and recognised in the SoCI and a financing income or expense. In the case of loans held from the DHSC, the effective interest rate is the nominal rate of interest charged on the loan.

Note 1.20 Financial assets and financial liabilities (continued)

Impairment of financial assets

For all financial assets measured at amortised cost including lease receivables, contract receivables and contract assets or assets measured at fair value through other comprehensive income, the Trust recognises an allowance for expected credit losses.

The Trust adopts the simplified approach to impairment for contract and other receivables, contract assets and lease receivables, measuring expected losses as at an amount equal to lifetime expected losses. For other financial assets, the loss allowance is initially measured at an amount equal to 12 month expected credit losses (stage 1) and subsequently at an amount equal to lifetime expected credit losses if the credit risk assessed for the financial asset significantly increases (stage 2).

In determining the classification of financial assets the Trust has considered both the business model and associated cash flows for the collection of contractual income that are solely payments of principal and interest. Financial assets are measured at amortised cost. Contract receivables will initially be measured at their transaction price, as defined by IFRS 15 adjusted for any allowance for expected credit losses using a general approach.

For financial assets that have become credit impaired since initial recognition (stage 3), expected credit losses at the reporting date are measured as the difference between the asset's gross carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate.

Expected losses are charged to operating expenditure within the SoCI and reduce the net carrying value of the financial asset in the SoFP.

Note 1.20.3 De-recognition

All financial assets are de-recognised when the rights to receive cash flows from the assets have expired or the Trust has transferred substantially all of the risks and rewards of ownership.

Financial liabilities are de-recognised when the obligation is discharged, cancelled or expired.

Note 1.21 Reserves

Note 1.21.1 Public dividend capital

Public dividend capital (PDC) is a type of public sector equity finance based on the excess of assets over liabilities at the time of establishment of the predecessor NHS Trust. Additional PDC may also be issued to NHS Foundation Trusts by the DHSC. A charge, reflecting the cost of capital utilised by the NHS Foundation Trust, is payable to the DHSC as the PDC dividend.

Note 1.21 Reserves (continued)

Note 1.21.2 Revaluation reserve

Increases in asset values arising from revaluations are recognised in the revaluation reserve, except where, and to the extent that, they reverse impairments previously recognised in operating expenses, in which case they are also recognised in operating expenses. Subsequent downward movements in asset valuations are charged to the revaluation reserve to the extent that a previous gain was recognised unless the downward movement represents a clear consumption of economic benefit or a reduction in service potential.

Note 1.21.3 Income and expenditure reserve

The balance of this reserve is the accumulated surpluses and deficits of the Trust.

Note 1.22 Segmental reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Trust's chief operating decision maker, responsible for providing strategic direction and decisions, allocating resources and assessing performance of the operating segments, is the Board of Directors.

Note 1.23 Early adoption of standards, amendments and interpretations

No new accounting standards or revisions to existing standards have been early adopted in 2019/20.

Note 1.24 Accounting standards and interpretations issued but not yet adopted

IFRS 16 (Leases)

IFRS 16 Leases will replace IAS 17 Leases, IFRIC 4 Determining whether an arrangement contains a lease and other interpretations and is applicable in the public sector for periods beginning 1 April 2021. The standard provides a single accounting model for lessees, recognising a right of use asset and obligation in the statement of financial position for most leases: some leases are exempt through application of practical expedients explained below. For those recognised in the statement of financial position the standard also requires the remeasurement of lease liabilities in specific circumstances after the commencement of the lease term. For lessors, the distinction between operating and finance leases will remain and the accounting will be largely unchanged.

IFRS 16 changes the definition of a lease compared to IAS 17 and IFRIC 4. The trust will apply this definition to new leases only and will grandfather its assessments made under the old standards of whether existing contracts contain a lease.

On transition to IFRS 16 on 1 April 2021, the Trust will apply the standard retrospectively with the cumulative effect of initially applying the standard recognised in the income and expenditure reserve at that date. For existing operating leases with a remaining lease term of more than 12 months and an underlying asset value of at least £5,000, a lease liability will be recognised equal to the value of remaining lease payments discounted on transition at the trust's incremental borrowing rate. The Trust's incremental borrowing rate will be a rate defined by HM Treasury. Currently this rate is 1.27% but this may change between now and adoption of the standard. The related right of use asset will be measured equal to the lease liability adjusted for any prepaid or accrued lease payments. No adjustments will be made on 1 April 2021 for existing finance leases.

For leases commencing in 2021/22, the Trust will not recognise a right of use asset or lease liability for short term leases (less than or equal to 12 months) or for leases of low value assets (less than £5,000). Right of use assets will be subsequently measured on a basis consistent with owned assets and depreciated over the length of the lease term.

HM Treasury revised the implementation date for IFRS 16 in the UK public sector to 1 April 2021 on 19 March 2020. Due to the need to reassess lease calculations, together with uncertainty on expected leasing activity in from April 2021 and beyond, a quantification of the expected impact of applying the standard in 2021/22 is currently impracticable. However, the Trust does expect this standard to have a material impact on non-current assets, liabilities and depreciation.

Note 2. Operating segments

The Trust has considered segmental reporting and the Chief Executive and the Board receive sufficient and appropriate high level information to enable the business to be managed effectively and to monitor and manage the strategic aims of the Trust. Sufficiently detailed information is used by middle and lower management to ensure effective management at an operational level. Neither of these are sufficiently discrete to profile operating segments, as defined by IFRS 8, that would enable a user of these financial statements to evaluate the nature and financial effects of the business activities that this Trust undertakes. Therefore, the Trust has decided that it has one operating segment for healthcare.

Note 3 Operating income from patient care activities

Note 3.1 Income from patient care activities (by nature)	2019/20	2018/19
	£000	£000
Acute services		
Elective income	30,695	30,296
Non elective income	72,947	61,791
First outpatient income	13,634	13,404
Follow up outpatient income	23,226	20,351
A & E income	16,445	14,288
High cost drugs income from commissioners	10,441	10,693
Other NHS clinical income	55,762	54,116
All services		
Private patient and overseas patients income	223	187
AfC pay award central funding	0	3,001
Additional pension contribution central funding	7,042	0
Other non-protected clinical income	3,996	2,761
Total income from activities	234,411	210,888

Note 3.2 Income from patient care activities (by source)	2019/20	2018/19
	£000	£000
Income from patient care activities received from:		
NHS England	21,548	12,100
Clinical Commissioning Groups	208,467	190,999
NHS Foundation Trusts	692	1,130
NHS Trusts	8	11
Local Authorities	2,209	1,958
Department of Health and Social Care	30	3,001
NHS Other	271	164
Non NHS : private patients	146	124
Non NHS : overseas patients	76	63
Injury cost recovery scheme	964	1,007
Non NHS Other	0	331
Total income from activities	234,411	210,888

All income from activities relates, in its entirety, to continuing operations for 2019/20 and 2018/19.

Note 3.3 Overseas visitors (relating to patients charged directly by the Trust)

	2019/20	2018/19
	£000	£000
Income recognised this year	76	63
Cash payments received in-year	60	56
Amounts added to provision for impairment of receivables	3	2
Amounts written off in-year	24	5

Note 3. Operating income (continued)

Note 3.4 Other operating income	2019/20	2018/19
	£000	£000
Research and development	394	408
Education and training	8,798	8,951
Education and training - Notional income from apprenticeship fund	296	152
Donation of assets	0	123
Cash donations / grants for the purchase of assets	56	122
Non-patient care services to other bodies	3,359	2,664
Provider sustainability fund / Financial recovery fund / Marginal rate emergency tariff funding (PSF/FRF/MRET)	18,079	6,770
Income in respect of staff costs where accounted on gross basis	1,717	0
Rental revenue from operating leases	204	211
Other *	12,032	12,948
Total other operating income	44,935	32,349

*All other operating income relates, entirely to continuing operations for 2019/20 and 2018/19.

*** Analysis of other operating income 'other'**

Car parking	2,007	1,997
Catering	227	196
Pharmacy sales	59	49
Property rentals	87	205
Staff accommodation rentals	90	98
Estates recharges	569	432
Information Technology recharges	78	134
Clinical tests	1,412	1,185
Other**	7,503	8,652
Total other operating income 'other'	12,032	12,948

**Other contains £3.0m of insurance income which is as a result of a fire which occurred on 23 March 2018 (£3.2m 2018/19)

Note 3.5 Income from activities arising from commissioner requested services

Under the terms of its provider licence, the Trust is required to analyse the level of income from activities that has arisen from commissioner requested and non-commissioner requested services. Commissioner requested services are defined in the provider licence and are services that commissioners believe would need to be protected in the event of Trust failure. This information is provided in the table below.

	2019/20	2018/19
	£000	£000
Income from services designated as commissioner requested services	230,192	207,940
Income from services not designated as commissioner requested services	4,219	2,948
Total	234,411	210,888

Note 3.6 Fees and charges

HM Treasury requires disclosure of fees and charges in respect of charges to service users where income from that service exceeds £1m and is presented as the aggregate of such income. There haven't been any costs exceeding £1m in either 2019/20 or 2018/19 in respect of fees and charges.

Note 3.7 Additional information on revenue from contracts with customers recognised in the period

	2019/20	2018/19
	£000	£000
Revenue recognised in the reporting period that was included in contract liabilities at the previous period end	1,267	2,108
Revenue recognised from performance obligations satisfied (or partially satisfied) in previous periods	0	(200)

Note 4. Operating expenditure

Note 4.1 Operating expenses	2019/20	2018/19
	£000	£000
Purchase of healthcare from NHS and DHSC bodies	869	422
Purchase of healthcare from non-NHS and non-DHSC bodies	64	270
Staff and executive directors costs	199,470	179,492
Non-executive directors	116	116
Supplies and services (clinical; excluding drug costs)	20,290	19,801
Supplies and services (general)	3,187	2,693
Drug costs	15,841	15,879
Consultancy costs	1,815	1,708
Establishment	2,489	2,225
Premises (business rates)	1,125	1,086
Premises (other)	9,258	8,874
Transport (business travel only)	285	281
Transport (including patient travel)	754	572
Depreciation on property, plant and equipment	6,083	5,161
Amortisation on intangible assets	925	806
Net impairments	(657)	1,100
Movement in credit loss allowance: contract receivables/assets	105	669
Provisions arising / released in year	247	45
Change in provisions discount rate	61	16
Audit services (statutory audit)	65	56
Other auditor remuneration (external auditor only) - analysis in note 4.2	7	7
Internal audit costs	94	96
Clinical negligence, liability to third parties and property expenses scheme premiums	6,506	8,023
Legal fees	183	284
Insurance	174	94
Research and development - staff costs	379	388
Research and development - non-staff	15	20
Education and training - staff costs	2,402	2,382
Education and training - non-staff	929	768
Education and training - notional expenditure funded from apprenticeship fund	296	152
Operating lease expenditure	2,102	2,136
Redundancy	0	72
Losses and special payments	39	66
Other expenditure	234	627
Total operating expenses	275,752	256,387

All operating expenses relate, in their entirety, to continuing operations for 2019/20 and 2018/19.

Note 4.2 Other audit remuneration

The total paid to the Trust's external auditors for other remuneration amounted to £7k (2018/19 £7k).

Note 4.3 Limitation on auditor's liability

The external auditors' liability is limited to £2m. The scope of work for the external auditors is to provide a statutory audit of annual accounts and report and provide opinion on them to the Trust and the Trust's Council of Governors. This will be conducted in accordance with the Audit Code for NHS Foundation Trusts (the Audit Code) issued by Monitor in accordance with paragraph 24 of schedule 7 of the National Health Service Act 2006 schedule 10 of the National Health Service Act 2006 with due regard to the Comptroller and Auditor General's Code of Audit Practice (the Code) issued by the National Audit Office (NAO) in April 2015.

Note 5. Staff

Note 5.1 Employee expenses

	2019/20	2018/19
	Total	Total
	£000	£000
Salaries and wages	142,809	130,878
Social security costs	13,980	12,607
Apprenticeship levy	664	619
Pension costs (employer contributions to NHS Pensions)	16,194	14,900
Pension costs (employer contributions paid by NHSE on Provider's behalf (6.3%))	7,042	0
Pension costs (other)	60	76
Termination benefits	112	72
Bank and agency staff	21,964	23,341
Total employee benefit expenses	202,825	182,493
Less costs capitalised as part of assets	(574)	(159)
Total per employee expenses in Note 4.1	202,251	182,334

Employee costs include staff costs of £574k (£159k in 2018/19) which have been capitalised as part of the Trust's capital programme. These amounts are excluded from employee expenses (Note 5.1). The employee expenses table above is for executive directors, staff costs and redundancy payments only. It excludes non-executive directors.

An accrual in respect of the cost of annual leave entitlement carried forward at the SoFP date of £76k has been provided for within the accounts (£33k as at 31 March 2019).

Note 5.2 Early retirements due to ill-health

Three members of staff retired early on ill-health grounds during the year at an additional cost of £300k (three members of staff at a cost of £190k for the year ending 31 March 2019). The cost of ill-health retirements is borne by the NHS Business Services Authority - Pensions Division.

Note 6. Operating leases

	2019/20 £000	2018/19 £000
Lease receipts recognised as income in the year	204	211
Total	204	211
Future minimum lease receipts due:	2019/20 £000	2018/19 £000
Not later than one year	204	173
Later than one year and not later than five years	818	690
Later than five years	8,324	5,204
Total	9,346	6,067
Note 6.2 Operating lease payments and commitments		
Lease payments recognised as an expense in year:	2019/20 £000	2018/19 £000
Minimum lease payments	2,102	2,103
Contingent rents	0	33
Total	2,102	2,136
Future minimum lease payments due on:	2019/20 £000	2018/19 £000
Land leases:		
Not later than one year	63	96
Later than one year and not later than five years	3	111
Later than five years	0	0
Total	66	207

Impairments charged to the revaluation reserve	(4)	1,936	(1,940)
Total impairments due to change in market price	1,096	3,067	(1,971)

A full asset valuation is undertaken every five years with an annual 'desk top' valuation being undertaken in the intervening years. Any increase in valuation which reverses a previous impairment has been credited to other operating income, to the extent of what has been charged there already relating to the asset. Any remaining balance has been credited to the revaluation reserve.

The valuation exercise was carried out in January 2020 with a valuation date of 31 March 2020. In applying the Royal Institute of Chartered Surveyors (RICS) Valuation Global Standards 2020 ('Red Book'), the valuer has declared a 'material valuation uncertainty' in the valuation report. This is on the basis of uncertainties in markets caused by COVID-19. The values in the report have been used to inform the measurement of property assets at valuation in these financial statements. With the valuer having declared this material valuation uncertainty, the valuer has continued to exercise professional judgement in providing the valuation and this remains the best information available to the Trust.

Note 13. Lives of non-current assets

The lives of equipment assets are estimated on historical experience of similar equipment lives with reference to national guidance and consideration of the pace of technological change. Operational equipment is carried at its cost less any accumulated depreciation and any impairment losses. Where assets are of low value and/or have short useful lives, these are carried at depreciated historical cost as a proxy for current value.

The following table discloses the range of lives of various assets.

	Minimum Life Years	Maximum Life Years
Land	250	250
Buildings excluding dwellings	4	72
Dwellings	10	35
Plant and machinery	5	15
Transport and equipment	7	10
Information technology	5	15
Furniture and fittings	5	15

Obligations under finance leases	0	27
Total non current borrowing	0	34,621

On 2 April 2020, the Department of Health and Social Care (DHSC) and NHS England and NHS Improvement announced reforms to the NHS cash regime for the 2020/21 financial year. During 2020/21 existing DHSC interim revenue and capital loans as at 31 March 2020 will be extinguished and replaced with the issue of Public Dividend Capital (PDC) to allow the repayment. Given this relates to liabilities that existed at 31 March 2020, DHSC has updated its Group Accounting Manual to advise this is considered an adjusting event after the reporting period for providers. Outstanding interim revenue and capital loans totalling £58,013k (Note 20) as at 31 March 2020 in these financial statements have been classified as current as they will be repayable within 12 months.

Note 20.1 Reconciliation of liabilities arising from financing activities

	DHSC loans £000	Other loans £000	Finance leases £000	Total £000

Total	1,595	85	150	0	1,360

The pensions provision relates to early retirement costs in line with the NHS Business Service Authority - Pensions Division. Legal claims relates to third party legal claims advised by NHS Resolution. These claims are generally expected to be settled within one year but may exceptionally take two years to settle.

Clinical negligence and employer liabilities

£157m is included in the provisions of NHS Resolution as at 31 March 2020 in respect of clinical negligence and employer liabilities of the Trust (£110m as at 31 March 2019).

Note 23. Contingent liabilities

	31 March 2020	31 March 2019
	£000	£000
Value of contingent liabilities		
NHS Resolution legal claims	(84)	(49)
Gross value of contingent liabilities	(84)	(49)
Amounts recoverable against liabilities	0	0
Net value of contingent liabilities	(84)	(49)

Note 23. Contingent liabilities (continued)

The Trust suffered a fire on 23 March 2018 which affected a part of the hospital that housed clinical and administration services. The 2019/20 accounts reflect income and expenditure incurred during the year. The final settlement for the fire was £6.2m split £3.2m 2018/19 and £3.0m 2019/20.

Note 24. Financial instruments

Note 24.1 Financial risk management

Liquidity risk

The Trust's net operating costs are incurred under annual service level agreements / contracts with commissioners which are financed from resources voted annually by Parliament. The Trust receives such income for the activity delivered in that year in accordance with national and locally agreed tariffs. Monthly payments are received from Commissioners based on the annual contract values, this arrangement reduces liquidity risk.

The Trust actively mitigates liquidity risk by daily cash management procedures and by keeping all cash balances in an appropriately liquid form.

Interest rate risk

All of the Trust's financial assets and financial liabilities carry nil or fixed rates of interest and the Trust is not therefore exposed to significant interest rate risk.

Credit risk

The main source of income for the Trust is from Clinical Commissioning Groups in respect of healthcare services provided under contract and Service Level Agreements. The credit risk associated with such customers is negligible.

The Trust has minimal exposure to credit risk as all cash balances are held within the Government Banking Services (GBS) account which generates additional cash through an applied interest rate. The Trust does not hold cash in any other investment institution on a short or long term basis.

Before entering into new contracts with non NHS customers, checks are made regarding creditworthiness. The Trust also regularly reviews debtor balances and has a comprehensive system in place for pursuing past due debt. Non NHS customers represent a small proportion of income and the Trust is not exposed to significant credit risk in this regard. There are no amounts held as collateral against these balances.

The movement in the allowances for credit losses for contract receivables / assets during the year is disclosed in Note 15. Of those assets which require an allowance for credit losses none are impaired financial assets. (none in 2018/19)

There are no financial assets that would otherwise be past due date or impaired whose terms have been renegotiated. (none in 2018/19)

Currency risk

The Trust is principally a domestic organisation with the majority of transactions, assets and liabilities being in the UK and sterling based. The Trust has no overseas operations and therefore has low exposure to currency rate fluctuations.

All financial assets and liabilities are held in sterling and are shown at book value, which is not significantly different from fair value.

Note 24. Financial instruments (continued)

Note 24.2 Carrying values of financial assets

On 2 April 2020, the Department of Health and Social Care (DHSC) and NHS England and NHS Improvement announced reforms to the NHS cash regime for the 2020/21 financial year. During 2020/21 existing DHSC interim revenue and capital loans as at 31 March 2020 will be extinguished and replaced with the issue of Public Dividend Capital (PDC) to allow the repayment. Given this relates to liabilities that existed at 31 March 2020, DHSC has updated its Group Accounting Manual to advise this is considered an adjusting event after the reporting period for providers. Outstanding interim loans totalling £58,013k (Note 20) as at 31 March 2020 in these financial statements have been classified as current as they will be repayable within 12 months. The note above reflects this change of classification.

Note 25. Contractual Capital Commitments

The Trust has contractual capital commitments of £1.5m as at 31 March 2020 (£1.7m as at 31 March 2019). This includes, £0.8m for estates work and £0.7m for new equipment (of which £0.6m relates to COVID-19 items).

Note 26. Related party disclosures

Note 26.1 Related party transactions

	Revenue £000	Expenditure £000
Value of transactions with other related parties in 2019/20		
Value of transactions with other related parties:		
Charitable funds (where not consolidated)	32	0

Other bodies or persons outside the whole of government accounting boundary	0	0
Total value of balances with other related parties as at 31 March 2019	55	0

	Receivables £000	Payables £000
Value of balances with related parties written off in year (excluding salaries)		
	0	0
Value of balances with other related parties as at 31 March 2019	55	0
Value of balances with related parties written off in year (excluding salaries)	0	0

Note 26.3 Whole of Government Accounts bodies

All bodies within the scope of the Whole of Government Accounts (WGA) are considered to be related parties as they are part of the DHSC group of bodies such that the DHSC is the parent department, and they fall under the common control of HM Government and Parliament. The GAM interprets IAS 24 (Related Party Disclosures) such that no information needs to be given about transactions relating to DHSC group bodies.

In line with this, these related parties notes only collect details of transactions and balances with bodies or persons outside of the whole of government accounts boundary.

For related parties within the DHSC group of bodies, where transactions and balances need not be reported, that have a material relationship with the Trust (income and/or expenditure greater than £10m) are listed below.

NHS Warrington CCG
NHS Halton CCG

During the year under review the Trust recognised revenue on behalf of the Health and Care Partnership for Cheshire and Merseyside totalling £2,300k (£2,311k in 2018/19). This revenue was categorised as other income. The Trust recognised associated expenditure in the sum of £2,300k (£2,311k in 2018/19). At 31 March 2020 the balance of revenue deferred in relation to the strategic partnership and in accordance with IFRS15 was £1,188k (£136k in 2018/19). Mel Pick up was the Chief Executive for the Health and Care Partnership for Cheshire and Merseyside until 30 November 2019.

Note 27. Events after the reporting period

On 2 April 2020, the Department of Health and Social Care (DHSC) and NHS England and NHS Improvement announced reforms to the NHS cash regime for the 2020/21 financial year. During 2020/21 existing DHSC interim revenue and capital loans as at 31 March 2020 will be extinguished and replaced with the issue of Public Dividend Capital (PDC) to allow the repayment. Given this relates to liabilities that existed at 31 March 2020, DHSC has updated its Group Accounting Manual to advise this is considered an adjusting event after the reporting period for providers. Outstanding interim loans totalling £58,013k (Note 20) as at 31 March 2020 in these financial statements have been classified as current as they will be repayable within 12 months.

There were no individual cases exceeding £0.3m in either 2019/20 or 2018/19.

Independent Auditor's Statement to the Board of Directors of Warrington and Halton Teaching Hospitals NHS Foundation Trust Consolidation Schedules

We have examined the consolidation schedules designated TAC02 to TAC29 for tables outlined in red, excluding TAC05A, TAC23, and TAC28A of Warrington and Halton Teaching Hospitals NHS Foundation Trust, version 1.19.12.2B for the year ended 31 March 2020, which have been prepared by the Director of Finance and acknowledged by the Chief Executive.

For the purpose of this statement, reviewing the consistency of figures between the audited financial statements and the consolidation schedules extends only to those figures within the consolidation schedules which are also included in the audited financial statements.

Auditors are required to report on any differences over £300,000 between the audited financial statements and the consolidation schedules.

1. Unqualified audit opinion on the audited financial statements; no differences identified:

The figures reported in the consolidation schedules are consistent with the audited financial statements, on which we have issued an unqualified opinion.

Use of our statement

This statement is made solely to the Board of Directors of Warrington and Halton Teaching Hospitals NHS Foundation Trust in accordance with paragraph 24(5) of Schedule 7 of the National Health Service Act 2006 (the Act) and paragraph 4.2 of the Code of Audit Practice and for no other purpose. Our work has been undertaken so that we might state to the Board of Directors those matters we are required to state to them in a consistency statement and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trust and the Board of Directors as a body, for our audit work, for this statement, or for the opinions we have formed.

Grant Thornton UK LLP

Birmingham

24 June 2020

Independent auditor's report to the Council of Governors of Warrington and Halton Teaching Hospitals NHS Foundation Trust

Report on the Audit of the Financial Statements

Opinion

Our opinion on the financial statements is unmodified

We have audited the financial statements of Warrington and Halton Teaching Hospitals NHS Foundation Trust (the 'Trust') for the year ended 31 March 2020 which comprise the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Changes in Taxpayers' Equity, the Statement of Cash Flows and Notes to the Financial Statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union, and as interpreted and adapted by the Accounts Directions issued under the National Health Service Act 2006, the NHS Foundation Trust Annual Reporting Manual 2019/20 and the Department of Health and Social Care Group Accounting Manual 2019 to 2020.

In our opinion the financial statements:

- give a true and fair view of the financial position of the Trust as at 31 March 2020 and of its expenditure and income for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union, as interpreted and adapted by the Department of Health and Social Care Group Accounting Manual 2019 to 2020; and
- have been prepared in accordance with the requirements of the National Health Service Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Trust in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

The impact of macro-economic uncertainties on our audit

Our audit of the financial statements requires us to obtain an understanding of all relevant uncertainties, including those arising as a consequence of the effects of macro-economic uncertainties such as Covid-19 and Brexit. All audits assess and challenge the reasonableness of estimates made by the Accounting Officer and the related disclosures and the appropriateness of the going concern basis of preparation of the financial statements. All of these depend on assessments of the future economic environment and the Trust's future operational arrangements.

Covid-19 and Brexit are amongst the most significant economic events currently faced by the UK, and at the date of this report their effects are subject to unprecedented levels of uncertainty, with the full range of possible outcomes and their impacts unknown. We applied a standardised firm-wide approach in response to these uncertainties when assessing the Trust's future operational arrangements. However, no audit should be expected to predict the unknowable factors or all possible future implications for an entity associated with these particular events.

Material uncertainty related to going concern

We draw attention to note 1.2 in the financial statements, which indicates that the Trust may need additional support in the 2020/21 financial year for an unsupported deficit of £8.902 million, which at this stage is not certain.

As stated in note 1.2, the Trust were working towards accepting a control total for 2020/21 that would have included additional funding of approximately £17 million, but would have left a residual unsupported deficit in respect of cost pressures and additional capacity due to increased occupancy.

These conditions, along with the other matters as set forth in note 1.2, indicate the existence of a material uncertainty that may cast significant doubt about the Trust's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

In concluding that there is a material uncertainty, our audit work included but was not restricted to:

- we assessed the likelihood of NHS Improvement transferring services to other NHS bodies;
- we assessed the information available regarding future funding and planning assumptions for the group and Trust included in the Trust's cash flow forecast over the period under assessment;
- we assessed whether the Trust had updated its cash flow forecast to reflect the impact of Covid-19;
- we assessed the completeness and accuracy of the disclosures in the going concern note.

Overview of our audit approach

Financial statements audit

- Overall materiality: £4.5 million which represents approximately 1.6% of the Trust's gross operating costs (consisting of operating expenses and finance expenses)
- Key audit matters were identified as:
 - Improper revenue recognition
 - Valuation of land and buildings

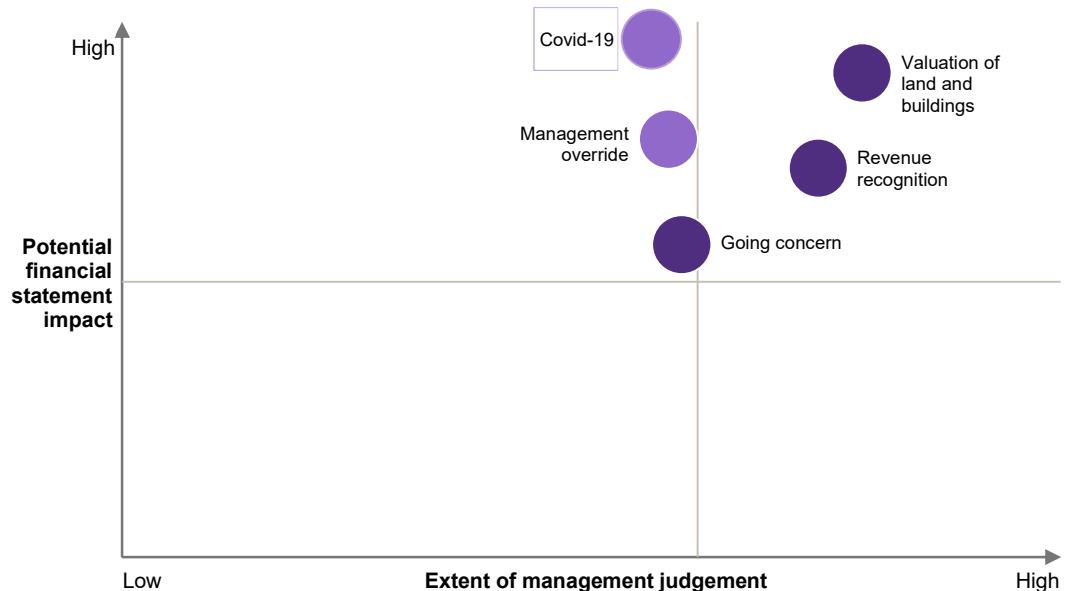

Conclusion on the Trust's arrangements for securing economy, efficiency and effectiveness in its use of resources

- We identified one significant risk in respect of the Trust's arrangements for securing economy, efficiency and effectiveness in its use of resources (see *Report on other legal and regulatory requirements* section).

Key audit matters

The graph below depicts the audit risks identified and their relative significance based on the extent of the financial statement impact and the extent of management judgement.

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified. These matters included those that had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How the matter was addressed in the audit
Risk 1 - Valuation of land and buildings The Trust revalues its land and buildings on a five-yearly basis to ensure the carrying value in the Trust's financial statements is not materially different from current value in use at the financial statements' date. In 2019/20, the Trust requested a full valuation as at 31 March 2020 from its valuation expert. This valuation represents a significant estimate by management in the financial statements. The valuation of land and buildings is based on key accounting estimates which are sensitive to change in assumptions and market conditions. Management engage the services of a qualified valuer, who is a Regulated Member of the Royal Institute of Chartered Surveyors (RICS), to estimate the current value of its land and buildings. The effects of the COVID-19 virus will affect the work carried out by the Trust's valuer in a variety of ways. Inspecting properties could prove difficult and access to evidential data, such as values of comparable assets may be less freely available. RICS Regulated Members have therefore been considering whether a material uncertainty declaration is now appropriate in their reports. Its purpose is to ensure that any client relying upon the valuation report understands that it has been prepared under extraordinary circumstances. In their 2019/20 valuation report the Trust's valuer, Cushman and Wakefield, included a material uncertainty and this was disclosed in note 1.3 to the financial statements. We therefore identified valuation of land and buildings as a significant risk, which was one of the most significant assessed risks of material misstatement.	Our audit work included, but was not restricted to: <ul style="list-style-type: none">• Evaluating management's processes and assumptions for the calculation of the estimate, the instructions issued to the Trust's valuation expert and the scope of their work;• Evaluating the competence, capabilities and objectivity of the valuation expert;• Writing to the valuer to confirm the basis on which the valuation was carried out and challenging the key assumptions used;• Testing the information used by the valuation expert to assess completeness and consistency with our understanding; and• Testing the revaluations made during the year to confirm if they had been input correctly into the Trust's asset register and accurately recorded in the financial statements. The Trust's accounting policy on valuation of land and buildings is shown in note 1.8.2 to the financial statements and related disclosures are included in note 12. Management identified the material uncertainty regarding the valuation of land and buildings due to market uncertainty arising from the Covid-19 pandemic reported by their expert valuer as a significant issue in note 1.3 to the financial statements, and also described the action that it has taken to address this issue.

Key observations

As, disclosed in note 1.3 to the financial statements, the outbreak of Covid-19 has caused uncertainties in markets. As a result, the Trust's valuer has declared a 'material valuation uncertainty' in their valuation report

Key Audit Matter

Key Audit Matter	How the matter was addressed in the audit
	<p>which was carried out in January 2020 with a valuation date of 31 March 2020. The values in the valuation report have been used to inform the measurement of property assets at valuation in the financial statements.</p> <p>The Trust has disclosed the estimation uncertainty related to the year-end valuations in note 1.3 to the financial statements.</p> <p>The Trust's valuer prepared their valuations in accordance with the RICS Valuation – Global Standards using the information that was available to them at the valuation date in deriving their estimates.</p> <p>We obtained sufficient audit assurance to conclude that:</p> <ul style="list-style-type: none"> • the basis of the valuation of land and buildings was appropriate, and • the assumptions and processes used by management in determining the estimate of valuation of property were reasonable; • the valuation of land and buildings disclosed in the financial statements is reasonable.
Risk 2 Revenue recognition	<p>Our audit work included, but was not restricted to:</p> <ul style="list-style-type: none"> • Evaluating the Trust's accounting policies for recognition of income from patient care activities and other operating income for appropriateness and compliance with the Department of Health and Social Care (DHSC) Group Accounting Manual 2019 to 2020; • Updating our understanding of the Trust's system for accounting for income from patient care activities and other operating income and evaluating the design of the associated controls. <p>In respect of patient care income:</p> <ul style="list-style-type: none"> • Obtaining an exception report from the DHSC that details differences in reported income and expenditure and receivables and payables between NHS bodies, agreeing the figures in the exception report to the Trust's financial records and obtaining supporting information for a sample of differences over £300,000, to corroborate the amount recorded in the financial statements by the Trust; • Agreeing on a sample basis income from contract variations and associated receivable balances to signed contract variations, invoices or other supporting evidence such as correspondence with the Trust's commissioners. <p>In respect of other operating income:</p> <ul style="list-style-type: none"> • Agreeing, on a sample basis, income and year-end receivables from other operating income to invoices and cash payment or other supporting evidence; and • Agreeing Provider Sustainability Funding (PSF), Financial Recovery Funding (FRF) and Marginal Rate Emergency Tariff (MRET) funding to NHS Improvement notifications. <p>The Trust's accounting policy on recognition of income is shown in note 1.4 to the financial statements and related disclosures are included in note 3.</p> <p>Key observations</p> <p>We obtained sufficient audit evidence to conclude that:</p> <ul style="list-style-type: none"> • The Trust's accounting for income from patient activities is in accordance with the Department of Health's Group Accounting Manual for 2019 to 2020; • Income from patient care activities and other operating income is not materially misstated.

Our application of materiality

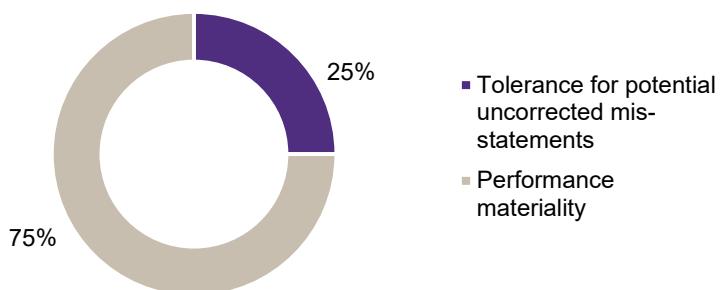

We define materiality as the magnitude of misstatement in the financial statements that makes it probable that the economic decisions of a reasonably knowledgeable person would be changed or influenced. We use materiality in determining the nature, timing and extent of our audit work and in evaluating the results of that work.

Materiality was determined as follows:

Materiality Measure	Trust
Financial statements as a whole	£4.5 million which is approximately 1.6% of the Trust's gross operating costs. This benchmark is considered the most appropriate because we consider users of the financial statements to be most interested in how the Trust has expended its revenue and other funding. Materiality for the current year is at a lower percentage of operating expenses than for the year ended 31 March 2019. This is due to materiality being the same amount in the current year as in the prior year and the increase in the Trust's operating expenses since the prior year. We did not identify any significant changes in the Trust or the environment in which it operates. We have not made any changes to our materiality assessment as a result of Covid 19.
Performance materiality used to drive the extent of our testing	75% of financial statement materiality
Specific materiality	The senior officer remuneration disclosures in the Remuneration Report have been identified as an area requiring specific materiality of £25,000, and at £250,000 for the cash equivalent transfer value (CETV) due to the sensitive nature of these disclosures.
Communication of misstatements to the Audit Committee	£225,000 and misstatements below that threshold that, in our view, warrant reporting on qualitative grounds.

The graph below illustrates how performance materiality interacts with our overall materiality and the tolerance for potential uncorrected misstatements.

Overall materiality – Trust

An overview of the scope of our audit

Our audit approach was a risk-based approach founded on a thorough understanding of the Trust's business, its environment and risk profile and in particular included:

- Updating our understanding of and evaluating the Trust's internal control environment, including its IT systems and controls over key financial systems;
- Substantive testing, on a sample basis, all of the Trust's material income streams;
- Substantive testing, on a sample basis, all of the Trust's gross operating costs; and
- Substantive testing, on a sample basis, of the Trust's material assets and liabilities.

There were no key changes in the scope of the audit from the prior year.

Other information

The Chief Executive, as Accounting Officer, is responsible for the other information. The other information comprises the information included in the Annual Report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

In this context, we also have nothing to report in regard to our responsibility to specifically address the following items in the other information and to report as uncorrected material misstatements of the other information where we conclude that those items meet the following conditions:

- Fair, balanced and understandable (set out on page 73) in accordance with provision C.1.1 of the NHS Foundation Trust Code of Governance – the statement given by the directors that they consider the Annual Report and financial statements taken as a whole is fair, balanced and understandable and provides the information necessary for patients, regulators and other stakeholders to assess the Trust's performance, business model and strategy, is materially inconsistent with our knowledge of the Trust obtained in the audit; or
- Audit Committee reporting (set out on page 40) in accordance with provision C.3.9 of the NHS Foundation Trust Code of Governance – the section describing the work of the Audit Committee does not appropriately address matters communicated by us to the Audit Committee.

Other information we are required to report on by exception under the Code of Audit Practice

Under the Code of Audit Practice published by the National Audit Office on behalf of the Comptroller and Auditor General (the Code of Audit Practice) we are required to consider whether the Annual Governance Statement does not meet the disclosure requirements set out in the NHS Foundation Trust Annual Reporting Manual 2019/20 or is misleading or inconsistent with the information of which we are aware from our audit. We are not required to consider whether the Annual Governance Statement addresses all risks and controls or that risks are satisfactorily addressed by internal controls.

We have nothing to report in this regard.

Our opinion on other matters required by the Code of Audit Practice is unmodified

In our opinion:

- the parts of the Remuneration Report and the Staff Report to be audited have been properly prepared in accordance with IFRSs as adopted by the European Union, as interpreted and adapted by the NHS foundation trust annual reporting manual 2019 to 2020 and the requirements of the National Health Service Act 2006; and
- based on the work undertaken in the course of the audit of the financial statements and our knowledge of the Trust gained through our work in relation to the Trust's arrangements for securing economy, efficiency and effectiveness in its use of resources, the other information published together with the financial statements in the Annual Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

Under the Code of Audit Practice, we are required to report to you if:

- we issue a report in the public interest under Schedule 10 (3) of the National Health Service Act 2006 in the course of, or at the conclusion of the audit; or

- we refer a matter to the regulator under Schedule 10 (6) of the National Health Service Act 2006 because we have reason to believe that the Trust, or a director or officer of the Trust, is about to make, or has made, a decision which involves or would involve the incurring of expenditure that was unlawful, or is about to take, or has begun to take a course of action which, if followed to its conclusion, would be unlawful and likely to cause a loss or deficiency.

We have nothing to report in respect of the above matters.

Responsibilities of the Accounting Officer and Those Charged with Governance for the financial statements

As explained more fully in *Annex 4: Statement of Accounting Officer's Responsibilities* the Chief Executive, as Accounting Officer, is responsible for the preparation of the financial statements in the form and on the basis set out in the Accounts Directions included in the NHS Foundation Trust Annual Reporting Manual 2019/20, for being satisfied that they give a true and fair view, and for such internal control as the Accounting Officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Accounting Officer is responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Accounting Officer has been informed by the relevant national body of the intention to dissolve the Trust without the transfer of the Trust's services to another public sector entity.

The Audit Committee is Those Charged with Governance. Those charged with governance are responsible for overseeing the Trust's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Report on other legal and regulatory requirements – Conclusion on the Trust's arrangements for securing economy, efficiency and effectiveness in its use of resources

Matter on which we are required to report by exception - Trust's arrangements for securing economy, efficiency and effectiveness in its use of resources

Under the Code of Audit Practice, we are required to report to you if, in our opinion we have not been able to satisfy ourselves that the Trust has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2020.

We have nothing to report in respect of the above matter.

Significant risks

Under the Code of Audit Practice, we are required to report on how our work addressed the significant risk we identified in forming our conclusion on the adequacy of the Trust's arrangements for securing economy, efficiency and effectiveness in its use of resources. Significant risks are those risks that in our view had the potential to cause us to reach an inappropriate conclusion on the audited body's arrangements. The table below sets out the significant risk we have identified. The significant risk was addressed in the context of our conclusion on the Trust's arrangements as a whole, and in forming our conclusion thereon, and we do not provide a separate opinion on this risk.

Significant risks	How the matter was addressed in the audit
<p>Risk 1 Financial Reporting and outturn position</p> <p>The Trust agreed a challenging 2019/20 control total target with NHS Improvement (NHSI) of breakeven, including the need to deliver savings of £7.5 million, which would entitle the Trust to the receipt of external support of £17.9 million comprised of £4.9 million Provider Sustainability Funding, £12.0 million Financial Recovery Funding and £1.0 million Marginal Rate Emergency Tariff Funding.</p> <p>There is therefore a risk that the Trust will be unable to deliver its planned budget for the year.</p>	<p>Our audit work included, but was not restricted to:</p> <ul style="list-style-type: none"> reviewing the outturn financial position including savings and assessing the Trust's position compared to its 2019/20 control total; evaluating monthly performance reports to monitor the Trust's financial performance during the year; assessing the Trust's response to the financial pressures arising from the Covid 19 pandemic. <p>Key findings</p> <p>During 2019/20 the Trust:</p> <ul style="list-style-type: none"> exceeded its control total target of breakeven and recorded a surplus of £0.770 million after receipt of the expected £17.9 million funding relating to Provider Sustainability Funding (PSF), Financial Recovery Funding and Marginal Rate Emergency Tariff Funding and a further £0.2 million relating to 2018/19 PSF bonus monies; delivered 93% of its cost savings targets; put in place arrangements to manage the COVID-19 pandemic, including several daily strategic meetings and the implementation of COVID-19 governance arrangements.

Responsibilities of the Accounting Officer

The Accounting Officer is responsible for putting in place proper arrangements for securing economy, efficiency and effectiveness in the use of the Trust's resources.

Auditor's responsibilities for the review of the Trust's arrangements for securing economy, efficiency and effectiveness in its use of resources

We are required under paragraph 1 of Schedule 10 of the National Health Service Act 2006 to be satisfied that the Trust has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources and to report where we have not been able to satisfy ourselves that it has done so. We are not required to consider, nor have we considered, whether all aspects of the Trust's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

We have undertaken our review in accordance with the Code of Audit Practice, having regard to the guidance on the specified criterion issued by the Comptroller and Auditor General in April 2020, as to whether in all significant respects, the Trust had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people. The Comptroller and Auditor General determined this criterion as that necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether the Trust put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2020, and to report by exception where we are not satisfied.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to be satisfied that the Trust has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources.

Report on other legal and regulatory requirements - Certificate

We certify that we have completed the audit of the financial statements of Warrington and Halton Teaching Hospitals NHS Foundation Trust in accordance with the requirements of Chapter 5 of Part 2 of the National Health Service Act 2006 and the Code of Audit Practice.

Use of our report

This report is made solely to the Council of Governors of the Trust, as a body, in accordance with Schedule 10 of the National Health Service Act 2006. Our audit work has been undertaken so that we might state to the Trust's Council of Governors those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trust and the Trust's Council of Governors, as a body, for our audit work, for this report, or for the opinions we have formed.
